## Googled by God Pulkit Ahuja

In 1986

Everyone has their secrets... But what if one common student's secret has the potential of bringing down an entire nation's financial markets. What would it take for him to reveal this secret?

In 2014

One of Nation's leading investment bank is in danger of losing its fifty million dollar investment just four weeks after funding a start-up at a valuation of one thousand crore rupees.

In 2015

A man is faced with a most peculiar choice – to avenge his brother's murder or take revenge for his father's betrayal?

Googled by God is a fast moving financial thriller that takes the reader on a journey to the dark realms of entrepreneurship and technology. Revolving around the ever changing worlds of stock markets, investments and money, the reader soon finds himself in the middle of a dangerous game of emotions and karma.

## **From Reader Review Googled by God for online ebook**

### **Ashwini says**

loved reading this book. fast. racy. suspenseful. page turner. a new age thriller I would say. go read.

---

### **????? ???? says**

### **Nice Read**

Nice twist ane plots. Considering the revenge drama is tried and tested story line with added masala of stock market makes it more interesting .

---

### **Karan Darwani says**

"Baap ka, Bhai ka, sabka badla lega re tera Sahil"

---

### **Sujeet Kudale says**

### **Great page turner by Pukit**

Great story telling skills by author considering first book. One star missing not because I disliked something genuinely but my constant comparison with other English classic thrillers. Looking forward to read more from the author.

---

### **Mithun says**

### **Financial thriller!!!**

Awesome book.. Keep us engaged throughout and the way he narrated the story and linking the incidents is good.

Worth reading...

---

### **Siddhartha says**

Gripping at every scene. Loved the way how plot was opened and the ending is a very spiked one. Loved every page and scene. Intensity was so high. Applause!!

---

### **Sunny Bhambhwani says**

Very fast paced. Deals with financial instruments that have recently surfaced in the Indian market which makes it more interesting.

I like the fact that this was made into a quick read of approx. 168 pages rather than a typical novel of 300 pages, which makes it a no nonsense financial thriller. Although, the background of many characters is unknown, but doesn't seem incomplete.

Great job for a first time author! Kudos!

---

### **Sudhanshu Prasad says**

#### **Nice**

Really Good for a two hour read. Believable and not very verbose. Read something like that after a long long time.

---

### **Sai Prashant says**

#### **Nice peice of work**

Loved the way , charactees were brought to life.All characters were closley knit and intandom with storyline. Loved the dramatic ending.

---

### **Gaurav Seth says**

#### **Nice**

Nice one time quick read. Noek sounds good but the author leaves it much untouched, may be because of its a fiction novel and not a science research paper

---

### **Anil Swarup says**

The story is built around misuse and abuse of technology and the internet. The narration is taut that makes for an interesting read even for those that do not understand the nuances of the stock market or the complex technology that goes into managing such markets.

---

### **Arpita Karkare says**

Started off well but then the story didn't quite pick up. Was a little disappointed as I felt the author had picked up a theme with good potential and given it a good momentum to get it off the ground too. Well, maybe the next ones will be so!

---

### **Layacharan Sandadi says**

Rating: 6/10

---

### **Diwakar Grandhi says**

It never seemed like the author was dragging the story. A good one for a quick read. The story covered aspects like greed, revenge to name a few of the shades we see in our day to day life. It seemed to be a bit too easy for the protagonist once he started on his path of revenge. Everything went as planned. However, life is never like that. The beauty of life is that it throws unplanned/unexpected surprises all the time. Maybe the author could have played around some of those while the big plan was being played out. That could have added a hint of realism in this story.

---

### **Varun Reddy says**

Interesting concept but got a little too Bollywood at a later stage.
