## Wedding Day Erin Bevan

Famous Bull Rider Dallas Day met Cassie Bailey briefly in high school, but her plain looks and quiet personality left no lasting impression on him. Cassie, however, couldn't say the same about Dallas.

Their paths cross again ten years later when Dallas is home recovering from an injury, and Cassie is the only veterinarian who volunteers her services at the home-town rodeo. She's jump-starting her new practice, and every eligible man within a ten-mile radius is trying to land a date with the attractive vet.

Dallas' older brother bets him that, even with all his charm and fame, Dallas can't land a date with the reserved lady vet. Not one to turn down a challenge, Dallas makes it his mission to win a date with Cassie. After seeing her, he realizes they've met before, but he doesn't remember her being so pretty. His persistence pays off, but when Cassie finds out about the bet, their new love is put to the test.

Determined to win her back, Dallas meets his biggest challenge yet: saving her life when a casual admirer turns into a deadly stalker.

## From Reader Review Wedding Day for online ebook

### **Karen says**

Title doesn't really fit. More like the Vet wrangles the Bull Rider.

Rodeo stud finally has a woman who he wants to win but starts it with a stupid bet. Vet is smart, compassionate, chaste & doesn't recognize she's grown to be a beauty. Weird things are happening that amp up the danger factor & the Doc seems to be at the center.

I enjoyed the challenge & intrigue woven in this story.

---

### **Wendy Jones says**

A big dollop of hunky cowboy and a dab of intrigue. Plenty of plot and chemistry to keep the pages turning. Who wouldn't want to tame a bull rider?

---

### **Lillie says**

Common romance trope of superstar hero who is a womanizer pursuing the beautiful woman who lives an ordinary life and who was the plain girl he rejected in high school ... with a little added twist that the heroine has a stalker. A light read-to-escape story if you ignore that spell check was probably the only editor.

### **Cowboys and Romance**

This was not a sappy love story. It was a western love story though. The characters were believable. You felt yourself rooting for Dallas and Cassie to work things out. Even rooting for little Brianna

---

## **Megan says**

### **A fair bit of drama but very sweet.**

This was a really cute story. We have Dallas who never met a challenge he didn't like and Cassie who is likely to be the biggest challenge. And also the biggest reward Dallas has ever met.

Cassie is innocent, hard working, and a devoted mother. She loves her family and is committed to them and her community so jumps at the chance to move her and her daughter back to Frisbee, TX. The only thing in the way of her peaceful life is a busy boyfriend and a handsome blast from the past. She tried valiantly to steer clear of Dallas' overt charms but doesn't stand a chance when he decides to pursue her relentlessly. He worms his way into her life and into her heart.

Dallas is looking for some fun while he's recovering from a broken wrist and sees his brother's challenge as the perfect distraction. When he finally sees the object of the town's interest, the new veterinarian seems unaffected by his advances. His interest in her becomes something genuine and his eyes are opened to a future he didn't know he wanted. He's ready to make some changes for his auburn-haired beauties and hopes his plans work out.

Meanwhile, we've got jealous people on both sides of this relationship that try their best to come between Dallas and Cassie. Insecurities and misunderstandings do their damage and before we know it there's a whole lot of groveling that needs to happen. The confessions are sweet and the resolution is simply handled despite the dramatic crescendo it reaches.

There was more sweetness than steam for the couple. I'm not a fan of the fade out or skip scene thing for the sexy times, but all the other intimate moments had a good zing so I can probably overlook that.

The supporting cast was really good. Spencer and Brody's story should definitely be told. Eloise is quite the stand-out character and I wish she were present a bit more, even though she's almost more periphery than side-kick.

Overall, this was a great read, very sweet and entertaining. I willingly read and reviewed this ARC from the author.

### **Wedding Day**

Thought the title was wrong. Should have been called 'The Cowboy and his Doctor'. But in the end it was explained. This was an interesting read that had a suspect part to it. Didn't see that really at first. But it worked. They had met in high school. He was the typical rodeo bandit collecting buckle bunnies. She was a wallflower. Not pretty enough for him. Now years later she is a vet he is a champion. Will their differences help or hinder what is going on with her stalker?

