Finally the plot thickens towards the end, cross paths!

### **Olivia says**

Another great instalment. Will do an overall review soon.

### **Phil Bova says**

Wow! Rucka's run is simply fantastic!

---

### **Patrick says**

Instead of talking about art or plot I'd like to talk about emotions.

This book does an excellent job making me feel what the characters are feeling and feel like I'm in the environment they are in.

I would never have guessed this book would be this good.

This explain a lot of things

### **Laura says**

\*Sigh\* I love this take on Cheetah and her relationship with Diana is very interesting.

### **R.M. says**

This one was finally better than the previous ones. While the plot hasn't convinced me yet, characters seemed to have more depth in this issue.

---

**Marisa Carpico says**

This storyline is really growing on me—largely because of how insanely homoerotic it is.

Me encantan esos guiños a la mitología romana porque justamente es lo que estoy estudiando. Bueno, este volumen me ha gustado aunque creo que ww es un poco inocente aún pero bueno ya iremos viendo su desarrollo como personaje. Me he quedado en un punto culminante y necesito SABER QUE PASA.

Wonder Woman finds that Steve is in desperate trouble. The same trouble that plagues Dr.Minerva

**Dr Rashmit Mishra says**

OK hands down the best artists of the DC universe , i mean i like what Juan Ferreira is doing with Green Arrow but come ON this just amazeballs

I literally stopped at few panels and kept gaping at the art on display it was so good Liam Sharp and Nicola Scott are just that damn good , and honestly the story wasn't that enthralling but the series is progressing at quite a modest pace and the cliff-hanger leaves us with exploration of a few decent possibilities in the future issue .But overall the story is decent but nothing amazing it's the art though that truly makes Wonder Woman issues so fascinating to me .

The next issue will obviously detail the "year one" events but the issue after that is possibly all set to be action packed and ready to reveal certain details about this yet mysterious arc. Sure hope Steve Trevor Survives though

ESE FINAL???

**Arron Compton says**

Really enjoying the rebirth of WW

The story has been interesting so far, and I am loving a lot of the art. Wish these were released more frequently, but I can handle it as long as the quality stays up!

### **Amber says**

Oh man half of me wants to see Steve's transformation for story... The other half is screaming for Wonder Woman to save the day. Urghhh.

---

### **Brandon St Mark says**

So apperently there aren't any Rebirth floppies next week so I'll have to wait a month to get the next part of this story. I dunno, I think my main problem with this book is the way they structured the dual story lines. I wish they had just made it two seperate books. But whatever. The actual story is cool, but takes forever to progress. I really am interested in Cheetah's character tho, her design is hella rad.
