Legends of the Ghost Pirates M.D. Lee
ACTION ADVENTURE!

"It was so close I realized the ship had two cannons on her bow. I was certain they were aimed at me," Gus Emery says with fire in his eyes.

Once again, in the third installment of his adventures series, Young Fisher Shoemaker along with Sara Banks are back! Snooping around an old house, they come across a timeworn logbook that once belonged to the less than famous pirate, Captain Bartholomew Bonney who sailed the rocky shores of Downeast Maine. Buried in the logbook is an unidentified entry revealing the location of hidden gold coins. Could there really be gold coins buried on one of the islands – buried treasure? They had to find out no matter what the costs. Fisher had a plan.

The mystery of the logbook leads them these two teens on a high-seas thrill ride adventure.

Best one yet

Really enjoyed this book. Well written with good twists. Adding the new characters and bringing back old ones was well done. Highly recommend for all ages.
