## **House of Scorpio** Pat Wallace

The reign of ordinary passions is at an end; the Age of Aquarius is over. The fate of six sisters lies in the House of Scorpio, where they are brought together by forces beyond their control--written in the stars and over the human heart.

### **Haven of Horror! Haven of Love! SCORPIO!**

*The Sisters:*

ARA--the brilliant and regal tutor to the household of the handsome actor Solis finds she must act a part in a dangerous play where lives and love are at stake.

VENA--the beautiful governess fights the demon warlock Chrion for the love and reputation of the dashing horseman, Ramo.

CLAIRE--the dark and comely nurse's love for a famous architect leads her to a wild Saturnalia of unbridled lust and danger.

CELENE--the stunning housekeeper is led into a perilous trap with the brilliant doctor Draco, where her wits and passion are her only weapons.

MENI--the delicate artist tangles in a web of intrigue and suspense where the masterful ambassador Rigo and the arrogant secretary Miyan play a dangerous game for her life.

CYBELE--the love Virgo is trapped in a mesh of deadly poison where everyone is a suspect--including the man she loves.

## **From Reader Review House of Scorpio for online ebook**

### **Danita Cronkhite says**

House of Scorpio is one of my favorite re-reads. A friend of mine gave it to me to read around the time it was first published and I read it every year after that until it fell apart, I have been looking for a replacement copy every since. I am not a fan of Gothics but I really did enjoy this one

---

### **Charli says**

One of my absolute favorite books when I was growing up. Mystery, romance, intrigue and all ruled by the astrological signs of the characters.

I should add that the writing is extremely overwrought and descriptive.

---

### **Danielle Thomas says**

An unforgettable masterpiece. Avon published it as gothic romance in 1978, today it would be classified as SF Fantasy. I still have my copy, which was intact for 23 years. I let my 16-year-old daughter read it and she managed to tear off and lose the cover. GRRR... I carefully re-read it every few years and continue to hope it will be republished in digital format or paper edition.

---

### **Michele Brown says**

I read this a long time ago and wish I could find a copy of it in any condition. Mine was left on top of a file cabinet in my families garage where it was eaten by critters and I would dearly love to read it again.

---

### **Hillary Newton says**

I read this book in the 70's it was a really good story line. I enjoyed it, I want to get another copy because mine is in pieces now.

---

### **Nina Palmer says**

I have a rare copy of this book for sale. Contact me with inquiries about purchase. Nina Palmer, Astrologer, [www.PlanetGirlConsulting.com](http://www.PlanetGirlConsulting.com)

---

**Madalain Ackley says**

I have read this book over and over again since I first found it back in the 1980s. The concept keeps bringing me back.

---

**Janet says**

This book was published in 1975 -- it concerns 6 sisters and their astrological "meant\*to\*be" mates. What I always enjoy re-reading is how their clothes, jewelry, food and surroundings are all influenced by their astrological sign. A very 70s book!

---

**Normalene says**

This is my all time favorite paranormal romance. It is crazy hard to find though. Stars 6 sisters separated by adoption who live in a land of the Zodiac. Each sister is born under a different sign and is most comfortable in the land that complements them. Adventure and danger abound as the sisters try to find each other and a love that matches them astrologically. Very cool characters and interesting use of the zodiac permeates the book. I read it in the 70s and have re-read it often since then. Still love it most of all the paranormal romances. Not a lot of sex or violence or swearing but lots of destiny.

---

**Korie Brown says**

I read and re-read this as a teenager, and it made a huge impression on me. Even then I knew the writing wasn't all that great and the romances overwrought, but the world-building was terrific.

---

**Michelle says**

great book

---

### **Vicki Khouli says**

House of Scorpio ended up being one of those books that you just hang onto forever, not because the writing was so perfect, but because the storyline was just fun. I loved hearing about all of the ways that astrological sign preferences were incorporated into the daily lives of the people of Zodiaca.

---

### **Jae says**

Ehhh. That was a pretty weird book. Fine, I suppose, but I can't even begin to count how many times people were called by their sign or were exactly characteristic of their sign. "Her Virgo intuition" or "his flat Capric eyes". Or "her Cancerian love of custom". Okay, people are totally influenced by their astrology chart. I GOT IT.

---

### **TKay says**

I read this book when it was first published in 1975 and have never forgotten it. Considering that I'm now 55 and have read a minimum of 15 books per month (usually more) over the course of my lifetime, it's amazing that I still remember how strongly this book impacted me and how much I enjoyed it. I'd like to find another copy, but it's out of print, hard to find, and expensive if you can locate it, so I doubt I'll ever get the chance to read it again.

I've tried to find some information about the author, Pat Wallace, but no luck. Since it's been about 40 years since this book was published, I assume she's probably left this world by now, but if she has any heirs, I'd like to send them this message: Please, please make this book available again! An e-copy would be great! The fact that so many people seem to remember this book so fondly indicates that it deserves to stay in print. I've never read anything else like it.
