At age twenty-nine, Piper Daniels is having the longest dry spell of her life. When she agrees to be set up on a blind date, she never expects it to end with the hottest sex of her life.

But when she discovers that her very well-endowed secret lover is also her new boss, heartless womanizer and cutthroat CEO Jackson Dane, she chalks it up to a one-time mistake and puts up her best professional front. But Jackson isn't used to rejection, and if Piper thinks it's going to be easy to move on from their tryst, she's underestimated his determination.

I received a copy of this novel via Bare Naked Words in exchange for an honest review.

I can't decide how I want to rate this one, as I felt it left me wanting more. It was perfect, absolutely perfect, until the end. I would say it was a complete five stars until 80%. Then it felt rushed and just didn't hit the same chords the beginning of the novel hit. I was severely let down.

For Goodreads purposes, I'll give it five, but it sits at 4.5/4.75 in all reality. The first 80% was too good to let the ending hold so much sway over my rating.

Edit: okay, 1/5 of this book was not terrible, but just eh. I can't give it 5 Stars. This is weighing heavy on me. I have to change it to 4 Stars.

It's got a little bit of the Christian Grey feel to it, bad boy billionaire, minus the BDSM. Piper and Jackson are the perfect feisty duo. They really even each other out and make for a wonderful read. Their relationship dynamic makes your heart flutter. Ms. Ryan really portrayed their story in a way that makes you feel the couples emotions and feel as if you are in the story with them.

Like I said, the end wasn't my favorite. It felt rushed and I would have preferred Ms. Ryan stretch it out. It was a short novel so there was definitely room to work with. If there hadn't been an epilogue, I would've hoped for a continuation story, such as Misadventures with a Superhero and Bolt by Angel Payne.

It's a super quick read, it took me less than four hours. I didn't actually time how long it took but I started reading at 10AM and it's 1:45PM now. I did take sporadic breaks throughout for lunch and coffee refills, etc.

Definitely read it and let me know your opinion down below!

This was a good read! I had fun reading it.

I really liked Jackson and Piper's relationship. They have great chemistry from the moment they meet and are perfect for each other. They were a great, passionate couple that I really enjoyed reading about.

This was a quick, fun, light, sexy read that I recommend to all office romance fans.

Misadventures with the Boss (Misadventures # 12) by Kendall Ryan ~ 4.5 Stars

Fresh off a breakup, Piper just moved to a new town hoping for a fresh start. Her sister thought it was a clever idea for Piper to meet a guy, have some fun, and live a little. So, she set up Piper's profile on a dating site. Jackson has had a lot of stress with merging his company so he is looking for a release (ahem... below the belt kind of release ?). Jackson 21782 and Fantasy Girl 29 set up a blind date. After a few drinks and flirty banters, the two have a hot one-night stand. The next morning Piper reports to her new job and lo and behold her new boss is none other than the sexy man she was in bed with just hours before.

Jackson is a hit it and quit it kind of guy. He is much too busy for a relationship or clingy women. Jackson is sexy, successful, in control of his life and his business. However, there is more to Jackson than what he is showing everyone. Jackson has a heartbreaking past, growing up in the system. He could not afford much of anything but he managed to crawl his way out and build an empire.

Piper is a homebody. Smart, beautiful, and much more innocent than what her profile says. Piper thought she had one night of fun and life goes on, but her life is about to be complicated as she will be working closely as Jackson's new assistant. Can they separate business and pleasure or will the attraction prove to be too much for either to handle? There is also a little surprise to the plot which will test Jackson and well as Piper's characters. You will not be disappointed with the lovely ending. Steamy, fun, sweet, enjoyable read. Awesome chemistry and beautifully written.

Even though I love Kendall Ryan's work, this one was a total waste of time.

Hero is a world class asshole.

*“Stalking toward my desk, I pressed down on the intercom and said, “Jane, I need you to find me a date for tomorrow night. Some internet site or something should be fine. And when is dinner supposed to get here?”*

Yes, this is what he says to his assistant. And the heroine lets her sister to make an account on dating website. That’s how they met. Later they find out that they are working together and since it’s a short story we don’t get to see any character development.

I've only read a few of the Misadventures books but this one is my favorite so far. It was written at a really good pace for these characters, and had just enough heat to keep me intrigued but not so much that the smexiness took over the story. I liked that we got to see Piper and Jackson grow closer together without their own problems keeping them apart. Even Jackson the commitment-phobe couldn't deny that he needed Piper in his life.

