## From Reader Review Dragon for online ebook

### **Sk8rjbe says**

I am a diehard lover of smallville. And this book is perfect. Whether you've never hear of superman or a big fan like me, this book is great for both. Dive into a book about drama, destiny, power, and loyalty. But most of all, secrets, secrets so severe it could end humanity. So if your a sap for drama. An aderedaline junkie, or just checking it out, I guarantee you will love it from start to finish. So take the leap., And join the rush that is smallville!

---

### **Graham Bradley says**

Way weirder than the first book, and probably has a lot to do with why I didn't read any others.

---

### **Victor Orozco says**

Interesting in how Clark is affected by a meteor rock ability that removed his powers and memory of them.  
B+.

---

### **Alex says**

Even though I didn't like this one as much as the first book, it was still really fun to read.

Pete is still consistently called Peter in this book, which is a mild annoyance but still bothers me. Also, Whitney's last name was wrong at one point towards the end, and I don't recall Clark's spaceship being as tiny as it is described here. Other than that, the character's voices ring true for the most part, and this would have been a cool episode.

I really hope I can continue to get these from Interlibrary Loan!

---

### **Imani Young says**

best series ever. i love this book. i recommend it to anyone.

---

### **I. S. says**

Note: This book's title is Dragon. Darned if I know why the official listing doesn't have the TITLE.

---

### **Rebecca says**

A great read and a fun add on to one of my favorite shows. The only issue I have is the same one I always have with every smallville book I've read. It is trying to figure out when in the show it's suppose to take place. Its timeline is screwed up. It's clearly suppose to be season one but it says that Clark saved Lex a year ago which implies it should be at the end of season one or start of season 2. But Lana is still with Whitney and he's still a football player and she's still a cheerleader so that implies it's toward the beginning of season 1 but Clark has his X-ray vision. He gets that after she quits the cheer squad. He also has enhanced hearing and he doesn't get that till season 3 way after his heat vision which he gets in the beginning of season two. It's just confusing with that. I know these books where written in 2002. So maybe the author just wanted him to have those abilities and didn't know when the writers of the show was going to give them to him so they wrote in that he had them. So, Other then the timeline screwup, I really did love the book and felt that it captured the personalities of the characters nicely. I look forward to reading more! I can never get enough from shows I love!

### **Jenny T. says**

Based on the Smallville TV show...This book covers a week in the life of a 15 year old Clark Kent dealing with school, his love life, and his superpowers. Those pesky meteor rocks wreak havoc in his small town again. An entertaining read.
