## Starstruck Shifter Kim Fox

Mason is an action star on the tail end of his career and the good roles are getting as scarce as his disappearing paychecks. His agent wants him to date his hot coworker Gisella to boost his image but his bear has other plans when he bonds with Joni, the new intern on the set of his latest blockbuster movie.

Joni is a self proclaimed dork. Well actually, everyone else proclaims it. She is thrilled when she gets a job on the set of a movie featuring Mason Maloney; her lifelong crush with the perfect abs that she's drooled over since puberty. But will she be able to handle it when the hot bear shifter unexpectedly turns his attention on her?

But not just the movie and their hearts are on the line. Something very important to Mason is relying on the success of this film. Will he be willing to give up his newly found mate or will everything he's worked for come crumbling down?

ARC Received for honest review

Starstruck Shifter was the first book I read by Kim Fox, and I am so glad that I found this author. This was a story had it all, it was humor filled, creative, and had romance. This was such a great story, the only thought in my mind after I read the last word was "that was sooo cute." I loved it.

Mason is a 40 year old on the outs action star. He hasn't been in a decent movie in a while, but he has responsibilities that need to be taken care of so he tries to reboot his image. Joni is a recent graduate with a film degree, that has taken on a job as an intern/recycling garbage picker upper. She has idolized Mason for years, and can't believe that he wants anything to do with her, even after he spoke to her post bee sting. He becomes determined to convince Joni that he is interested to her after the set is shut down he invites her to his home in the woods. He has a couple of secrets that he hides from the rest of the world, but since Joni is his mate he doesn't keep them from her, and she loves everything about him. I love how she reacts to everything, she is always so upbeat and how can you not love the big bear? I loved the chemistry between Joni and Mason, they brought out the best in each other and it always leaves you with a smile on your face. I would recommend this book to anyone looking for a happy, light hearted read. The HEA leaves you satisfied with a preview into the future.

### Roxie's Reviews says

"Sweet, Charming, Exciting and Steamy hot!"

You will so love this story!. The characters are amazing!.

Werebear Mason is an action movie star that is on the tail end of his career. His agent is after him to change his life up by buying a mansion or dating a young woman to make him look more appealing. His agent suggests Mason date his co-star airhead Gisella. Only Mason wants more he wants his fated mate. While waiting to go on set he spots a young woman that makes his bear sit up and take notice!. She is not a bomb shell like Gisella not is is kind of dorky lol.

Joni is an intern with the filming company she is dorky and spunky. She hopes to be a famous director one day. Plus she has had a crush on Mason forever!. Joni will crack you up she is so cute, sweet, dorky and oh so funny!. Mason is sweet, charming, kind of shy and all around adorable!. This two make such an awesome couple!. But will their chances get blown when Mason's agent lines him up a date with the bombshell Gisella with all kinds of Paparazzi around!.

You will love this Sweet,Charming, Funny, Exciting and Steamy hot romance!. It is a must read 5-star plus shifter Romance!!.

Starstruck Shifter: Celebrity Bears Kim Fox

Reviewed by SFF Dragon

I absolutely loved this terrifically heartwarming story about true mates Mason and Joni. This is one I'll read again and again.

'Starstruck Shifter' is the first book in the new Celebrity Bears series by Kim Fox and I was given a copy by the author in exchange for an honest review. Kim Fox is a new author to me so I had absolutely no idea what to expect from this short stand alone paranormal romance set in the movie business. It was fantastic! I was pulled into the story from the very first page, read it in one sitting and I absolutely loved it. This is not your typically average story about Hollywood and it has something which is truly unique and special. This is one of those books I'll be reading again and again.

Werebear Mason Maloney is an aging action movie star whose last film didn't do well at the box office and the one he's currently filming is a bad rehash that will probably go straight to DVD. He never wanted to be a film star but his shark-shifter agent and manager, Rick, persuaded him into it twenty years ago and now he needs the money. He's always lived a frugal lifestyle, but he has a wonderful secret he needs to keep going and it costs quite a bit. Enter Joni Meyer, film school graduate, nerd, Mason's true mate and all time number one fan. She's working as an intern on his current film, Mercy Killing 4, and has such a low opinion of it that even she might not pay to see it. Then everything falls apart....

