Download the first five chapters of *The Rule of Three*, the first book in a thrilling adventure series by Eric Walters! One shocking afternoon, computers around the globe shut down in a viral catastrophe. At sixteen-year-old Adam Daley's high school, the problem first seems to be a typical electrical outage, until students discover that cell phones are down, municipal utilities are failing, and a few computer-free cars like Adam's are the only vehicles that function. Driving home, Adam encounters a storm tide of anger and fear as the region becomes paralyzed. Soon—as resources dwindle, crises mount, and chaos descends—he will see his suburban neighborhood band together for protection. And Adam will understand that having a police captain for a mother and a retired government spy living next door are not just the facts of his life but the keys to his survival.

**Didn't know it was just a teaser!**

What... Where is the rest of the book? I was surprised when the end was an advertisement for the rest of the book. I feel gyped.

**Great Book!!**

This is a great story and wonderful work of art! I do not hand out praise lightly, so in my opinion this story line and set of characters are well on their way! I would like to see this made into a movie! T.V. or the Big screen, either way it would be a wonderful show! Thank you Mr. Walters, I have enjoyed it very much! And I will be finding the rest of the story!
