### **Dianne says**

How does a Navy SEAL do the honorable thing and stand aside when his best friend asks the woman he loves to marry him? Secret lovers, Reed Tucker and helicopter pilot Delaney O'Connell both fear commitment, but their chemistry between the sheets is explosive. Tuck's best friend has his eye on Delaney, too, but he thinks he's in love and very publicly asks Delaney to marry him. On their next mission, Reaper is seriously wounded and Delaney feels obligated to support him through his recovery, going so far as to say yes to marrying him. After long nights sharing tales and cold beers with Tuck and Delaney, Reaper had no idea that these two were sharing more intimate endeavors, but after having recovered enough for Delaney to back to the front and her helicopter, their wedding seems carved in granite. Or is it? Must Delaney choose between the man she loves, who offers no future and the man she has committed to, who would give her the world if he could?? Meanwhile, Tuck is torn, can he watch Delaney marry Reaper? Only his honor gets him to the church on time to be the Best Man, but is he ready for what he finds?

Elle James can write about those hot men in uniform, clearly depicting the honor and danger they face with a sense of high tension and flip that tension into the sizzle of sensual heat with ease! She makes her characters tough, honorable and completely human, both men and women alike! **SEAL's Honor** is the perfect escape from reality, because we all know that a man in uniform is hard to resist, especially with Elle James at the controls!

DNF - I don't rate books I do not finish. The writing was fine, no issues with grammar etc. I just don't do love triangles very often especially involving best friends.

### **Lesley Book Lover says**

An average read really, I have read better.

I could not read this book fast enough--even had to take it to lunch, and the family yelled at me for reading at the table. It was so GOOD! Super fast-paced with a love triangle twist that was incredibly emotional. I could've strangled Tuck on numerous occasions, but he thankfully got his act together . . . LOL! Great read!

The story of Navy Seal term. Reed is in love with Delaney but Delaney is to marry Tuck. Tuck and Reed are in the same term when Tuck is hurt in a mission Delaney can not break the engagement. Can she do it or will she marry? Story to slow for me.

### **SandyL says**

This book was okay. I did like the characters and was very happy the book was well proof-read and edited. Reed "Tuck" Tucker is a Navy Seal stationed in Afghanistan, working with Army helicopter pilot Delaney O'Connell. Tuck doesn't do relationships - his job doesn't allow him to spend enough time with anyone, and his family history has shown his love is just a word. Delaney lost a fiancé to the war and has vowed to never get involved with another military guy. But we don't get to choose who we love, right? After Tuck and Delaney have one wild night (no one knows), Tuck's teammate and BFF Reaper decides Delaney is the perfect woman and proposes to her. She doesn't want to say yes, but for some reason she can't say no....and things get out of control from there. This is where the story went off base for me. We've got an enlisted guy proposing to an officer and no one bats an eyelash, and then, even though she doesn't love him, she can't tell him no? The other thing that I didn't care for in the book were the euphemisms for body parts when Tuck and Delaney were getting it on - member, channel, nubbin.... just not sexy to me.

### **Amanda says**

What the hello? Am I the only one who read this book? The story overall was good, but it was ruined by the "She said no, but I know he knew she really didn't mean it" scene.

**He grinned. "Kiss me."**

**"No."**

**"Then I'll have to kiss you."**

**"What part of no--"**

**Almost a foot taller than the petite, perfectly packaged helicopter pilot, Tuck bent to close the distance, sealing her mouth with his and cutting off her argument.**

**For a full fifteen seconds, she resisted, her hands pressing against his chest. Then her fingers curled into his shirt and she kissed him back.**

This is the kind of rapey crap that I'd expect from a book written in 1970. Or a Diana Palmer novel. Writing this garbage in 2014 in acting like it's okay is ridiculous and irresponsible. No wonder men won't take us seriously, when women are still writing junk like this.

Moments away from his best friend and the girl who got away are to be married, SEAL Reed Tucker is torn with what to do. He had her in his arms and the passion between them did not lie, but Tuck was not a man to be tied down even though Delaney O'Connell challenged him in every way possible.

This was a bit of a surprise, you don't have any clue what is going to happen. Quickly paced, you feel the emotions surrounding all the characters as they leave to go on missions and the adrenaline that drives them. Excellent read.

I read this book as an ARC through net galley as part of a box collection for an honest review. Total 5 stars!

