Voyeur

M.K. McDonald

Voyeur M.K. McDonald

Voyeur is intended for mature audiences only (18+) and contains explicit sexual scenes.

When Zoe follows her hot new boss to a club, she has no idea the impact it will have on her already disastrous life.

On the run from a deadly past, Zoe's world couldn't get any more complicated, at least until the rich and handsome Duncan Kincaid walks into it and the 'lifestyle' he introduces her to.

But the man of her dreams has a past as dark and dangerous as hers and is just as keen to keep it secret.

As the sexual chemistry and tension build, their pasts come rushing into the present and leave them both fighting for their lives.

Voyeur is an erotic thriller with adult content throughout from a best selling thriller writer.

Joëlle says

*** I received this book for free from the author through The Fifty Shades Support group on Goodreads in exchange for a honest review ***

This book gives us the story of sweet, caring Zoe who meets troubled Duncan while taking care of his father. Zoe is the first person to really care for his father in that terrible place. Duncan moves his father back home and employs Zoe to take care onsite. That is the start of their romance filled with secrets...

This book is told in multiple POV's and sometimes it wasn't immediately clear which POV it was. I would also have liked a little bit more of Duncan's POV. He's the H in this book and we got to read more thoughts of secondary characters than him.

It's not very clear if there will be another book but this one ends in a mild cliffhanger so I assume there will be and I'd love to read it!

The book description says this is an "erotic thriller". The erotic part is obvious while reading the book but I'm not sure about the thriller part. I have already read so many books with similar or even more suspense which are not described as thriller.

Nice debut for Mr McDonald in erotic writing. I give this book 3.5 stars

Izzy says

I received this book for review.

I was really surprised by how much I enjoyed this book. The story was refreshingly different and I kept trying to figure out what was happening. All the twists took me in quite a ride.

I took a star off for how rushed it felt with certain things. Almost too accepting and go with it for my taste.

Overall the story is fresh and really enjoyable. Definitely interested in reading the rest of this series.

HeatherTX says

What a nice surprise!

Could we possibly get more Zoe, Kyle and Duncan in the future? The way the epilogue ended it left open the possibilities.

Debbie Hanson says

Arc received in exchange for an honest review.

Where to start with this book? I was told it was an erotic /thriller, but I found it not to as scary as a drama/ suspense with some serious hotness tossed in for good measure. The main character, Zoe Miller has a past that has her and son on the run. In this fast paced story, we are given snippets of a young woman history but nothing is given away until the very end. Don't stress I'm not going to ruin it for you.

Miss Miller has relocated with her son and has picked up a nurse job at a local rehabilitation hospital where she is unfortunately caught holding a patients penis, by the son of the well known patient. Duncan Kincaid cannot believe his eyes when he finds the help fondling his unconscious father. Zoe jumps to her own defense, telling him how the facility has zero respect for the patients. Duncan loses it again, this time with the hospital and offers Zoe a job as personal nurse to Mr Kincaid Snr.

After leaving the hospital with plans of a new job, live-in safety, and the incredibly hot Duncan she crazily follows his car and where she ends up , is nothing like she has ever done. Entering a sex club, she is taken by the interest of the other swingers but her eyes are on one man only. After a few weeks, and her double life as Anna and Zoe she and Duncan spend a memorable experience during their "play" at the club. Just a shame she must hide her real identity while nursing his father.

Duncan has his own demons, after the murder of his wife and son, he doesn't live anymore he just exists. That is until Zoe rocked his world bringing along a smart little 4yr old in tow. So when Zoe discovers she is no longer safe she decides to run away yet again. Well will she ever have a normal life? She has found a wonderful man that has regrown under her strength and talent. Only time will tell if Duncan and Zoe will have the happy ever after, or will her oast destroy everything she has worked for and the new love if her life.

The ending of this book had me on edge unsure of what was going to happen, but I wasn't disappointed. I feel that although it completed this portion of Duncan and Zoe' s life, the opening is there for more. One that has me a little curious. Definitely another read I would certainly take a read of.

