**Vegas Vendetta** Don Pendleton

**In Vegas, the Executioner hits the mob where it hurts most: the wallet**

Mack Bolan has fifty seconds to cripple the Mafia's operations in Las Vegas. Fifty seconds to take out ten gunmen, destroy a jeep, and down a helicopter. Fifty seconds to snatch millions of dollars away from the international crime syndicate that he declared war on so long ago. For forty-nine seconds, everything goes fine . . .

The Executioner takes aim at the mob's biggest casino as he awaits a duel with two of the deadliest hit men the Mafia has to offer.

## Kevin Findley says

Vegas Baby! Pendleton puts Bolan through his paces as Mack pulls off what may be his most audacious con since 'Battle Mask'. What should be really interesting for many is the comedy routine given by one of the characters. The phrase politically correct wasn't around then, but that is certainly what is being hacked to bits.

These first 10 or 12 novels are the best of the series with Mack's final week before becoming John Phoenix run a very close second.

Find 'em, read 'em and love 'em!

## Kaj Samuelsson says

Bolan using the confusion factor to the fullest and making a big dent in the Mafia money making machine of Las Vegas.

## Luke says

"Where we going, Joe?"

"Where the hell do you think? We're going to Vegas. To nail down that red carpet."

Joe the Monster's "red carpet" was actually a shroud.

And he meant to personally drape it over Mack Bolan's bleeding body.

For double-dam sure, there was no such thing as a sure thing.

It looked as though his dice had come up acey-deucey. It was a crap out.

Quick read good as always in this series

## Chris Haynes says

Bolan lands in Vegas and wreaks havoc.

The Talifero brothers are again on Bolan's trail but they are as ineffectual this time as they were last time. I think Mr. Pendleton really missed an opportunity to make these guys a really scary opponent for Bolan. Although it wasn't explicitly said, it looks like one of the brothers didn't make it. Hopefully we'll find out later.

This was the second book in a row where none of the female characters were mutilated, raped, tortured or killed. Of course, the named female characters didn't have a lot of screen time in this novel.

This was the first time Jack Grimaldi's name was mentioned. He plays a much larger role in the future.

Carl Lyons makes an appearance in this novel but his role is very minor. Bolan saves Lyons after he has been tortured and puts Mack on the trail of the Vegas bad guys.

Hal Bragnola makes an appearance also. He's in the field to personally take Bolan down although he doesn't want to. At the end of the novel, Hal has the drop on Bolan. As Hal pulls the trigger on his sawed-off shotgun, a mafia bodyguard jumps in front of Bolan to take the blast and his dieing shot hits Hal in the leg. Bolan makes his escape. Although Bolan didn't fire the shot, I wonder how Hal will feel about getting shot.

Overall, another fine novel in Mack Bolan's war against the Mafia.

## Peter Castrillo says

Peter Castrillo-- The Executioner was more of a Luca Brasi character who finishes five tours with the military elites, and then becomes a hitman for a Chicago outfit that's taking over a Vegas casino by killing off the owners/gangster army of killers. It was like 1950 characters in an action packed 2017 movie. It was interesting, different, and enjoyable. I recommend for hard true crime enthusiasts.

## Dirk Grobbelaar says

The stuff that teenage memories are made of.

These books are violent and exciting. They also read very quickly. What's not to like if you're a boy?

This particular novel is one of the earlier entries in the series (which now encompasses 600 or so novels), and was still *actually* written by Don Pendleton. Goodreads currently shows the Mack Bolan series as different series' such as *The Executioner*, *Mack Bolan – The Executioner & Super Bolan*, but it's all part of the same thing. Super Bolan? Is it just me or does that sound a bit corny?

A variety of writers have been writing the books over the years, even though the Don Pendleton name still appeared on the covers. Vegas Vendetta contains a lower body count than some of the others I've read, but it

is a lot of fun. All in all, it's still exactly what you would expect from an *Executioner* novel – not rocket science, just rockets.

### **James Hein says**

If you are not looking for literary excellence and want to clear your head between more erudite reads then this series is just the thing. I am finding that books written so long ago have some interesting predictions in them.

### **Timothy Boyd says**

An excellent men's adventure series from the 60s, 70's and 80's. The first 38 books are outstanding but then the series is taken over by a bunch of new writers, writing under the name of the original creator and they take the series into a new direction I did not care for. The first 38 books are very recommended

A good one! Introduces some new characters that will also come back in future episodes. (Carl Lyons, Toby Ranger, Tommy Anders)

I live in Vegas right now and this one was fun. Shooting the front wheel out of a plane landing at McCarran International was awesome. :)
