### BOOK THREE of the EVERY LIFE SERIES

While his friends Sawyer and Makenna were ready to jump head first into marital bliss and Callie and Wes were awaiting the arrival of their first child, Dalton Hoover couldn't have been further from locking on the family ball and chain.

For the first time in his life, he finally felt like he was at the top of the food chain. He dated any woman he wanted, ending the relationships before they had the chance to turn serious. And the doctor title in front of his name had women faking mysterious illnesses just to be seen by him. He had it made.

Until a seven-year-old boy named Simon threw a wrench in his perfect life, forcing him back into a part of his teenage years that he never wanted to revisit. He tried hard not to think about Devyn Rion all this time, and he had almost completely forgotten everything. The torment she put him through, the worthlessness he felt in her presence. He hated that he loved her back then. But that was all in the past, right?

Sometimes, though, the past has a way of becoming your present, no matter how fast you run from it.

### This Coull Chick says

I was jonesing for this book since Every Breath, I remember begging Tasha to make this into a series and give the good Doctor Dalton a book of his very own!

And I am so not disappointed, it took a while between the books, but life has a habit of getting in the way and I am so glad that Tasha took the time she needed instead of rushing out a sub-par book we have this wonderful one!!, I loved it, from the first word! It was sweet and corny in places but in a really good way, it made me laugh in spots and yes I even shed a tear or two, it had everything I like in a good romance!!

Welcome back Tasha Ivey, can't wait to see what you do next!

### **Jo says**

may be the previous two books are good, the latest one not as good as the previous two. Don't get me wrong, every glance still in good form to read, it is nice. there are some touching moment, williams, simon... etc. even i have no idea why Kyler and Cater did so many things to their family. Cater may have feeling on Devyn and Smion, especially Simon, father and son. Kyler, she is the sister of Deyvn, no matter what Devyn did before (if any), they are sister.

i can't get it but this is not the big deal, some time we need to admit that blood related wasn't the most importnat thing in the relationship, heart is the most.

i am in love the relationship between Dalton and Simon, Dalton and Sawyer, Dalton and Ella, of course with Williams either.

### **Mayedah says**

I did not want to hate this book but I am beginning to .Dalton's book was supposed to be GOOD ,!!!  
WHAT HAPPENED ? I really really just want to end it .

### **Tracy Lundy-Munn says**

Every Glance is the third book in the Every Life series by Tasha Ivey. I have been a huge fan of this series from the beginning and Every Glance was everything that one hoped it would be. The storyline was solid and well thought out. The characters had depth, emotion, chemistry and lots of love. Looking forward to more books by this author and hopefully more books in this series!!!

### **Elisabeth Cole says**

I really enjoyed the first book in this series but skipped book 2 because I couldn't stand Callie at all. I had high hopes for "Every Glance" but it just didn't cut it for me. I was constantly wondering what it was Dalton saw in Devyn. She didn't appear to have any redeeming qualities to me at all. It felt like an insta-love situation for no reason at all. I didn't care for Dalton much, especially the way he handled the situation with Devyn's sister. I gave this book 2 stars - one for Simon, Devyn's son, who was awesome! The other star was for Dalton's proposal, which I thought was also awesome and touching. Too bad I had to read all the rest to get to the good stuff!!

### **Carol Hobza says**

#### **Full circle**

I love it when all the loose ends are tied up in a beautiful bouquet. Tasha has done this very nicely.

---

### **Maria cast says**

I really like it!

---

### **Celine says**

Uhh I feel bad for rating this a 3 when I fell head over heels for the first two books. But while Dalton & Devyn's story is sweet and all, it just didn't suit me that well.

I've enjoyed reading about Dalton, and he's a dreamy doctor so he's great. Devyn's a strong heroine, and so I liked her. But their story didn't tug on me as the others. I loved how Dalton turned a new leaf when he saw Simon and found out Devyn's his mom. Their second chance at being with each other is sweet.

Honestly I was in this book for the glimpses of Sawyer and Wes. Dalton is a great hero on his own, but I formed a deeper bond with the two.

---

### **Jessica Zelkovich says**

Another solid read from Tasha Ivey, who I am quickly growing to love her infectious character development for this group of friends. I do wish that Dalton had a date or two more of alone time before the big profess of love moment. Time to build the trust and break down past barriers before the big profess of love. I get the I-know-I-love-you-moment as I had that with my hubs (I know you all are jealous knowing that but we did a matter of hours!) Also the video idea was just all over buzzfeed so wasn't as exciting and I would have loved some of that six month lapse between last chapter expanded upon. I know I'm greedy. Just loved these characters. I do like her solid writing and some very memorable lines. It is definitely a good read and great series.

---

### **Lisa Foyles says**

#### **Oh my Dalton!!**

It was great getting to finally read Dalton's story but also to catch up on all the other characters from her previous books. I love how this book entwined not only Dalton's love story but also Mekena and Sawyer's wedding and the birth of Max and Callie's baby. Definite must read to the series

---

### **Angelique Smith says**

#### **Really good storyline**

I really enjoyed the storyline and getting to know Dalton as we didn't get to see much of him before. My criticism would be that I found a LOT of typos and words that were omitted within the text so it made it a tad difficult to read at times. I would just suggest that Tasha and her team more careful of this because the story was good but the grammar is what really stopped me from giving a four or five rating.
