Perfectly Imperfect D.A. Young

Handsome attorney Casey Sullivan is a catch, and everyone seems to know it except his beautiful, but slightly deranged girlfriend, deejay Sidra Barton! Just the slightest mention of 'happily ever after' has her ready to run out the door. Not that she'll get far because Casey Sullivan always gets what he wants, and he wants Sidra Barton.

Casey is ready to go the distance for what his heart desires, but the finish line to Sidra's heart will be an uphill journey. Together they will face their pain and fears to obtain the ultimate happiness. Unfortunately, not everyone believes they should be together and will challenge the love they've fought so hard to obtain. Guess they'll just have to learn the hard way not to get between a Sullivan and his woman.

Things are a bit busy in three cities

I was put off by the forceful reconciliation in the first book. Spousal rape is ugly and having witnessed his mother's abuse I was surprised It was part of Jack & Noelle story. Bodice ripping is not sexy. Now this bunch of crazies had the more tame storyline. I have downloaded Alexei & Vivianne story and hope it concludes the family's history of bad decision. I know the author will not be writing Dom a story.

NOW THIS IS THE BOOK THAT I'VE BEEN WAITING FOR TO READ.

I Love, Love, Love Sidra and Casey story.

I couldn't wait to get my hands on this book and begin reading it. I love the fact that Sidra is this awesome girl who will not bend to any males will. I love the fact that even though her childhood was not daisy and roses, she will never forget where she came from. And that those who look down their nose at her did not phase her, or stop her from doing what she needs to do.

I love the chemistry between the two, and that Casey really, really loves her. There is a lot of times in the book that I did not think they would last or be together. But Sidra is here for the long run, and so is Casey.

My heart really goes out for this couple, and everything that has been though. I'm so happy that they get together, and now they can possibly heal each other's wounds.

I couldn't put the book Down

This was a great read. I stayed up to 3:30 in the am to finish. Sidra, dad was a man ho. Who take advantage of women and left broken hearts all over the place. Sidra, sister Nina was crazy who in the end killed herself and their father. Then Sidra, found out that her boss was her brother. This book just kept you on your toes. The rest of the characters in the book just added to all the reading goodness. I am looking forward to the next installment in November. I love this series.

Whew...break time..

Okay..I'm going to take a little break from this series. I basically read Books 2, 3 & 4 over the course of a day and a half in-between chores, running errands and a sleepless night as I have Insomnia.

Still amazed how well fact & fiction are weaved so well together. And the socio-economic political issues are so relatable and I love how Young just goes there!?

So yes..I am officially truly in love with that Sullivan clan just like I am with those Blakemores & Trodats. My family & friends are a diverse group just like the folks in Whiskey Row. I'm dang proud too and couldn't care less who doesn't like it!?

For some reason emotionally book four hit me harder I guess since so much of the emotional baggage was dealt with more in this book than the previous 3. I, my Mom & all my siblings carry that pain. We never got over it..(I mean like really..get over to what - right??) We learned how to live with it.

As usual I was riveted...I cried at points & choked on laughter at others. I swear the sex scenes made me blush so I had to skip them but the drama and sappy romantic parts like Casey's proposal were more than enough for me. And speaking of Casey...uhhh..he, his brothers, Holt, Alexie..I mean like..they are a lil Cray-cray..huh?! I think there should be a small crossover set with them, the Blakemores and the Trodats.???

Oh..throw in Man & Gabriel (Blind Date & A Rainy Night in Georgia) too along with their posse..hahaahaaa.

Please read this series... I bought them, for me they are keepers!

Bravo D. A. Young!?

Great Read

I enjoyed Casey and Sidra's story. I love the kids. That DJ is something else, he is a hoot. I got a good laugh off of baby Jack wrestling a drumstick from Ruby.

This was a great story that held my interest from beginning to end. I didn't have to skip any sections. Looking forward to more of the sexy Men of Whiskey Row.

What can I say, another awesome book! Didn't know Casey was still fighting so many demons. Thank you for giving us the backstory on Sidra. It explained a lot about why she's the way she is.

The title says it all; Casey and Sidra are 'perfectly imperfect' but most definitely perfect for each other!

Too much, a bit all over the place

Not my favorite of the series - it was scattered, there were too many characters, too many plot lines and I did not like the shoving in of Black Lives Matter into a fluffy read. It seemed forced and inappropriate. That's just my opinion- read and make up your own.

Amazing

The men of whiskey row series has me truly invested in its characters! I read all 4 books within 3 days. I just couldn't stop reading! I have never cried, laughed, been so angry and appalled yet so happy when things fell into place. This has been one hell of an emotional ride that i hope doesn't end. It seems every character has a story and i can't wait to see what happens next. I am now a huge fan of D.A. Young. I will read anything and everything by this author!

