## **Broken Desires Azure Boone**

Sofia follows a dare and sets an appointment with the hot gynecologist she's crushing on. After an embarrassing series of events, she feigns a diabetes attack, leaves his office and prays she never sees him again. Two days later, she meets him in the supermarket and he asks her to dinner.

Daniel deals with his dark past by pleasuring women. Very selective with who he chooses for his erotic games, his next available choice, Sofia, doesn't measure up to the kind of woman he needs. But with his options near zero, he decides to take a chance, and soon discovers that pleasuring Sofia opens a door to a rewarding new desire.

## From Reader Review Broken Desires for online ebook

### SueBee★bring me an alpha!★ says

★★★★! Broken series, book 1 of ? Quick, humorous, yet erotic read with an obsessive, troubled, sexually addicted (gynecologist) hero!

*After downloading it I just meant to peek a little, but before I knew it I was pulled by the unusual, slightly humorous storyline, corky heroin and damaged hero. This is a quick read, 100+ pages.*

This story is told from both the hero's and heroine's POV. Sofia Ann Parsons (mid twenties/homecare nurse-wanna-be baker/auburn hair/blue eyes) has, on a dare from her girl friends, scheduled an appointment with a gynecologist she has been crushing on at her grocery store - Dr. Daniel Fletcher, "Mr. Vagina" (thirties/gynecologist/dark hair/blue eyes).

Sofia is sweet, corky and very naive while Daniel is a troubled, dark hero, a self-proclaimed "sophisticated slut". The story immediately hints to sexual abuse in Daniel's childhood and in his attempt at pain management he is controlling his sexual addictions by pleasuring anonymous women, while denying himself. Dr. Sex-addict gynecologist, who has never been in a relationship, constantly in search of his next submissive, meets Ms. Naive Romantic. Well, if did not hint at a train wreck I don't know what would have. Needless to say their first several encounters are (humorous) disasters. While Daniel is home reprimanding himself for his sick twisted desires and needs, Sofia is at home chatting with her girl friend, falling in love... and searching the internet for ways to fix/save him.

BTW Sofia never actually got to have her examination at the doctor's office...

For me this was a quick, cute and very sexy read all baked into one. I did not realize this was going to be a series, but to me Daniel's and Sofia's story wrapped up pretty happily with a sort of cliffhanger (involving a family member) in epilogue.

**Erica Chilson says**

DNF!

The beginning starts out with so much promise: funny, quirky, not really dark- more dusk. The female MC was humorous and ditzy, and the Male MC was intriguing and reserved (he maintained that edge until I DNFed- go, Daniel! Woot!). I was all, "Hell, yeah, this is going to be a 5 star read." I was excited and smiling and intrigued and IN the story...

...& then there is a shift in the writing style. It went from smooth to chaotic and disjointed. The change is during the week (only a paragraph in the book) between when he tells her to leave and when she stomps back to his house (because that's the rational thing to do when someone tells you to LEAVE)- turning into a psycho.

My apologies in advance- I just don't know how to write this without the snarkiness. Sorry. I've read all the other reviews and I just don't understand why no one pointed this out: Sofi is the psycho of the pair.

She stomps back to his house after the week absence. He vaguely explains why HE WANTS HER OUT OF HIS LIFE. He storms out of his house to get away from her. So instead of leaving, Sofi BAKES cakes and cupcakes. As a girl who bakes... it takes hours to make one batch of cupcakes, let alone several cakes and cupcakes- fully frosted w/inspirational & institutional sayings. Plus, she had to go buy the supplies (which meant she left, and then came back), and then make DIE! DIE! DIE! cupcakes??? Am I missing something here? Did I get the wrong book at this point, did the manuscript get messed up?

The catalyst: she hears a phone ringing (in his walk-in closet, in his bedroom, in a jacket pocket with her sonic hearing from the kitchen) all the while she's trespassing like a f'n psycho, baking cakes like Crazy Crocker. A woman answers on the other side (of course)- so she starts making DIE! cupcakes and smashing wine bottles?!? Um, did I miss this commitment talk somewhere between him telling her to get the f out and never come back and the part where he says he's broken... so she takes it upon herself to fix him with DIE cupcakes and drink his booze and smash the bottles in his kitchen?? Did I miss something, here. Where did Sofi go and when is the Priest scheduled for an exorcism visit.

