Cute little shorty.

I expected more. Longer. It ends before their first date - we'll see that in *Birthday Suit* - but I wouldn't have minded a complete book - Noah is sooo adorable!!!

Danielle Frisinger says

Good quick read

This is a quick read. I enjoyed reading it. The story of Ginny and Noah. Good quick read must read.

Monique V says

So cute

Kim says

I loved Noah and Ginny in *Birthday Suit*. This short gives us a sneak peek into the wanna be courtship of the younger, vibrant, charming, sexy, flirty Noah Rivera, and the older, more cautious, single mom, Ginny.

Noah is nothing if not persistent and he is determined to win her over somehow. Ginny is going to try hard to resist his charms and find his faults, but Noah is one charismatic and determined man. This short tease leads into *Birthday Suit*, but can be read as a short stand-alone as well.

litljen says

Strong Suit is a super short follow up to *Birthday Suit* starring Ginny and Noah, two characters we first met in that book. I loved reading more about these two dynamic characters! Noah is hilarious and I was so hoping he'd win over the sweet but protective Ginny. The flirty banter, the adorable interactions---I loved it all! Thank you Lauren Blakely for giving us a peek into their obvious attraction and connection---it was perfect!

*Note: *Birthday Suit* should be ready prior to *Strong Suit*. This story takes place slightly before and then concurrently with *Birthday Suit* but reading the other story first is highly recommended!

4 “Satisfaction is coming” stars!

Strong Suit brings us an developing romance between a single mom and a charming, sexy guy ten-years her junior. They appear to have nothing in common but as they from a friendship we see a spark flicker to life.

Ginny is working hard to provide for her daughter. She doesn't want a guy who is immature and will leave her high and dry. She's been there before and she won't go there again. Thankfully, Noah isn't the kind of man to toy with her. He is charming, sweet, cute, and funny. Best of all, he's a family man which is exactly the type of man she's looking for.

I loved watching Noah and Ginny interact. The banter is entertaining and their flirty interactions have you a glimpse of how good they could be together. The sexual tension is palpable and though Noah makes it clear he'd jump at the opportunity to be with Ginny, she is more reserved. Noah has a way of pulling her in and once the fun starts, there is no stopping it.

This story shows us the start of something between Noah and Ginny, and they give us just enough to turn us on and leave us wanting more. It leads wonderfully into *Birthday Suit*, and even though that book features a different couple, we get to see more of Noah and Ginny and their sweet romance.

Overall, *Strong Suit* is a sweet little treat that satisfied my needs and put a smile on my face.

“Someday I'd like to take you out.”

Her eyes meet mine, and hers seem to sparkle with a little bit of hope, maybe even possibility.

“You would?”

I keep going for it. “I would. What would you say if I asked you?”

She nibbles on her lip, sighing. “I don't know.”

That's when I remind myself that love is a marathon, it's not a sprint. I press my hand over hers. “Don't give me an answer now, then.”

“Why do you say that?” she asks curiously.

“Because ‘I don't know’ isn't the answer I want.”

A smile seems to sneak across her face. “What is the answer you want?”

“The only answer I want is yes.”

April ♥"LOS" ♥ says

This is a fun little novella that goes along with Birthday Suit.

All Booked Out says**The fun flirty couple !**

I adored Noah in Birthday Suit, his personality is infectious. If you haven't read that yet, read this then go get that and you're in for a treat as you get Ginny and Noah's romance continuing as background characters with Lulu and Leo.

But this, such a fun pick me up, made me smile on a cold January evening and in true Lauren style had some good old fashioned heat in there too.

4 Ginny and Noah Stars

I've already read Birthday Suit where we catch up with Ginny and Noah so this was a little glimpse of how they began flirting. It's sweet, romantic and fun. I would love a book about just them.

HEA? No because this is a prequel

Cheating? No

Tre Talbot says

3.7 we gets a glimpse into Noah and Ginny's relationship as co-workers and friends that have that "will

they/won't they" become more vibes. Going in knowing this is just a short add on story I still wish there was a little more to it. I will be checking out Birthday Suit in the future to see where things are heading and what these two have been up to.

Shannon says

3.5*

This was a cute little bonus, but I was hoping it would be an "after" story. I didn't realize it was going to be the start of things between Noah and Ginny- I guess I was expecting we would be seeing what happened with them during, or even after, Birthday Suit. I'd love to see a full length novel for them, or at least a novella, I do love a good older woman/younger man story.

Maria Naydenova says

2.5 stars

I really loved this couple in Birthday Suit and the way it was portrayed by Joe Arde ad Erin Mallon. So I was eager to get into their story thinking we would get to see more of how their relationship evolved after the other book. Unfortunately, I can't say this story lived up to my expectations. It was in a period of time preceding Birthday Suit and I can't say the story interested me at all. I know it was short free story and it wasn't supposed to be anything special, but I didn't feel the vibrant characters those two were when read by those fabulous narrators. It's a short story and good for killing the time, but just don't expect to read anything special than you already know about those two.