Nadine Bookaholic says

Wow that was a crazy ride! So many secrets...

Zoe and Duncan have an interesting story. Duncan's father had a massive stroke and he is bedridden in the hospital, Zoe is working at the hospital mopping floor and such but she does much more than that without anyone's knowledge until Duncan walks into his father's room and see's her touching him. To say that Duncan flips out is an understatement, he goes ballistic and not only has her fired but pulls his father from the hospital. Now it's not as bad as it sounds for Zoe, after Duncan had spoken with her and found out what exactly was happening he offered her a position as his father's caretaker at his home.

Well, her is where the secrets begin but they don't end. This was a highly erotic story of the mind. Masks, fake names, secrets, plans, secret sex clubs, everything you do to prevent anyone from knowing the true you. While reading this I thought it was a stand alone but after that ending....it seriously better be the first book in a series or a trilogy. I WANT MORE!!!!

I have received this book for free from the author through The Fifty Shades Support group in exchange for a honest review. and I have purchased this book through Amazon

Nikki says

I received this from the author in exchange for an honest review.

I really liked this book. I liked how Zoe and Duncan started their relationship and the secrets they had at the club.

My only complaints would be that I wished it was longer and delved more into the back story of why Duncan is the way he is. Or what happened with Zoe.

We know it has something to do with her family but not too much beyond that. The ending seemed to come on quickly ... a little too quickly. Who was sending the threats? Do Zoe and Duncan keep moving forward with their relationship? A lot of unanswered questions for me.

The epilogue kind of makes it look like there is a possibility for another book.... so I will keep this in my look out list to be sure I don't miss it if there is one.

So all in all I really enjoyed this book it was nice and steamy with some drama and suspense thrown in there and was written nicely

Biggest complaint: I wish it was a lot longer. I sure hope there is another book to follow it up.

Charla says

I received a copy of this book in exchange for an honest review.

Summary

Duncan Kincaid... billionaire? confident, caring son? sad, lost man?

Zoe Miller... maid? mother? caring, sexy woman?

After a chance, awkward meeting over his father's sickbed, Duncan hires Zoe to take care of his father in their home. She and her son will live inside the uber secure fortress that is the Kincaid home. Zoe jumps at the idea of not only better money, but extra security for her son, Kyle, and herself.

Can two people so wrapped in secrets and intrigue come together under even more secretive circumstances and forge something real?

Review

It has to be said, there IS such a thing as too much intrigue. Overall, I enjoyed reading this debut novel, but there was a bit too much missing to make it hit my 'best' list.

The characters, even supporting characters, were eventually fleshed out enough to be engaging. With so many unknowns about everyone's backgrounds, though, it took quite awhile to get there.

There was also a bizarre amount of world building/setting. Bizarre in that there are points where directions are given, down to the names of streets, but the more broad, general idea of who these people are in the world (Duncan does attend a 'red carpet' type event at one point, but very generically) is left out.

I did enjoy the knowledge that comes with the multiple 3rd person points of view. It would have been nice to get a little more from Duncan, but otherwise it was clear and helpful.

While I did feel some things were a bit rushed, I really appreciated the lack of extra drama and angst around the culmination of the main relationship. With so much else going on it would have been over-the-top to add that.

Finally, that epilogue.... Ugh!!! It's like the end of the Harry Potter novels in reverse (I always hated the quick wrap up of the rest of their lives.) In this case, I was almost, sorta content and then ... Bah! I hate waiting for the next in a series. Lol.

I give this debut a solid **3.5**

Sabrina says

Steamy and incredibly erotic, this book follows "Zoe" as she becomes a caretaker for the illustrious Kincaid family. Living on the estate with her son, Kyle, the sparks begin to fly when she meets the brooding master of the premises. The entire staff hold his secret....and she can tell no one her own tragic secret.... When will the lies and secrets finally untangle?

A well written story with deliciously tantalizing details. A mystery and escape from everyday life...Fifty Shades has nothing on this story! I hope there's more to come.