Oh, and when he comes back, she has the nerve to ask him where he was?? F'n bloody hell, psycho woman. I'd call the cops on your ass at this point... and then he says, 'that girl was from before I met you...." as in LAST F'n WEEK??!??

I stopped reading after that...

I'm so disappointed right now I could cry \*pouts\* I was really liked it until Sofi went Fatal Attraction. Somewhere in the rest of the book is a bunny in a pot, I just know it.

### **Black Butterfly says**

THIS COVER IS YUM, YUM, YUMMY!! GOT MY ATTENTION AT FIRST SIGHT (pant! pant! pant!)WOW! (be still my heart along with other parts). THIS IS ANOTHER SERIES ARGGGGGGGGGGGG! I KEEP SAYING I'M GOING TO STOP READING THESE SERIES WELLLLLLLLLLLL, I HAVEN'T. OH! GLAD I DIDN'T STOP, I LOVED THIS CRAZY BOOK AND ALL THE OFF-DA-HOOK CHARACTERS, THE STORYLINE WAS WHEW! SO DIFFERENT. LOVED IT, WAS SO DA\*NED FUNNY AND THE SEX I HAD TO TAKE BREAKS, JUST TO COOL DOWN

O.M.G.!!! IT WAS CRAZY HOT. I GUESS YA KNOW I JUST WENT ON AMAZON AND PURCHASED BK#2 & BK#3. WHY? WHY? AM I SOOOOOOOOOO WEAK!! I THINK THERE ARE PROBABLY MORE AFTER THOSE. GROAN!!

### **Janet Juengling-Snell says**

Ok..this book had me at... Sofia sets appointment with hot gynecologist she's crushing on...

Just the thought made me shudder, but my curiosity got the best of me because I had to know what happens.

What I found was a self-punishing, emotional hurting, dark hero, Dr. Daniel Fletcher, who gives pleasure to women while denying himself. Daniel finds that by denying himself, he can keep his sexual demons under control. And it's been a year since he's had a pain management session with a woman.

Along comes, Sofia Ann Parson, a sweet and innocent woman. She even lives with and takes care of her sick grandmother. After accepting a dare from her friends, she set an appointment to see the man she has been lusting after for months. The first meeting of Sofia and Daniel in his office was hilarious!!! And the next few meetings were humorous disasters as well. Their dialogues and some of her conversations with Daniel were hysterical.

During these meetings we learn that as innocent as Sofia was, she was also a very strong woman, seeing Daniel for who he really was, yet still falls in love with him. Daniel tries to stay away from Sofia. He doesn't want to expose Sofia to his sick twisted desires. But soon discovers that his love for Sofia is what will help heal him.

I loved following Sofia and Daniel journey of self-discovery.

Broken Desire was rib-tickling funny, Dark and disturbing and at the same time, it was tender and oh so romantic. Let's not forget, it was oh so sexy, it's was right down HOT!! What Daniel does with sauce, is to die for....YUMMY at its best!

I adored the ending, I thought it was a perfect way to end this love story, but in the same breath I have to say, I didn't like the epilog. I understand that the author was setting up the next book in this series, but I felt disappointed that I was left with a cliffhanger after having just read such a beautiful and tender ending. I will be reading the next book in this series.

### **Cinnamon Grace says**

Broken Desires is a must read for anyone out there that can't wait to read another erotic romance with some of the most arousing, titillating, provocative sex scenes I have ever read! And Darlings, Cinnamon has read a freakin' truckload of sex scenes!!! Ms. Boone is a master at crafting the scene sure to leave you panting and in need of a glass of water and a visit from your partner of choice!

Daniel Fletcher and Sofia Parsons meet in some very interesting circumstances that are somewhat comical at

points which to me add to the endearment of the story. I find that strains of humor in romantic characters make them more believable to me as people.

Daniel and Sofia's relationship has been compared to the relationship of Christian Grey and Anastasia Steele in E L James' Fifty Shades of Grey. I have read that series thru three times and I say that there are definite similarities to be drawn there.

