## From Reader Review Shadows for online ebook

### Sameeksha says

3.5 stars actually. The book would have deserved a 4 if not for the lame end. Reading the last 25 pages made me feel like reading the previous 300 pages wasn't worth it for that sort of ending - adrenaline and anxiousness washed off before it was supposed to. Still, a great effort by the author. If not, then I wouldn't have read half of the book in one go.

Content warnings for the book- Sexual Harrasment, Incest, Extravagantly vivid murder scenes, Psychopathic rage and aggression. Definitely not a book for faint-hearted. This book tries to explore the tolerance of your soul and maniacal curiosity of your SHADOW - if there is really such a thing. You would like to tear your gaze away from the book but will find yourself unable to do so. Even after reading about murders one after the other, I still wanted to turn a few more pages to discover new ways of describing mania.

There's a chance I will be reading some other of Shaun Hutson's work after this. No matter the brutality and bluntness of his scenes, the disgust keeps the mind of the reader engrossed.

Really memorable book. I read this about 23 years ago. Worth a read without doubt.

### Loubytee says

I read this book over 20 years ago when I was young and into my horror books. Made the mistake of reading it by candlelight and it scared me to the point I've never read a horror book since. So yeah, pretty good as horror books go!

Yep, I'm at it again. This one fascinated me so much that I just HAD to read it again...fair warning, though....do NOT read this when you scare easily! What, once again, makes this such a frightening story is the fact of POSSIBILITIES....the 'what if'-factor. Isn't it possible that we can achieve astral projection and in that state be something or someone quite different than the person known to all? The 'shadow'-half of us all...the 'evil self'. Jung proposed such a thing...what if he was right after all? Think about it....what if???? (Evil cackle).....sorry, thought the sound effect is just SO appropriate!

### Lisa Powell says

Properly trashy horror.

First book I ever read by Shaun, 24 years ago. There is just something about the over the top brutality that got me hooked.

Worst Novel Ever ...
