Valerie says

Sandra Boynton is a family favorite.

Megan Gery says

I am a serious Sandra Boynton fan, always and forever, and this cute book lives up to the rest.

Chelsie Taylor says

This themed board book could be wonderful in a class! Science this week could be dinosaur themed and we could connect our science to our reading time! I love that a child doesn't have to be careful with this and can still laugh along to the illustrations.

Suzy says

What a delight to have my great niece and nephews (ages 3-8) read this to me. I love Boynton! This is a fun walk through opposites(good/bad, large/small, happy/sad, etc.) illustrated with dinosaurs.

Megan Garrison says

Copyright- 1993

Number of Pages-20

Book format-hardcover, board book

Reading Level-0-3, GR Level- N/A

Genre- Fiction

Lit. Requirement-baby book 1

This was a fun book for small children. It was about opposites, using dinosaurs. Sandra Boynton does a great job of making the illustrations whimsical and fun. The book goes through many opposites such as, "Dinosaurs HAPPY. Dinosaurs SAD" and ends with "Dinosaurs looking right at YOU to say GOODBYE because we're through." It was interactive in the end in a way, with the dinosaurs saying goodbye to the reader and waving. I thought this was a fun book and I would read this to a toddler or smaller child. It was teaching opposites in a fun way and I enjoyed it.

Sierra P says

This quick read would be enjoyable for young students beginning to analyze concepts like, opposites, and how things are alike and different. The book skims through different ways to compare dinosaurs. The pictures are well drawn, showing action relating to the text. The text is largely printed and repetitive to help with letter identification. The only thing I would change about this charming little book is the illustration of the dinosaurs. I believe student may have a hard time connecting to the text because the characters are more cartoonish figures rather than dinosaurs.

JamSam says

I have this one memorized no problem. However I'm frequently distracted by pointing out which of the other Boynton books I have from the back cover. It's kind of like having two books in one.

Sarah says

This book would be good for 7 months to 9 months, and also for ages beyond that. It would be good to use for movement since there are many bolded words. So, for example, if their the word HOT, you could fan yourself so that the child can connect fanning to the word hot. This book is also has great and bright illustrations that will keep a child engaged, especially since there are also dinosaurs

Archit Ojha says

Dinosaurs are a lot of fun and when you get to read about them with kids, the joy increases leaps and bounds. Sandra Boynton's illustrations are indeed charming.

Matt says

One of Neo's all-time favourite books is by Sandra Boynton. He loves board books by this author and wants to read them all. When we saw this, we had to get it. All sorts of dinos doing many fun things. Neo was impressed!!

Aneesha says

There is no such thing as a bad or ugly dinosaur.

Jacob says

A worthy children's book that is fun and engaging and would be easy for a little one to sink their teeth into.

Karl says

Everyone likes dinosaurs.

Windi says

Granddaughter loves this book. Interesting word choices: plump, spiny.

Julianne says

Morgan's Review (7yo)- I liked this book. It was very cool and fun. That's why I'm giving it 5 stars.

Aunt Robbin's Review- Morgan liked this book so much that after we finished it, she immediately picked it back up and read it aloud again. This book was so fun to read. It was really a book about opposites involving dinosaurs. For example, "Dinosaurs happy, and dinosaurs sad." Morgan loved recognizing the opposites that she had already learned about and had fun learning some new ones. This was a very cute book and I would definitely recommend it for k-2.