Azure Boone is a writer who when I start reading her books I just can't put them down! I have read 4 of her 11 books 3 of them in the last 2 1/2 weeks! I am not a woman who is laying around eating bon bons reading erotica all day either!

---

### **Katya2007 says**

This was a pretty good read -- I don't quite know how I feel about the storyline (patient and gynecologist romance). It moved very quickly (approx. 136 pages). The steam was HOT, HOT, HOT.

I will most likely read the next book, Broken Lies.

3 solid stars.

---

### **Jeanie V. says**

What a craaaaazzzzyyyyy story!!!! The first part of the book started off really good and had me laughing my ass off! I liked and could relate to Sofia - her embarrassing moments in the doctor's office and in the grocery store when she had to relieve her "itch" had me cracking up!!! But then she became this really annoying person... I don't know! I just didn't get the story. I didn't get the attraction. I just couldn't get it! And there were so many things that had me asking, "What?" "Why?" The ending was disappointing as well. I thought I would get clarification or closure to things that happened in the story but I was just as confused. Surely there has to be a part 2 to this story. The ending was surely a cliffhanger or at least it left me hanging!!! If there is a part 2 I'll have to read it to get some answers. Hopefully there are answers to give???

---

### **Chantel says**

This book cracked. Me. Up. I was laughing out loud the first 30 pages it was so entertaining. Sofia had some very amusing inner dialogue and some of her conversations with Daniel were hilarious. And the scene with the sauce just did something to me. Sweet heavens, did it ever.

I was set to give this story 5 stars and recommend this short to my friends, and then the angst hit. I'm not so much bothered by the "I do BDSM because I had an effed up childhood" angle. While very 50 shades, this didn't register on my radar when it normally would. What did bother me was Sofia's dogged attempts to change Daniel. I mean, what person changes in real life at the persistence of another? While an element in most romance novels, the heroine's love saving the dark hero trope was a bit too blatant for me. It would've only been a minor quibble, but it frustrated me too much to ignore. I also had trouble with the epilogue and

how it set up the sequel. It was just... Odd and abrupt. That said, I'll probably still read the second one.

---

### **Jessy (Jessy's Book Club) says**

Huh? What just happened? It's one thing going into a book knowing there'll be a cliffhanger, it's another when the book you've been really enjoying just ends, as if someone said 'cut' and forgot to resume I'm not a happy camper!

So Daniel deals with his dark past by pleasuring women. Very selective with who he chooses for his erotic games, his next available choice, Sofia, doesn't measure up to the kind of woman he needs. But with his options near zero, he decides to take a chance, and soon discovers that pleasuring Sofia opens a door to a rewarding new desire.

I really really enjoyed this one. And I don't think I expected to. I got it as a freebie and kept it on my TBR for 'a rainy day'. A few people who got it told me they enjoyed it and a Goodreads friend recommended it to me. So I thought why not... and lucky I did because I was pleasantly surprised!

I'm really a sucker for tortured heroes and that's exactly what Daniel is. His background hints on a sexually abused past which has caused him to punish himself by denying himself pleasure. He uses his job as a gynecologist to pick up women who might not be adverse to his predilections. Due to a dare, Sofia finds herself on his syrups... and though Daniel realizes that she's too naive to accept his fetishes, he can't resist.

I really loved how they got together, how their interacted. Sofia is hilarious though I do think she overreacted at times. Let's just say that you don't want to cross Sofia, she even punches! And that thing with the cupcakes... to be honest it was hilarious but still a bit over the top I thought. Though all in all I loved her, especially because she fought for him even thought she could 'fix' him.

**He suddenly curled into a semi ball on his side and her heart constricted. What was wrong with him? Whatever it was, she desperately wanted to fix it.**

Daniel is really the kind of hero you just love. You can't help but empathize even though we still don't get to know much about his past. Or even what his kinky fetishes really are. They were touched upon but not really in depth. All we saw was the broken man..

**"I'm broken Sofia." His words pierced her heart and mind. "The shit I have in my head won't allow me to be the hero you need."**

I seriously loved these two together. Not only was it incredibly steamy, it was incredibly sweet too. So here I was alternating between sighing and fanning myself and then that epilogue happens. I for some reason thought the story would end with a HEA and I would sigh, possibly dab my eyes with a tissue and then move on to another book. Only to find out Book #2 continues with their story :/ I mean I really want to find out what happens but the next book is only 82 pages and I'm not sure why that just couldn't have been added to this one to make a complete book

4 stars, could have been more were it not for that ending.

