### **Kristin says**

The first arc is over, and I guess this is a good time to write an actual review. And...I'm underwhelmed. There is an idea there that is intriguing: the Hit-Girl character herself is intriguing, but... there seems to be a huge emphasis on making bloody battles that just doesn't appeal to me. And... I'm not sure there is much more than that in this title. I will keep reading for the next arc, because I grew up in Canada and that's where the story is going next, but... unless it is much better than what I've read so far, that arc will be my last on this title.

### **Rachel says**

Talk about an explosive conclusion in Columbia. No pun intended.

### **Derek Neveu says**

Hands down the most disturbing little girl in comics!
