### Can you Put a Price Tag...On Love?

St. Louis caterer Christina Holloway only dates men capable of providing her with the finer things in life. But despite putting her best foot forward, her relationships have all ended in disappointment. It isn't until she attends her sister's wedding that she begins to wonder if maybe it's time to reevaluate her choice in men. Her cousin agrees, and offers a challenge: if she lowers her standards and dates a man with a more humble career, a butcher, a baker, even a candlestick maker, for five consecutive dates, she'll give Christina the priceless family heirloom she so craves.

From the moment she meets Dereon Sanders, Christina is attracted to the sexy bad boy in ways she can't explain. With one touch, Dereon has the ability to make her forget who she is, and the material things that were once so important no longer seem to matter. What was supposed to have been only five dates develops into an insatiable relationship with a man who challenges everything she was raised to believe was important.

Christina's all set to prove to her family that she and Dereon are meant to be together. But there's one problem—Dereon is hiding something. Uncovering the truth will require Christina to put her creative skills to use...

#### **Whew!**

Now this was a BOOK, it has everything, heat, drama, greed, Tom foolery, mental abuse (courtesy of solidifying "mother") , life lessons, and humor galore! This is a book that I didn't want to end, I wanted to stay for wedding, moving into the house, having the kids.....

LOL! The characters were very likable, Angie Daniels is a fabulous storyteller, her writing and wit draws you in and makes you care about the characters, BRAVO!

Christina Holloway was taught at a very young age by her mother that money was EVERYTHING and in order to be happy you needed to find a rich man with lots of it. Following her mother's rule Christina ended up with disappointing relationships. When sexy bad boy Dereon Sanders walks into Christina office she didn't know what hit her. He was totally opposite of all the guys she had dated and she was so confused about how much she was attracted to him. Trying her best to fight off this attraction, Dereon was determined to show Christina the passion he had to offer her. This sexy hot book by Angie Daniel was a great read from beginning to end. I recommend it to be on everyone's to read list. Job Well Done!!

Let me just say that I love Angie Daniels, cause she always brings the heat and a good story, and she didn't disappoint with this one! Like many other reviewers, I read this book in less than a day; started reading it on my way to work and couldn't stop until I was done (TGIF or I would have been in trouble!). I couldn't figure out what Dereon was hiding and it was driving me crazy! Great twist, BTW. I liked the way that Dereon showed Christina how to enjoy the simple things, and that there was more to life than having money. I was pleasantly surprised to 'see' Reggie from A Delight Before Christmas in this book. That whole scene with Christina and Claudia going to Dereon's job site was hilarious. I really hope that Claudia and Max get their own story (soon, please).

My only complaint is that I HATED Dereon's name!

BAP meets Thug Life. Christina had the type of man she wanted all figured out until she met Dereon when he wandered into her office to hire her company to cater his parent's fiftieth anniversary party. Sparks immediately flew and Christina was left to rethink everything she thought she knew. Dereon also had his secrets which can make any relationship difficult. This was a great story and Angie Daniels brought the heat as always.

SAY MY NAME! SAY MY NAME! As usual Angie D did a fabulous job. This book was smoking hot, with a great story to go along with it. Though I'm not too sure I like the first-person heroine point of view. But this one definitely goes on my to read again and again list. If you are a fan of Angie, you will not be disappointed. If you are not a fan, you will be picking up more of her books very soon.

10\*\*\*\*\*stars

Is it even possible to rate a book 10\*\*\*\*\* stars? I have to double the ratings for this book because it was deliciously good. Also what a sexy cover.

Christina is a classy gold digger, but not by choice. Her mother has always instilled in her to marry wealthy. Christina has had disappointment after disappointment with men, and to make matters worse, her sister is marrying a well off doctor and she is a little jealously. At her sister's wedding, her cousin dared her to be different and date a regular guy instead of worrying about their wallet size. Christina meets Dereon and everything changes for her. Dereon has secrets of his own and becomes a mystery to Christina, but as time goes by, she starts to fall for Dereon.

This was a great read for me. From the opening scene, right down to the last page was so good. Dereon was sexy, even when he said the word yo it was sexy. Dereon is that guy that did not seem to fit in Christina's world. The things he said and how he said them always put a smile on my face. One word YUMMY. Christina was use to thinking a certain way in regards to dating and who to date, but quickly let her guard down with Dereon. The first date between Dereon and Christina set the pace for the book and what a first date it was. It was so hot and steamy. The things they did throughout the book gave me a full body blush if

that is even possible.

Other than Christina's family, we read about her friend, Claudia. Claudia was a good friend and funny as well. The author gave us a chapter for Claudia with her encounter with Maximilian and that was so exciting. The author also introduces us to Reggie, Trey, and Braxton. Won't give away what their roles are but I am hoping, begging, and praying that we will get a story with Claudia and Maximilian and later on Trey and Braxton.

Storyline: GOOD

Intimacy: OFF THE CHARTS GOOD / (D.R.I.P) = don't read in public

Enjoyment: GOOD

ebook length: 5438 & worth every penny.

I loved this book. This was one of the best Angie Daniels books I've ever read. The story line had twists that I hadn't anticipated. This is a MUST READ if you are or aren't an Angie Daniels fan and like these type erotica books. I will be reading it again. If I could give it more stars, I would. Christina and Dereon were from two different worlds, but only love and an open mind can determine where a relationship will go. EXCELLENT!!!!

### **Kim says**

You know a book is good when you have to sit for 5hrs str8 and finish it. Ms Danels really out did herself with this one. Christina was you typical buppie. Grew up privileged and was groomed to marry well. Thank goodness for the only person who had any sense in her family Tamara for challenging her to date a regular guy, and not a wealthy one for a chance.

In walks Dereon. The description of him will have you drooling from the first page. Tall, chocolate, bald, ripped beyond belief, and of course throw a little hood on there. Although he was very secretive, and you could tell he was hiding something, I was still rooting for him the entire book to make it with Christy, and boy di he turn out to be the opposite of what I expected....it was a gr8 twist to throw in.

He sex scenes are off the hook! And there are a whole lot of them. They will definitely have you squirming in your seat so read this one at home. Claudia, Christys bestie was so funny with her commentary, I hope there'll be a book with her and Max....I'm wondering if he is in the same profession as Dereon.

The only thing I didn't like about the book was Dereon's name. I just had me thinking about Beyonce's

clothing line the entire book. Other than that this is a must read.

### **Mmoseley says**

OMG this book is amazing! Dereon and Christina had instantaneous chemistry at first sight! The scenes were so hot it made your blood burn and a need of a cigarette! I have reread this book several times. Christina dated guys who were rich but they didn't excite her or they were unavailable . Dereon is a man who is into flipping houses for a living and he not the type of man she normally dates. He excites her and brings her down to his level. I love this story .

### **Cassandra Baker-Durham says**

Angie Daniels has outdone herself with this book. Christina is used to having the best that life has to offer, which makes her a little "better than" than the rest of us. She lives her life based on how her mother wants her to live. Her mother controls her and her sister and dictate who is worthy of dating them.

Dereion is a man with a sexy body and the gift of gab and literally talks her underwear off, but he is also a man with a secret. The drama in this book is hilarious and so is their banter back and forth. Great read!!

### **Deloris says**

First I would like to say that this was the first book by Angie Daniels I have ever read and it won't be my last. This book was so entertaining that I could not put it down. The Chemistry between Dereon and Christina was explosive and you feel the heat coming off the pages. Christiana learned that you can't judge a book by its cover and that true love is worth it weight in gold. I look forward to the second installment in this series I know I will love Claudia's Story also.