---

### **Tamara says**

I enjoyed this story, but I did find that Daniel's journey through mental/emotional issues was a little too easy. Other than that it was really good, and I loved Sofie's Gamma!

---

### **Army-mom says**

This was nice to read; however, if I found a man that made food so sexy - :)  
The sauce - umm, I don't know if it would be good or not, but the thought is nice and different.  
Food and sex with Love:)

---

### **Pam says**

*3 stars*

**She made him forget his past, his future, there was only her, only Sofia all over him, inside him, around him.**

Sofia lost a bet; she had to make an appointment with the Dr. who she has been secretly stalking, only thing is he's a gynecologist, and the Doctor is all kinds of sexy. Regardless of all her preparations she couldn't go through with it

***She'd damn near patted glittery powder down there then worried he'd think Vegas Vagina instead of Fairy Princess.***

Luck has it, now that he's seen her, well not all of her, he spots her at the grocery store and invites her over for dinner, problem is, Sofia is everything he doesn't need. She is not enough to state his demons

***She was a goddamn saint. When he needed a female demon, he ended up with her.***

Daniel has a specific kink, all for the sake of being in control and not let his past rule him. Daniel runs both hot and cold, and just when Sofia has had enough, he shows a side of him that calls on her nurturing instinct. She knows he needs her brand of therapy.

***“You’re playing with a monster. And I don’t. Want. To fucking. Hurt you.”***

This was a QUICK romance that leaves off in a weird spot, there is more to Daniel's secret but he doesn't want to scare her away, just when things are starting to get better. I will definitely be moving on to book 2 just to see what happens. Everything does happen quickly BUT my questions were answered, I just wished they were drawn a bit more.

---

### **Mary Mooney says**

What a different approach to a great read. A sexy doctor who is broken and a shy lady who has lusted after him for months in the local grocery store. What an unbelievable way to introduce yourself to him, why not a visit to him OB/GYN office for a check-up. And it doesn't take Sofia long to fall in love. Daniel only wants to pleasure her as a punishment for his past. She will try to help him be normal but will his past always be in the way. LOVED this one and can't wait to start Broken Lies. This is a first for me by Azure Boone and I am ready for more.

---

### **Shannon says**

So that just happened..

Let me say, the synopsis in this book doesn't tell you that Daniel was sexually abused, and that he uses his profession as a gynecologist to find new females, to use in his BDSM (I guess) life at home.

Sofia comes in for an appointment after a friend dares her to do it.. She fakes a diabetic attack, when she gets scared.. Ends up meeting Daniel for dinner, gets hooked and Daniel still wants to feel her up on his office table..

That could have been.. hot I guess.. except it really was not..

Sofia isn't the issue, it's Daniel.. Yup he has a past, and he hasn't actually had sex with these women, he just does everything BUT that.. But Sofia is different (of course she is)

He hurts her a few times, and she doesn't really walk away.. No she sits and deals with it.. I wouldn't do that.. I would have put him in his place and stayed there until he changed..

I guess he does though.. Change that is, in the last few chapters.. (very small chapters) until his brother shows up..

Then we are left with a cliffhanger

Of course..

It was just a bit creepy and reminds me why women gyno's are best.. Not that this really happens but really instead of being 'hot' that was a bit odd.

---

### **Gloria: Little Shop of Readers says**

Ms Boone is an author that brings you into the story. Sofia has been attracted to Daniel for a while and meets him on a dare by her friends. But there is something about Daniel that draws her emotionally. She realizes this man has a dark past that has broken him. Daniels vulnerability causes Sofia to fall in love with him and

her love is what will heal him. Daniel does not want to expose Sofia to his ugliness but then realizes that his love for her will save both of them. This is a poignant love story where I was emotionally moved. Ms Boone has created a world where Sofia's love has given Daniel the strength to battle his demons. As an author, Ms Boone only gets better with every book she writes. If you believe in love, please read this . I am looking forward to her next novel.