It took me forever to finally sit down and write this review. I guess I didn't want the book to end and needed a moment to process all that black girl magic D.A. Young was serving up. Ladies this book was everything! The author addressed so many political and social issues that are important today and not only that offers ways we can help in our own community.

Sometimes authors can sound overly "preachy" in books but this book it was like she was speaking life. I loved all the pop culture references and the way the author addressed racism and sexism. (Ok on to this review)

We are back on the row with Casey & Sid. If you are like me you have been waiting impatiently for this story. Sid although her mouth is straight fire is very complicated she has demons from her past that she battles with daily. The problem with demons is that if you don't confront them they will eat you alive. No one can ever accuse Sid of being a coward but she was hurt very deeply as a child and that has shaped the woman she is today. Now I know her nick name is Sid-vicious but she cares deeply and the only man who can deal with her antics is Casey.

This book made me see Casey in a different light. When this man loves he loves hard but his insecurities of losing Sid can often get the best of him. I loved how the author dug a little deep into both characters past. We got to see a young Sidra & Casey as kids fighting for love and the factors that both shaped them into who they are today. I do wish with Casey's violent tendencies in this book we would have got to see him grovel a little bit more or take corrective action (I never did see him atone for his behavior). For me the story was kind of overshadowed by the "secret" Sidra carried (and all the players) e.g. her mom/dad but the issue with Dom and Casey when did they get cool and how did it come about? I would have loved to see how that wrapped up and more on the wedding.

Like all the authors stories we get to catch up with our favorite characters and let me tell you Lex & Viv were the break out stars in this book for me. I cannot wait to hear more about this imposing threat and how these two even came about. Ella is another play that slowly came to the forefront of this book. I believe she has more of a story to tell and her past won't be so pretty as well.

I think this book was a little more action packed than the last with Sidra's past and the characters who make a play to destroy her happiness. This story had a few twists and turns that I did not see coming. One thing I give the author kudos for is the family tree in the beginning of the book. Because this story dealt with some heavy issues Sidra's mother was a great comic relief.

D.A. Young has done it again by serving all this realness in her latest instalment. I previously mentioned that this book was a little different than the others and I loved that the author dug deeper and produced something that was touching and eye opening. You have a fan in me D.A. Young I cannot wait for the next book. I highly recommend this series. Please judge this book for yourselves and not based on this one review.

This series is seriously delicious. I mean, it's just getting more juicy as we go on. This book primarily focuses on Sidra and Casey's relationship and we get so much detail on their lives and why they are the way they are. There's a lot of bombs dropped in this book. More so than the previous novels and we get more action and adventure in this one as well. Also, cherry on top is that Sidra and Casey have the hottest love scenes ever. By far my favorite! So explosive. I mean, hold on to your seats while you read this page turner. I'm enjoying myself thoroughly!

MS. Young you brought this baby straight home?????!!!

Well what can one expect from this author except the absolute best, the over ? percent of pure perfection. I took a while to grab this book, because I believe that Sidra is by far my best female heroine of this series behind Vivianne and I wanted to savor it when I started to read this story. Casey was more Avery speed I think than Sidra but what do I know (this is why I am not the author)?

But on a serious note, this book was of epic proportion. Sidra's camp was the best crazy of them all, while Casey's was so badass and alpha, I do believe MS. Young you must have co-written the alpha book guideline.

It was also super nice to have all of the other favorite character showing up and added a little cameo for each of them, where us the reader went back into reminiscent about each of their stories.

MS. Young this series was the bomb and I can't wait for the "ties that bind series" as I know it will be great for how long we have been awaiting impatiently for on the finale!

Another great instalment in this series. This is Casey and Sidra's story.

I love this couple and the sass in their relationship. Casey shows us his bad ass side which I loved and Sidra's family history is extremely messed up.

We caught up with all the other couples too.

Great series. I would encourage everyone to read this series. I love it.

What A Ride!

Could it get any better. This book had a bit of everything: romance, suspense , comedy, crazy and a whole lot of drama. A must read. Looking forward to the next installment.

Jackueline Graves says

Yes and No

This is the story of Sid and Casey, to say this is an angry story is an understatement. Both characters are angry and even though Casey is in counseling he has a hard time keeping control. Sid is angry because of her father treatment of her mom, she is angry at her mom for subjecting and demeaning herself for a man. Then we meet her mom now who has made her fortune now by being an angry woman and attacking men. Casey is angry because of childhood abuses not to mention the secret he has kept from his brothers concerning the last day of his mother's life. They also are dealing with abandonment issues. And to top it off we have social issues including Black Lives Matter, LGBT issues and psychotic narcissism and so on. So if you are looking for a romantic love story this is not it. If you are looking for a busy story of survival this may be it. Also note there are so many stories going on this book it can be a bit off putting. To the author nice writing but it might have been nicer to focus on a coup!e of storylines not six or more.