There were some issues that I had near the end that made me like Piper a little less but I got over them quickly and the book ended on a good note for me. It's definitely one I would recommend and if you're new to this author it would be a great introduction to her writing.

THIS is what I’ve come to expect from the Misadventures series!!

The stories are steamy, sexy, and typically dive right in! They’re the perfect length, if you’re looking for something that’s a quick fun read to get your motor revving!

In this installment of the Misadventures series, Kendall Ryan slays this hotter than hot sexy office romance!! I could not put it down! Jackson and Piper set my kindle on fire and I’m not about AT ALL! If you’re a fan of the books in this series or looking for a steamy no holds barred type of read...YOU NEED THIS BOOK! It’s dirty talking, office romance, catching feelings kind of perfection! FLOVED IT!

It’s the perfect setup! Neither character is looking for anything serious. They meet, they hook up, then they

go their separate ways. BUT the fun really begins when Piper realizes that Jackson is, in fact, her new boss. That's when the fun really begins!

HIGHLY RECOMMENDED!

You move to a new city where you don't know anyone. Your meddling sister sets you up on what is supposed to be a "friends only" meeting...but, she actually sets you up for a one night stand. You are in a new town, you aren't doing anything else, you go, the guy is hot, the sex is hotter.

That Monday, you find out your one night stand is your boss.

Welcome to your new town. You've already met your new boss.

Piper and Jackson were a one night stand...who, by definition, never expected to see one another again. They liked one another, and there was an attraction, they both enjoyed their time together.

Boss and employee romances are not new, they are not original...but, when they are written well, and have characters you can relate to, they are one of my favorite tropes. Kendall Ryan hit all the points for this one. You like Piper and Jackson, you relate to them, and their attraction is compelling and their conversations are interesting and fun.

I liked getting to know them, and seeing how they worked out their relationship from a one night stand.

I enjoyed this title and I recommend it.

Okay, this is my favorite one in the series up to date! I blew through this book on a Sunday afternoon. We all

know that I read almost every book that Kendall Ryan writes, so when I saw that she was writing for the Misadventures Series I knew I had to get my grabby little hands on it.

I loved Piper and Jackson! These two had chemistry. OH LAWD they some major chemistry going on!!! They were lighting up the pages with it. Had me fanning myself while reading. Jackson was such a dirty talker, very steamy stuff ya'll!

What I liked the most about this book was that it was so much more than just sex. We got to see their relationship bloom and become into something great. I couldn't help but fall in love with them throughout the story.

The only reason I couldn't give it 5 stars because It did get a bit predictable towards the middle there for me.

Overall, this book was great! I loved the characters and it had great amounts of steamy moments. Even if you are new to the series, I suggest picking this up. Especially if you like office/forbidden romance!

#### **Favorite Quotes:**

Now we need to come up with a username for you... We don't need stalkers tracking you down and trying to make dresses out of your skin.

Hungry and horny was almost too much to bear. Horny. It was a bad combination all around.

At this rate, I think the only person who'll work for you is a superhero.

This time the smile was a full-on grin, like a wolf who'd just spotted a tasty-looking sheep.

I asked, eyeing him like he was my last meal on death row.

Okay, so apparently showing up bearing baked goods had earned me some brownie points, even though she was mad. I made a quick mental note. Buy lots of Danish.

#### **My Review:**

I don't know why I haven't availed myself of this talented scribe's works before, but this was my inaugural outing with the delightful Ms. Kendall Ryan. Where have I been? I smirked and gasped my way through this deliciously steamy, highly amusing, and enticingly clever tale of a good girl finding her mojo on a new job with her cranky and demanding boss, a difficult to please yet sexy powerhouse of a boss who found himself similarly distracted and preoccupied with his super efficient and beautiful new assistant. The characters were smart, endearing, and well nuanced, I adored them. Ms. Ryan's writing style was crisp, vibrant, and breezily engaging. I promptly added her to the top of my list as a new favorite; the stalking will now commence.

**AGAIN** I find myself telling you what a great series this has turned out to be. Every book has been short, sweet and on-point. Not too much of this or too much of that. Just great storytelling!

I really loved Piper and Jackson. I loved how they met. I loved the aftermath. I loved their progression. I even loved how it all wrapped up. It's a short story and normally those tend to lack in depth, but this did not. Both Jackson and Piper were well thought out characters and their *baggage* was incorporated into the story nicely. I had a huge smile on my face the whole time I read this story and I know you will too! I haven't read enough books by this author to say she's a #oneclick for me, but what I have read has always been on-point. So go forth and enjoy another excellent addition to *The Misadventures series*!

