Bear Naked for Christmas Edith Hawkes

Christmas in the arms of a handsome stranger wasn't on Katie's wish list, but she sure isn't going to say no and return him!

Spending Christmas in a cozy cabin on Scarfell Mountain is a family tradition, and after a rough year that includes a recent breakup, Katie can't wait for a relaxing holiday with her parents. However, when she meets Noah, the new surly and reclusive stranger next door, her vacation turns to anything but relaxing!

He's smoking hot, cut in all the right places, but beneath all that muscle, Noah is hoarding a dark secret. And like a magnet being drawn towards him, Katie is determined to find out what it is... but not before her ex shows up and throws everything into chaos.

Bear Naked for Christmas is a short holiday novella set on Scarfell Mountain in amongst the Bear Oak clan. It has hot and steamy scenes, and features a guaranteed **Happy Ending** and **no cliffhanger**.

Needed more storyline development. Too many holes.

Elizabeth says

Good

Just the perfect story for something that is short and sweet. Though I truthfully would have loved for there to be more to the story. Will be reading more from this author.

Noah and Katie

This is a very short story. Katie is going to the cabin in the mountains to meet her parents for Christmas. They rent the cabin every year. On her way she sees what looks like someone breaking into the cabin next door. She confronts him, he is abrupt with her and tells her to leave. She is angry with him but feels attracted to him also.

Noah is a bear shifter who moved into his uncle's cabin when he died a willed it to him.

This is a fast insta love story that takes place over a couple of days. Her ex is the villain in the story that causes problems but ultimately is the reason they get together.

Fun read

I love reading holiday romances and during the holidays there are so many deals and freebies. I will be reading more of her books in the future.

Tracey says

This book was a quick read (for me) and I loved it. It was one of those feel good books that make you sigh at the end but had enough heat in it to keep your attention in it. :)

Book Monitor says

A short story that introduces us to Scarfell Mountain. Katie has recently ended her engagement and is spending Christmas with her parents in the mountains she loves. There she meets the big beautiful Noah and then the rest of the book tells you what happens next.

There were some really good bits and some really rushed bits. There were some ridiculous not very well thought through scenarios, and some hot and sexy scenes. So overall a bit of a mixed bag. However in a longer novel with more time and space to develop the characters and the landscape, this series may have some promise.

A 3.5/5 stars from me.

Bear naked for christmas

Loved the storyline and the characters so it's a well deserved five stars and I would recommend this book to everyone

Michelle says

It started well then went downhill really fast. Which is a shame to be honest. Too quick in most places, holes in the plot and little to no character development.

Maria Kiguthi says

Fast read

A quick easy read with romance and a lit action. Not much space for character development, but a good story.

Cait says

Meh

This read was just not for me. It was a little convoluted and didn't have the clean storyline that I enjoy so much.

Victoria says

A very short read

Seven chapters is what you get here, they're seven well written chapters, but personally I would have liked it to have been longer just to answer some of my unanswered questions.

Interesting

This was very interesting and I'm quite curious to learn more about Simon. He's a lowlife and I wanted to see all of his comeuppance. The story was sweet with plenty of steam. A real quick read.

Laura says

Bearly Got Through It

At least I did get through it. It wasn't so bad that I had to DNF. The story was good but it lacked in two areas that are quite important to me. First, the sexy talk was seriously bad. Like, "people mocking bad p*rn" bad. And second, the editing was weak. The typos were so abundant as to be distracting. Also, aren't black bears on the small side? Not huge like grizzlies or polar bears?

I apparently bought, read and reviewed this book in 2016 but have just reread it again through KU. Didn't remember it at all so that says a lot.

An easy read but can't say it grabbed me. No real background or world building, no information about the mountain or anyone living there. Just a quick read that needs filling out.

Believe this is the start of a series so maybe more comes along in next books.

Liked Noah but didn't get to know anything about him.

Thought Katie was a bit quick to judge and dim witted for a doctor. Her actions in not kicking Simons ass enabled Simon to continue being a pain and to hurt Noah.

Some silly errors slipped through proof reading

Gabriella says

Sex heavy

If you are a fan of love at first sight, shifters and descriptive intercourse then this is the book for you. A fun little read which was not slow paced and had interesting characters. Not too Christmassy for you fellow grinches out there.