I could go on and on about this truly fantastic story filled with humour as well as sadness and heartbreak, but not in the way you may think, a cast of wonderfully eccentric characters, a bumbling and accident prone heroine with a brain, a true hero with a heart of gold who loves her, a cross-bow, a collapsed roof, and a screenplay that saves the day for everyone, especially..... No, I'm not going to give any spoilers. You have got to read this terrific book. It made me laugh out loud, cry a few tears and left me with a smile on my face. This is one author I will definitely be reading again and I'll look forward to more in this series with relish. 5 very well earned stars. I really wish I could give it more.

---

### **Cynthia Glass says**

Mason is a gorgeous aging action star that is seeing his career falter due to the type of jobs he is being offered ,no one seems to think he can do anything serious. He is so different from the main stream Hollywood type he lives in a cabin in the woods to please his bear, drives a 20 plus year old pickup truck, and the majority of his money goes to homes he has set up for homeless shifter children that must remain a secret. He wants a mate but has almost given up that he will ever find the right woman. Once again he finds himself filming the fourth sequel to his former action series hit and is putting up with his shark shifting manager nagging at him to buy a mansion that he doesn't want and date his silicone barbie doll co-star Gisella to get him back in the headlines. And then he sees her Joni long dark hair, big black glasses and a cute little body to match and he feels and his bear feel immediately drawn to her, she is the one.

Joni is a recent graduate from film school and landed a job as an intern on set of her favorite action stars latest movie she is excited of course she didn't expect to be the garbage girl on the set but she consoles herself with the fact she can catch glimpses of Mason Maloney. While day dreaming that she gets to rescue the film by being the only one capable of stepping in and directing once the original director is unable to continue she is stung by a wasp and meets Mason Maloney in person and that is when the sparks start to fly. Joni finds herself uncontrollably attracted to him, but she believes there is no way that he could be attracted

to a scrawny, dark haired nerd who wears big black glasses. Mason is determined to spend more time with Joni and invites her into his trailer to read lines, there she also starts to fix the script out of habit, Mason realizes her has a real talent and wants her to help him fix more of the lines. Of course the outside world interrupts and Joni runs back out of the trailer, but Mason is not deterred he will find a way to spend more time with his mate and woo her, of course the first thing he must do is manage to survive a one night day with Gisella his co-star to please his manager. Find a nice quiet comfy spot and hang on for the twists and turns as Mason pursues his mate while trying to keep his career a float and his secret hidden. This is an absolute must read!!!! I love the depth to Mason and Joni their story is heartwarming with wonderful unexpected surprises.

---

### **Barbara says**

This is about Werebear Mason Maloney an aging action movie star whose last film didn't do well at the box office and this one probably won't either. Joni Meyer a human is new intern on Mason's film, the job is nothing like what she expected it to be she is collecting bottles and cans. She is just happy to be near her idol. When Joni gets stung by a wasp Mason takes her into his trailer to be looked, while she is there she sees the script and knows that it is no good, Joni and Mason start work on changing it. Gisella is a real bitch and Mason's co-star she warns Joni away from Mason. But Mason wants Joni and they spend the night at his home, going over the script and spending the night together. While at Mason's he gets a phone call that he is needed at a home for misplaced shifter children they go and while Mason is looking at the damage to the home Joni is calming the children down. John the director the next day has a temper tantrum and destroys most of the set he is arrested and Joni after some talking gets to make a movie with her script. What happens to Mason Joni Gisella and the children? I was given a copy for an honest review, barwatts@telus.net I hope there is another one to this one !

---

### **Racy says**

Mason Maloney was a handsome bear shifter who was also a movie star. He is not live like most stars do. He does prefer a mansion, high priced meals, expensive cars, or hot women hanging all over him. Him and his bear loved the cabin in the woods, his old truck and a burger at a local dinner. He love using his money toward more needed things. He has a big heart and anyone would be lucky to have such a caring man.

Joni was what you would call a nerd. Not to many people would look her way. She was smart and had hopes of directing her own film one day. She had a huge crush on Mason Maloney. So when she got a job picking up trash at a movie set that Mason was going to be on, she could not pass it up.

You will love this story. It has some funny parts and some very touching parts. Trust me when I say that you will not be able to not fall in love with Mason and Joni. Yip things are going to get hot and heavy between the two. They are defiantly a perfect match.

