A Gift of Time Sarah Wynde

She thought she could see everything. Time is proving her wrong.

Ten years ago, Natalya's ability to remember the future cost her the life she wanted when her vision of her fiancé's death tore them apart. Ever since, she's considered her precognition more of a curse than a gift. How can she live in the present when the future looms so large?

But when the night she's long dreaded finally arrives, Natalya's vision and reality diverge. She and her ex, Colin, are drawn into a web of the unexplained, led by a mysterious little girl. Who is Kenzi? And where did she come from? The little girl might be the reason Fate has spared Colin's life, but could she also bring Natalya and Colin together again?

With Colin, Kenzi, her family, the townspeople of Tassamara, and a set of circumstances that nobody could foresee, Natalya must solve the puzzle of a lifetime. Her discovery that her gift is not the only one at work will change the lives of everyone around her as time becomes precious in a most unexpected way... and the clock is ticking.

Krystyna says

Fate or circumstances?

A new main character and a new ghost. How will the past impact on the future and why. Written with feeling and makes you think about Fate and choices. Great read

Stephanie says

Personally, I love this series. I couldn't put it down, except when driving & with other people. Such a fun and interesting read. The town the story is set in is somewhere I would want to live. If you enjoy cozy mysteries with a little light paranormal twist, you might enjoy this book as much as I did, or not...but you should give it a chance. it's worth the time. Thanks for a great read Sarah! Keep them coming, I can't wait for more in the series!!!!

Natalie Solomon says

Great finish to a great series. I hope she writes more using these characters. As with the rest of the series, she does a great job of incorporating supernatural phenomena with every day occurrences. She writes great dialogue. The characters have good depth.

Lori Samborsky says

Really Really enjoyed this one of the collection so far.
Love the characters.

A solid, thought-provoking book, this novel is #3 in the Tassamara series, but unlike the first two, this one is at once less funny and much, much deeper. The story revolves around two adult protagonists and former sweethearts: Natalya, a doctor, and Colin, the sheriff of Tassamara. I've met both before, on the periphery of the first two books in the series. Here they play the leads.

Like many in Tassamara, Natalya has a psychic gift – precognition. Ten years ago, she envisioned Colin's death, which was the cause of a bitter breakup between them. Colin, oh-so-noble man, dumped Natalia after he learned of his impending death – for her own good, of course. Now, Natalya stumbles upon the scene she had foreseen ten years ago, only her vision doesn't exactly come true. Colin is alive. Obviously, Natalya's precognition malfunctioned this one time.

Furthermore, there is a mysterious girl on the scene, a seven-year-old child who doesn't speak. Natalya takes the girl into her home and names her Kenzi – just for something to call her. As Natalya and Colin try to find out who Kenzi is and where she is from, the story unfolds around them, rolling into an unexpected direction. There are no quirky paranormal secrets there, like in the other two books, but the reality is much more frightening, even tragic. And much more plausible, alas.

I won't go into specifics of what Natalya discovered about Kenzi's past – don't want to spoil the surprise for the readers, but I must say that the author handled this shocking twist in the story with surgical precision.

The narrative vibrates with tension, as almost every page poses more questions. Who? What? Why? And no answers, until about 60% into the tale – neither for the readers, nor for the heroes. Then Natalya plunges into a perilous, volatile situation, and the answers are all there, staring her in the face, mocking her, while the tension escalates even faster and the stakes rise. After I passed the 60% mark on my Kindle, I couldn't stop reading until I finished the novel.

The villain is terrifying despite his lack of paranormal abilities. He is as mundane as your neighbor and as dangerous as a suicide bomber. And both Natalya and Kenzi are trapped with him, while Colin is searching frantically for the woman he's never stopped loving. Would she forgive him? Take him back? But first, he must find her and the child alive.

Many secondary characters play important roles in this story, as does the landscape, the lakes and forests of Florida.

Overall, a great book. I only gave it 4 stars instead of 5 for personal reasons: I like lighter reading material better. This book is a bit too dark for me, but for those who don't mind a little darkness in their books, this might be the best in the series.

I missed Dillon but nevertheless this kept me up till 3am because I couldn't stop reading. Sarah Wynde just gets better with every book. She is one of the shining beacons in indie publishing and one of the people that makes it worthwhile drudging through the slush for. Hoping there will be a fourth book soon. Would love to read Grace's story.

Really enjoying the world building in this series.

Deborah E. Robinett says

Lovely time line

I love ghost stories and this was right up my ally. I love the characters in this, they are all so different but are able to have each others backs.

The only way I could get a hold of this book was through Amazon as a Kindle book. None of the libraries that I'm a member of had it on Overdrive, so I finally purchased it. It's less than \$5.00, so not a piggy-bank breaker, but I've probably spent about 8 months waiting for a library to have it. It only took a few days to read so now I'm going to have to harass the author into publishing the next one. (I think she's working on a different series right now.)

Andree says

I've gone back and forth on ratings for this one. 3.5 stars?

Because I really like it a lot in theory. And the first half of this is all kinds of delightful. I love the premise - childhood sweethearts who break up over a premonition. Colin and Nat are adorable and have great chemistry. The book was set back in Tassamara, and I really think Book 2 in this series suffered from being in another location. The family is charming. I loved all the characters. I wasn't even all that upset about all the drama at the end (I mean, it was fairly inevitable).

Two reasons this isn't four stars though:
(view spoiler)

Still, this is super delightful, so I bumped it up to four stars.

Also, why doesn't Grace get a book? WHY?

Denise Belt says

Natalya has known what is going to happen her entire life. As a young woman, she has a vision that Colin,

the love of her life, is destined to die, she knows without a shadow of a doubt, that she will find him dead one day. Colin wanted Natalya to have the life she deserves so he drives her away so she can have a family and kids. What Colin didn't know, was that sometimes fate has other plans.

Natalya and Colin try desperately to find out where a mysterious girl went missing from. The girl won't speak and seems to have some special gifts. Natalya seems to have lost her foresight, so her gift is no help in locating Kenzi's family. When Kenzi and Natalya suddenly go missing, Colin is desperate to find them both. A wonderful love story with some very unique paranormal abilities.

Wendy says

love this series

Nat helps Kenzie, a sweet quiet girl, they found in the woods!

Colin her old love survives his accident instead of dying. really good story, kept me on the edge of my seat. suspenseful, interesting, and loving♥♥♥

Donna says

I am a little sad the next book, if there is one is not available. The family get more interesting and engaging each additional book. This story was a very good one, in bringing in Natayla's back story and introducing even more 'special able' children to the mix.
