**Jessica's New Look** Francine Pascal , Jamie Suzanne

Everyone at Sweet Valley Middle School is talking about Jessica Wakefield and Aaron Dallas. They're probably the cutest, most popular couple in the entire sixth grade, and Jessica loves all the attention she's been getting. But when she develops eye problems and has to start wearing glasses, she's sure they will ruin her life forever!

## From Reader Review Jessica's New Look for online ebook

### Sally says

I love how it was vain Jessica who had to get glasses instead of nerdy Liz who wouldn't have minded - and then of course they're never mentioned again after this book anyway because how could Jessica be pretty AND popular AND the one with glasses?!

---

### Marian says

This is one of those books I remember getting as a kid and I remember why. Guess who had to get classes around the time this book came out and guess who wasn't totally thrilled about it? So yeah, my mom and my aunt took me to the bookstore when we were in DC visiting my aunt, and she bought me this to kind of... make things better? I dunno. Glasses and I have long since become friends and it took way less time than it did for Jessica and her glasses.

Points are awarded for the glasses being brought up in subsequent books until she ~magically~ no longer needs them.

### Alexia says

I like this book! I used to Love Sweet Valley Kids when I was a little younger and so I decided to read this series of the twins when they are in 6th grade like me. It didn't take me very long to read so it was a fun quick book!

---

### a says

Of course, it's all too convenient that Jessica only needs to wear glasses for a few months; glasses - meaning imperfect sight, at the very least - would hardly match the later perfect size six. Otherwise, this book perfectly illustrates the six steps all glasses-wearers inevitably go through: denial, anger, bargaining, depression, acceptance and finally appreciation.

### Justine says

This book is one of my favorites in the series! I really liked it.

### Sheila Read says

Jessica are always looking for to be different from Elizabeth

---

### **Samantha Glasser says**

I loved this book because I began wearing glasses in 2nd grade. I loved Jessica so knowing that she had to wear them too made me feel less nerdy for it.

---

### **Shannon says**

Excuse me for not being sympathetic to Jess' plight. "Shannon 1991." I think that by the time I whizzed through all the Sweet Valley Kids books, Mom said it was OK for me to read Sweet Valley Twins, as long as we talked about any questionable stuff. Totally fair.