Kirstie says

I was given a free copy of this book for an honest review.

It was a quick read, fairly fast paced. Likeable characters and not just the main ones. I'm not sure if this is going to be the start of a series? I felt it was left open for a 2nd book.

I'd certainly read more by this author especially if they were slightly longer. Overall and enjoyable read and I'd be happy to recommend.

~ Cariad ~ says

3.75 stars!

So pleased that by the end I had all the answers I needed to what was going on in this one!

Angela says

Such an unusual book and I was really surprised by how hooked I was. For a short story it had a deeper plot than I expected and with the constant twists I kept trying to figure out what was happening. One thing - I did feel like we would have benefited from more backstory on Zoe and Duncan, so we could better understand their motivations. But really, so different than the book description outlined and I enjoyed that.

Annette Oliva says

A review copy was provided in exchange for honest review.

Voyeur by M. K. McDonald is a fast-paced, sexy, thrilling read. Zoey Miller meets Duncan Kincaid in less than desirable circumstances, but that doesn't stop him from hiring her to care for his father. Wanting to learn more about her new boss, Zoe follows Duncan to a sex club. That's where their attraction begins. When she moves into Duncan's estate to begin caring for his father, their attraction intensifies. But the secrets they each keep threaten to destroy their chance at a future.

I really enjoyed this book. This is the type of book that really leaves you wanting more. With some of secrets revealed a little at a time, it leaves you wondering what would happen next. I really did not want to put this book down. It is left with a little cliffhanger, so I really hope there will be another book.

Peggy says

Complimentary copy provided by author for an honest review.

I found it a very erotic story not so much a thriller but more suspense. Since the end is not so much closed I hope there will be a next book. I would love to read more from this author.

You will get to know Zoe who's working as a nurse doing the night shift in a hospital when she meets the rich and handsome Duncan Kincaid. But the meeting begins curiously when Duncan is in the room just when the nurse is holding his father's penis in her hand.

I know what you're thinking right now so hold your horses she was just cleaning his father because the other nurses don't take time to do it.

Duncan quickly discovers that she only cares about her patients and since he found out how this hospital works he gets her fired but not before he hires her to come at his estate to take care of his father.

She accepts his offer but there's one big secret her son and children are not allowed on the estate. But Duncan has also his own secret.

Still Zoe is intrigued by her new employer and follows him to a club to find out that this is a highly private

Swinger's club, but who will recognize her with the mask on. She only want's to see what Duncan will do.

Will the both explorer their chemistry to each other or will they both stay Voyeurs??

Jazmín Marín says

I was provided with a copy of this book in exchange of an honest opinion

3.2 Stars

Zoe is a nurse who works at a hospital where she meets Duncan. She's taking care of his ill father and he takes her to work in his house a the caretaker. She goes there with her 4 year old son Kyle. She's intrigued by Duncan who's brooding but alluring.

We know from the beginning she's hiding something and the mystery follows the whole book.

To me the story felt too rushing, the book was too short. I personally love descriptions, of physical appearances, clothes, places and I didn't get much of that hence the rating.

I liked it was written in 3erd person and through different POVs but it was a bit confusing sometimes. The sex scenes were well written, I loved them.

But I'm intrigued and want to know what happens! There has to be another book! I have so many questions!

A??ela W. says

This was a really good short quick read with a hot book cover. Zoe Miller is working in a hospital cleaning and mopping floors the hospital that Duncan Kincaid's father is in after he had a stroke. Duncan walks into his father's room and see's Zoe touching him and he freaks out and removes his father and has her fired.

After speaking to Zoe to find out why she was touching him he offers her a job as his father's caretaker. This was a hot book I mean it had sex club's with mask even fake names as their attraction for one another heats up each one knows that they are keeping secret's that may make it hard for them to have a future together. I didn't think that I would like would like this book so much and the ending was a surprise to me and I am hoping that book two comes out soon. This book was well written with no errors in grammar or spelling. This was my first time reading this author and I am looking forward to reading the next book.
