This is a review of volumes 1-3 which I read together back to back. See the plot section for my thoughts on the individual volumes.

From the mangaka who brought us Dengeki Daisy is a new series in the same vein. Fumi lives with Kyutaro, a boy her own age, and his family of Sweepers, people who specialize in cleaning the minds of those overcome by negative energy and harmful spirits. An orphan with a forgotten past, Fumi is on the hunt for a "prince" but as she becomes more and more the Queen Kyutaro is the only one who can help her control awakening powers... Will she start falling for him?

The art is very reminiscent of Dengeki Daisy, which is no surprise since that is Kyousuke Motomi's style! And frankly I love it! She knows how to design characters that stand out with allies who win you over quickly. I enjoy the balance of comedy and series dramatic moments that keep us guessing. The art provides this really great setting for the story to live in... and I'm quite in love with the freaky bugs and the infested people! It adds this element that DD didn't have that makes the world feel fresh and new, a great thing for a new series.

The characters are quite authentic! Fumi's fears are so relatable and female empowering while not making Kyutaro (Q) a flat love interest! She doesn't want to disappoint and be left alone, but she MUST learn about her family and her past so she bravely faces what is coming, which I quite love. Kyutaro has a totally different problem in that he knows too much... or at least thinks he does. If that mystery continues to advance in Motomi fashion then we we really be rooting for these two by the end...

Fact of the matter, I totally ship these two already. They have these lovely romantic moments that paired with their past history makes for some lovely tension! Then we have the villains which are quite well developed. I love the depth they have... in their brother-sister relationship and how they conflict over his moral code. Then we have the sweeper rivals who want to hold the Queens power for their clan. But its the different queens that make this super powerful! You want to see where Fumi takes this female empowerment...

In volume 1, Fumi gets thrust right into the action as she has to face the darkness inside of herself. This was so, so good! Fumi and Kyutaro have to work together and you really start to see that bond... as well as the forces she is up against. And we learn a lot about the basics of sweeping through this and volume 2. I loved how the handler villain's own morals play against him but also his motivation plays against Fumi and Kyutaro's goals too! So good! In volume 3, we get more of the mixed bag that Motomi does so well... there is more family met, sweeper world building and even a cute aside about cleaning! Plus a major revelation about Fumi's queen problem... This 3 volume arc sets up the premise so well and seriously makes me want to root for these two and their clan.

I originally read volume 1-3 so that I could get into volume 4 which I have as an eARC but as I delved into these volumes I found myself hooked on Kyousuke Motomi's style once again... her art style, her character style and especially her story style! Queen's Quality has her humor, her humanity and her action with a nice

side of the supernatural... so get in here and start cleaning!

This series is really fun and really freaking dark at times.

I need to know more, omg. Fumi....Kyutaro...the damn multipersonality queens. I hope they publish like the wind for this series :|

*More reviews (and no fluff) on the blog <http://surrealalvi.wordpress.com/>*

Volume 2 proves why it was a good idea to take the originally QQ Sweeper in a different direction, renaming it Queen's Quality and changing the premise. Where before it was two kids battling demons who dirty people's minds, now it is about Fumi having a secret ability and history that is intrinsically linked to Kyutaro. We almost get a bit of magical girl transformations since Fumi contains versions of 'queens' inside of herself. Admittedly, I find the whole idea of cleaners and cleaning completely enchanting but motomi has such a way with romance that I'll keep reading.

Story: Fumi and Kyutaro have banded together to keep Fumi from turning into the black queen while also continuing to sweep bugs. Both take on a mission to cleanse the mind of the tainted teacher who was contaminating students with her unhappiness bugs. But unknown to the couple, there is a brother-sister bug handler team that also want to remove the teacher's mother bug - regardless if it destroys the teacher. They are fighting on different sides of the same battle and in the middle is the most powerful cleaner of all - the hidden queen that makes an appearance out of Fumi.