---

### **Tanja says**

when it comes to the filmindustry, if you don't have an ace film out , your star starts to dim a little. we find mason filming a mediocre cookiecutter film. his PR man wants him to pretend to have a fling with the obnoxious co-star. he goes along but only reluctantly.

it's that his attention fell onto Joni. tho her studies should get her an in into the film buisiness, all she's able to get is picking up garbage. mooning over mason her second hobby. it becomes a bit more real when he comes to her aid when she's stung by a bee. she's a bit starstruck but also not sure what to make of it. she feels some kind of attraction but mason doesn't act like it, especially when she sees pictures of him smooching with his co-star.

it's then the story gets interesting because mason isn't prepared to let her go just yet. his bear is too invested in her.

it's a sweet story with nice twists and turns, two people getting to know each other and making that all important bond for life.

it's a short read that will leave you fulfilled and happy. a must read

free copy gifted in exchange for an honest review

---

### **Ana says**

Enjoyable the 'Ugly Duckling' meets the 'Handsome Bear' Love the fun and perkiness in this story unlike the darkness I'm used to. Very good change...I still like the other type of shifter stories, but haven't read one like this in a while and I enjoyed it.

Mason Maloney is a bear shifter nearing the end of his acting career and thoughts of ever meeting a mate to grow old with don't even cross his mind.

And Mason can have the pick of the movie lots, but they don't rock his boat at all. Then he sees a goofy looking girl and thinks, "she is the most beautiful girl in the whole wide world"

Jodi has always had a crush on Mason Maloney, action star since she was a teenager and now she is picking up garbage on the set of his latest movie... She can dream can't she? After all Mason Maloney would never take a second look at a nerd like her, she doesn't even have boobs!

I guess being stung by a bee has it's perks, makes all the silliness emerge.

A fun read!

Title: Starstruck Shifter

Author: Kim Fox

Reviewer: Stephanie Jordan

?????????????????????????????????

I laughed a lot with this Bear Shifter book the heroine had a way with talking. Lol Snapple lol have to remember that when I'm ready to cuss in front of my grandkids. This is a completely different shifter book from any other I've read. Just a little romantic tale, Loved it, was very refreshing.

Mason Maloney is a Bear Shifter and a Hollywood Actor who has had several flopped films. Of course you know hollywood once you start aging unless your a sought-after actor you do commercials or nothing. And Mason was not sought-after anymore and he needed money, he was broke but he still had a lot of responsibilities to take care of. Than he saw her, so beautiful! After waiting all these years, finally she's here. Joni Meyer was a fresh out of college graduate for film director it is her passion because that's what she wants to be. Joni was so excited when they hired her on the set of Mason's movie but than they gave her a garbage bag and told her to go around the set picking up cans and bottles. This is what she went to college for?? Than there he was bigger than life and he's talking to me. Mason Maloney asked me for help, Ohhh yes i'll help!!!! I was gifted this ARC for an honest and truthful review.

#### Andi Downs says

A fast fun read and thoroughly enjoyable. :) Loved it. :)

It's about Joni, who is starstruck by an actor, an intern working on set as a rubbish collector. She's a behind the scenes critic of the actors works and secret admirer in her own time.

Mason is the actor, older, running out of hit movies to keep his career up on top. The current project is not doing so well and his leading lady needs a clip round the ear! :) She's not fit anything, let alone acting, but so much fun. :)

Mason spots Joni and is drawn to her, wanting to get close but foiled until she gets stung and he comes to her 'rescue' removing it. He knows she is his mate and Joni thinks he'll never see her as anything other than the 'intern' on set.

Turns out she's good at re-writes and helps Mason and the Director out with many and role playing. The leading lady catches them together and has a tantrum, but you learn she has no interest in Mason, other than furthering her career and making an X jealous.

It was fun and loved the growing relationship between Mason and Joni. Even when she meets his Bear. So cute. After nearly killing him as he's making pancakes, it was funny in so many ways. :)

Everything works out well and Mason gets to actually film Joni's story, taking him back into the limelight and helping those lovely kids he supports; you need to read the book to find out more, but it does have that HEA we all love in Shifter stories. So go grab your copy and the next one to follow. :)

### **Mary Lou Hoffman says**

Title: STARSTRUCK SHIFTER

Series: Celebrity Bears #1

Category /Genre: Paranormal Romance

Recommended for: 18+ due to sexual content

Grammar/editing: B – a few small errors

Received from: Amazon purchase

This is the first book in the Celebrity Bears series. They are each stand-alone and can be read in any order.