---

### **Louise Pledge says**

It was a quick read and a fun story. Grammatical mistakes bothered me, but so many books have them! ?? The ending felt rushed; otherwise I did enjoy the book. I didn't like the title till I got to the last page and understood why it was named that.

---

### **Belle Ami says**

This is my first book I've ever read about cowboy types, and I'm pretty sure it won't be my last. In high school Cassie Bailey suffered the ultimate rejection, she asked school heartthrob Dallas Day to the prom and he blew her off. She also made the mistake of falling head over heels for him. Now the years have ensued. Dallas has become the cowboy equivalent of a screen idol, he's a world champion bull rider, a hunk with the looks and manners to win over any girl, or their mama's for that matter. But, woe-is-me to any woman looking to lasso this cowboy, he has no interest in cultivating a long-term relationship. At least that is until he meets a woman who seems to not be falling for his mouthwatering charm. Cassie, the new veterinarian in this small Texas town, knows one or two things about heartbreak. She lost her mother in a horrifying manner, and she's held a secret unrequited passion for Dallas Day since high school. She has a fiancé who she believes is the safe, and right choice for her. Someone who wants the same things that she does, someone she's not even a smidgen in love with. Well, we certainly know where that's going. Never expecting to ever see Dallas again, she finds herself the object of his attentions when he returns home to recover from an injury. Add a small wager, challenging Dallas, that this irresistible hunk can snag a date with the girl every guy in town is trying to date and you have the set up for a lovely, sweet, sexy love story. Cassie is running away and Dallas is in hot pursuit. Throw in a serial killer for good measure and you have a rodeo, so to speak.

You'll have to read this satisfying romance to find out the rest.

---

### **Jessica says**

Cassie Bailey is settling down to be the town's new vet. Dallas Day is home to recover from a bull riding injury. Dallas's brother makes a bet with him that he won't be able to land a date with the lovely new vet. Dallas, not one to back down from a challenge does his best. Little does he remember that she was the shy one in high school. Cassie is weary to get her heart broken by Dallas whom she has had a crush on since high school. He paid little attention to her then and she doesn't trust the attention he's given them now. Will Dallas be able to convince her to go out with him?

In an Oystery Shell - It was a well-crafted really sweet story that puts this author's other books straight on my TBR.

The Pearls - I met this author at a conference and she was really sweet. I was really happy when I was able to see her personality come out in this well-written story. It was sweet and clean my favorite kind of romance.

The characters were well developed and easy to follow. I thought Dallas was a fun character he was very confident and it was fun to see him try to win over Cassie. Cassie was sweet with a bit of sass. Her daughter was a fun addition and had a moving backstory.

The romance was sweet. I liked that Dallas really had to work to get Cassie's attention. It was fun that Cassie had a boyfriend at the beginning of the story which threw a wrench into Dallas's plan.

I liked that this story had some suspense woven into it. It kept me on the edge of my seat.

---

### **Deb Diem says**

Wedding Day by Erin Bevan hooked me from the first sentence and held me captive until the last. This well-written book is loaded with awesome characters, humor, drama, suspense and spice. Dallas and Cassie's story is a pleasure to read and I look forward to reading more from Erin Bevan in the future. Wedding Day is a complete story, not a cliff-hanger.

---

### **Kimberly Keyes says**

Wedding Day is a fun contemporary romance. The story takes place in small town USA, and all love scenes are "closed-door," for those readers who prefer their romances more on the tame side!

In Wedding Day, a local rodeo star and the new town vet cross paths at the town fair. It turns out they have a past that goes back to their high school days. The romance is believable and sweet, and there are all sorts of side characters that add to the book to make it a thoroughly enjoyable read, perfect for summer on the beach!

---

### **InD'tale Magazine says**

This quick, enjoyable read is equally laced with healthy doses of sexual tension and suspense.

Read full review in the 2016 June issue of InD'tale Magazine.

---

### **Pam says**

#### **Not what i expected.**

Cassie had a lot of baggage in the way of guilt. I enjoyed her interaction with Dallas and his family. Although I wasn't surprised Roger was her tormentor I was surprised he was a serial killer.

---

**Petie McCarty says**

Another great book by Bevan! This is my second and it's as good as Cupid's Angels! Fall in love with Dallas Day right alongside the heroine. Plenty of suspense to keep you reading late. Loved it!