The brother-sister tag team were interesting in their 'lone wolf' all-or-nothing approach to cleansing. Where Fumi wants to try to save the core of the person being taken over, they feel that is a waste of time and efforts and needlessly dangerous and ineffective. So although they are battling the same problem, their methods and methodology cause a huge clash.

Minor spoilers: This volume was interesting because it brought out a new queen - hinting that there is much more to Fumi than just turning into a white or black queen. As well, the new queen recognizes Kyutaro and he isn't sure if she is the person he has been trying to get Fumi to remember or not. This new queen appears to be someone lying dormant inside of Fumi.

Looks like we have interesting plotlines coming as the series continues. Reviewed from an advance reader copy provided by the publisher.

Today's post is on Queen's Quality volume 2 by Kyousuke Motomi. It is 192 pages long and is published by Shojo Beat. It is the second in Kyousuke's new series, Queen's Quality, you need to have read the first volume and previous series in order to understand what is going on. The cover has the main male character on it looking at the reader. The intended reader is someone who has read QQ Sweeper, likes shojo manga, and supernatural love stories. There is no foul language, no sex, and mild violence in this book. The story is told from third person close of the two main characters moving as the story goes on. There Be Spoilers Ahead.

From the back of the book- Fumi Nishioka lives with Kyutaro Horikita and his family of 'Sweepers,' people who specialize in cleaning the minds of those overcome by negative energy and harmful spirits. Fumi has always displayed mysterious abilities, but will those powers be used for evil when she begins to truly awaken as a Queen?

In a bid to move forward, Kyutaro and Fumi share a sweet secret! Later, when they go to The Inside with Sec dai to cleanse Ms. Hayashi's Mind Vault, will they succeed in saving her? And what is Bug Handler Ataru plotting in order to turn Fumi into the Black Queen?

Review- We pick up where the last novel left off with Fumi still trying to deal with having the Black Queen in the back of her mind. Kyutaro and the other Sweepers are trying their best to help her and to discover how to stop the Black Queen from reappearing. Kyutaro does his part to help Fumi by bonding more with her and helping her continue to learn as a Sweeper. But Fumi and us get to see some of Fumi's past and it is rough but Fumi will have to deal with it and so much more. Not as much character or plot development in this volume but the story is moving along and I am still fully invested into this series and the characters.

I give this volume Five out of Five stars. I get nothing for my review and I bought this manga with my own money.

*Queen's Quality* is nowhere as good as Motomi's other story, *Dengeki Daisy*, but it is a fun read. Not a lot of depth, not always a very coherent story, and stiff characters, but the story is a light fun read for a summer afternoon.

This was really good! Still a bit overdramatic at times, but love the concept and characters. A great way to

end off my reading year. (It was a nice surprise seeing this at Barnes and Noble; didn't know it was out til today. Best kind of surprise). Plan on catching up on this series (and *Dengeki Daisy*) in 2018 :)

Ohhh this is getting good!

### **kerrycat says**

this just gets better and better . . .

in the midst of all the darkness and intensity (Kyutari is SO intense) the chapter breaks with "What's Up in Queen's Quality This Month" is unbelievably hysterical, and there is the occasional comment ("can we not talk about boobs") that reminds us that, yes, these are just teenagers. Of course, then there's Nishioka's toilet brush ("hitting with it is so satisfying!"). Seriously.

### **Nidah (SleepDreamWrite) says**

Good volume.

### **Carrie (The Butterfly Reader) says**

The story is moving along nicely. I love the pace it's going, just fast enough to keep me from being bored but not too fast as to spill all the secrets and then we are left with nothing. I love that Fumi is trying to be stronger and she's doing a great job. The art is still stunning.

Q is still trying to figure out if Fumi really is the girl from his past that he fell in love with. He's still battling with not telling her what he knows. They are growing closer through all this though, now they even share a secret.

I'm curious to know more about this other Queen that had even the bug handler scared to death. Is she good? I wonder if she's maybe even more vile than the evil queen everyone is worried about. Just my take.... Can't wait to see how this story progresses. I'm enjoying it so much.