In Book 1: Tuck and Delaney have a huge problem and it is not the war. It is how to tell the man who loves you and has asked you to marry him that you love him, but not the same way and to make matters worse, you actually love his SEAL teammate? Oh, and his best friend!

The only problem I find with box collections is reviewing them, because reading them all and individually, when they are good, is nothing but pure fun! This collection is by far one of my favorites.

These stories are romantic but they also give us a glimpse and remind us of what we, as civilians, take for granted every day and that is that someone is out there losing life and limb to keep us all safer. Coming from a military family I can tell you that this is a real possibility and that you don't release that breath that you hold until they have retired. Especially if they go on tour.

These books are my favorite kind where you have military action, loyalty and love mixed together. And let us not forget our alpha males. I did not realize she wrote under another name as well. That was my first intro to this author. She has HOT down pat!

So as far as reviewing....each book gets 5 stars and so does the box collection. I cannot wait for more!

### **LOVE IT.**

I love the fact that its a heartwarming yet a sexy hot read at the same time. Of course Tuck and Delaney steams up my kindle.

The story is not overly long just to prove a point and I like it. It's simple just straight no messing about. This story also focuses more on their job as well as their personal life. Yet it's hard cause you cannot fraternize at all. Being a Navy Seal and a Helicopter Pilot for them just makes me in awe cause of their commitments towards the job they do. So my feelings from this read is that you give credit to the men and women who serve for their country. This bought me a smile a tear and also a HEA that I craved for more.

#### **ARC received via NetGalley**

This was a very enjoyable read. A great military themed romance.

There was quite a lot of military terminology at the beginning which made me worry a little that the rest of the book would constantly be like that (too much technical stuff for my liking) but it was toned down further into the story.

I liked the way in which the story was written- starts with present time then switches back to past events that lead up to what is happening in the now

The ending was a pleasant surprise- there was a little twist to the ending of the story, which I didn't expect.

### **Karen ? says**

This was a story about a seal on a mission and he finds his fiancé who he thought was dead. The story itself was good. It was full of action. However, the sex scenes were very stiff...no pun intended. The way they were described was as if the characters were in a regency novel i.e.; nubbin, member, down there. Come on, really?

ARC provided by the Publisher via NetGalley in exchange for an honest review.

I love romance SEAL style. There is just something about the ultimate alpha falling in love that makes my heart go pitter-patter. Elle James writes a really sweet and wonderful, not to mention extremely sexy, SEAL love story.

Delaney O'Connell is an Army helicopter pilot. She is one of the best and has been conducting joint training with SEAL Team 10. She has also fallen hard for Tuck, a SEAL Lt. Tuck has commitment issues, but his best friend doesn't and Cory swoops in and declares his love for Delaney putting everyone on the spot.

As it happens, they all end up deployed in Afghanistan and things go from bad to worse there. As in real war, there are casualties. and it takes nearly losing the two people he loves for Tuck to realize that his life isn't worth anything without Delaney.

### **Thom Swennes says**

Heaven's only a heartbeat away.

Cream rises to the top. SEALs are the cream of the armed forces and stand on the pinnacle of all Special Forces organizations. Vigorous training in all forms of combat and countless things pertinent to the business of war are constantly being exercised until everything is perfect and then do it some more. Every branch of the armed forces has their own elite units and teams from separate branches form teams for special operations.

Air Force Captain Delaney O'Connell (call name Razor) is an expert flyer and pilots an MH-60M Black Hawk. Her flight team is attached to the 160th Night Hawks a Special Operations Aviation Regiment (SOAR), and it is training with a squad of Navy SEALs. All of these warriors love respect, and would die (if necessary) for their brothers or sisters in arms. It is a simple question of honor and a vital part of their commitment. Navy Lieutenant Reed Tucker leads a six-man SEALs Team 10. Tuck, Reaper, Big Bird, Fish, Dustman, and Gator (everyone has a handle) are sent to Kandahar, Afghanistan on a special mission and team up again with the 160th Night Hawks. One of the missions was capturing of Amir Khan Muttaqi, a Taliban leader; in and out.....a piece of cake. The real problem is Razor and Tuck are in different armed forces branches, in love and one doesn't even know the score.

This is a love (or lust) story set in the hot, blowing sands of Afghanistan. Saturated with military acronyms, it reads like a real combat story and the lusty moments between Tuck and Razor adds just enough spice.