Adorably cheesy. Holy peach Snapple!

This was a completely different shifter story. The hunky, heavenly, drool-worthy, shifter.... oh, where was I – sorry, got lost in my daydream for a minute.... So, this time, the shifter doesn't need to rescue our damsel-in-distress heroine. Instead the \_\_\_\_ need help; yea, I don't want to give it away. I'll just say this – if you're in the mood for something a little lighter, a little funny, a little smexy, and a little sweet, then I highly recommend this quick and easy read.

I loved the juxtaposition of Joni and Mason's places in their careers. Joni is at the beginning of her career – young, eager, doing the dirty work just to get her foot in the door. Mason is threatened with the thought of being a has-been and just as eager to accomplish what needs to be done for the sake of \_\_\_\_ (there I go almost giving it away!). I had a special affinity for Joni and her love of an older man, since I've always preferred them that way. Isn't she lucky that the man who was once her teenage crush is ready for her when she is finally of a proper age, fresh out of college?

This is the first book I have read from Kim Fox. I do not want it to be my last.

---

### **Dora says**

Mason Maloney the action star was losing popularity. He was getting old and his films were not as before. But he had very serious responsibilities. He was a bear shifter and in charge of a hundred bear shifters

orphans so he had to keep on. Joni was an intern in the studio and she had a crush for Mason. She was the nerdy type with few physical attributes and not taken seriously by the crew. When Mason met her his bear recognized Joni as his mate. Will Joni accept Mason? I enjoyed very much this story that was entertaining, amusing (laughed a lot with Joni comments) and had a sensitive issue as it is the orphans and their needs. Joni character was special, with a good disposition and vitality. Mason had been an orphan himself and had suffer the lack of someone to take care of him as a child so, he had a deep commitment with the orphan shifters that were doubly rejected. Liked how the author entwined the funny situations with the orphan issue and the outcome of the movie project. Received the ARC for an honest review.

---

### **RedL. says**

2 Already finished? Stars

So no, this didn't really work for me as a distraction. Bearshifter, free copy + extra free chapter...I just grabbed it, greedy me.

It is a short story with a lot of elements I usually can appreciate (instaeverything, dorky heroine, sexy and sensitive shapeshifter) and it was sweet and fluffy with no real angst. It reads very easily and there were some parts that really made me smile, but the short length wasn't compensated by depth. Everything happens so fast, too fast, even for me. It's hard to feel convinced or invested. Mason was refreshing in his simplicity and care for others, his bear seemed sweet too but we only see him once, some of Joni's dorky moments were adorable and I liked the Hollywood setting, even if a bit cliché. It is not even particularly smutty, just one scene. As a quick read, it's very enjoyable, personally I missed backstory and more development. I guess I'm still in the mood for heartwrenching stories.

---

### **Erica says**

2.5 stars...

Funny cute read, but I just kept getting distracted, by the fact this book was marked as a Multicultural& IR read. But who was it? Was it Joni, who was described as having dark hair? Or was it Mason? Who of course was a bear shifter. I really wanted to know what made it so?

---

### **Susan Burgess-Ryan says**

ARC Honest Review.

Holy Snapple!!! Kim Fox does it again. Just when you think she can't do any better after reading her Smokejumpers, she comes out with another AWESOME book.

Mason is not only a bear shifter, but he is a middle aged actor trying to make a go of a movie he knows is doomed from the beginning.

Joni is a quirky human girl trying to become a well known director. instead she is given the lowly task of picking up trash. She d ok want seem to mind because it puts her close to Mason.

Mason she's the quirky girl in her big rimmed glasses and realizes there is more to her than meets the eye, and he knows she is more to him than just a friend. After unexplained events Joni has a few words with the leading actress of the film causing her to quit. Your going to have to read the book to find out why Kim Fox is good at her writing!!!!!!

This book not only shows that Kim Fox knows what her readers want, but it also shows her uncanny ability to keep them reading. Read this book and I promise you will not be disappointed. I highly recommend this book to any body wanting to laugh, cry, and fall in love all at once!