## Mindy Lou's Book Review says

Piper just moved to New York for an executive assistant position. She has a few days off before she starts her new job and planned on a few lazy days watching Netflix. Her baby sister has better plans for her. She sets her up on a hook up site and her first date just so happens to be her future boss. She just doesn't know it yet.

Jackson owns his own company. He's driven and too busy for relationships, preferring casual hookups. He's never wanted more until he hooks up with Piper. Being the clueless man that he is, he doesn't know why he wants more. When she shows up as his new assistant on Monday morning, it doesn't help him forget about her.

This was a quick and hot office romance read. Jackson is your typical playboy who only wants to work hard at work but not at relationships. Piper is the type A character that is perfect for an executive assistant. She's organized and takes charge at work but she's typically more reserved in life. Her baby sister has to push her to go out in the new city to keep her from staying home every night.

I like how the author handled these two characters. While Jackson was clueless at first, you do get to see him fall for her and owns up to it when he finally realizes it. I appreciate that so much more than the man fighting it and it was a nice surprise. Piper, despite being the reserved type, was able to let herself be open with Jackson.

This was great for a quick, low angst read. ARC provided by NetGalley.

I really love the Misadventures series as they are all fun stories with a favorite author's distinct flair. When I read the blurb to Misadventures with the Boss I knew I needed to read it. Add the fact that this was a Kendall Ryan book and I was sold! I loved this story!

When Jackson Dane and Piper Daniels were looking for some hot and steamy fun, they never would have expected that their one night stand would follow them both to work the next day. But when Piper discovers her hot and sexy hookup is now her boss will she be able to forget him and not act on all their sexy chemistry?

I thought this was a really cute and fast-paced story! Piper was strong and sassy and the perfect match to Jackson. Likewise, I liked that Jackson was determined to not let Piper forget their night together! This was a fun and hot office romance that had all of the amazing staples we love in a Kendall Ryan book. Bravo! 4 stars! ~Ratula

Piper Daniels is out to make a new life—she’s relocated and is starting a new job. On a dare to get herself “out there” her best-friend sets her up on a blind date. A blind date that ends hot and heavy between the sheets. And it’s a lovely, happy, memory until Monday morning. Day one on the job, and that blind date with the man who rocked Piper’s world is her new boss.

Yes. Her new boss.

Jackson Kane thoroughly enjoyed his one night with the gorgeous red-head. And he’s a bit perplexed over his reaction to the best sex of his life. And still trying to figure it all out when he comes face-to-face with the woman he cannot get out of his head—Piper, his new assistant.

Oh man. Jackson’s not one to take no for an answer. And Piper never mixes business with pleasure. Will they keep things professional or will their desires overrule their heads?

Looking for a quick and dirty—emphasis on the *dirty*—fun read? Be sure to check out *Misadventures with the Boss*. I thoroughly enjoyed my time with Piper and Jackson. Loved their fun, witty banter. Enjoyed their quickly developing relationship and their attempts to not let their hormones drive them. A fun, sexy, quick read! ~ Missy, 4 stars

***“He was addictive. I knew it from one taste. Which meant I had to stay away. Only now there was no escape, was there?”***

In true Kendall Ryan fashion, she gives us the perfect combination of sweet and sexy with her latest office romance, MISADVENTURES WITH THE BOSS. This steamy standalone will most certainly check off all of the right boxes. From beginning to end, I was in a constant state of happiness and just pure giddiness. I’ve gotten so used to this author transporting me to my happy place over and over again. And with Piper and Jackson, she took me there almost effortlessly. When a hot and heavy blind date turns into something so much more, Piper and Jackson never stood a chance. Their chemistry, their attraction was too powerful to deny. The antagonistic banter paired with the scorching hot love scenes, well, you couldn’t have asked for anything better to make your day brighter! I LOVED this latest release by Ms. Ryan. She continues to remind me that she will always be one of my FAVORITES for the genre.

This book was a quick, fun and sexy read.

Jackson was a work horse that wanted to have a fun on the side with no strings attached.

Piper moved to a new city to get a fresh start.

Pipers sister set her up with an online dating profile so she could go out and meet people and make get a little something something. But what she didn't realize that the person she was going to meet was her new boss.

After spending time together they realized that they were falling for each other but didn't really want to admit it. Both of their lives were turned upside down when Piper found out she was pregnant. It destroyed them both but everything worked out in the end.
