Halloween Martha Stewart

Halloween is rivaled only by Christmas when it comes to the holiday that generates the most interest for Martha Stewart Living's readers, and the special Halloween issue of Martha Stewart Living is one of the magazine's most popular issues. To help celebrate this ghoulish holiday, the editors of Martha Stewart Living bring us Halloween, a compilation of all the best tricks and treats. Organized in two sections, Halloween makes this holiday so much fun it's scary. In "Tricking, " pranksters will find all manner of pumpkin carving, eerie lighting, and makeup and decorating ideas. "Treating" provides the recipes for having a Halloween feast or a haunted-house party and ideas for making mischief with kids.

This is the Halloween resource for the 2.3 million Martha Stewart Living magazine subscribers -- and everyone who shares Martha's enthusiasm for the most fun-filled holiday of the year.

Celeste says

One of the best Halloween decorating books on the market in my opinion. Martha Stewart does Halloween right! Her beautiful Photography makes this a must read for Halloween enthusiasts. I love her simple clean designs with a gothic twist.

Jackie says

Halloween: Delicious Tricks and Wicked Treats for Your Scariest Halloween Ever begins with a little historical perspective on this ghoulish holiday...rooted in ancient Celtic lore, through its evolution today as a kids' time of festivity, Stewart gives us lots of ideas for food, fun, and frolic.

Especially enjoyable is the Irish story of Jack, a mischievous drunkard who by tricking the devil, eventually got him working overtime trapped (HA!) inside a giant squash (pumpkin) for all Halloweens to come!

From carving elaborate pumpkins, to beyond-amazing make-up and costume ideas, and some yummy treats to boot, this 'how-to' book is chock full of wonderful ideas to conjure up every fall.

Ruth says

Well, it's Martha. So it's always fun to see her amazing Halloween costume ideas (and decoration inspirations). I have in mind a couple of things I can try next year. So--hurray for Martha!

Mary says

great ideas and yummy autumn recipes. definitely inspires you to get in the spirit of the season.

Angie says

Martha has so many Halloween ideas, this book didn't show any of them really. I get more out of her website.

gina says

Martha rarely lets you down. While some of the recipes seem daunting compared to Gooseberry's easier ones, there is definitely a level of witch chic that only Martha could achieve. There is also a level of

knowledge about Halloween crafts, traditions, and spookiness that you don't get from other Halloween crafts books. You feel like Martha really wants to teach you something. Overall a very inspirational book- if nothing else. You could just flip through and get inspired to get your trick or treat on in a very classy but dark way.

SterlingSpider says

This book was surprisingly awesome. Sure there were plenty of the classic Martha "who has time for that?" projects, but in more than one case I had to admit the projects look cool/fun enough that I will probably make the time if I have to. For the most part projects tend toward a sort of Victorian aesthetic and are in many cases the sort of thing that with a bit of design tweaking could be a pretty project for any time of the year.

This is actually a collection of the highest rated projects from past October issues of Martha Stewart Living so if you are a longtime subscriber there is not going to be anything new or exciting here. But for those of us who had not yet drunk the home made juniper-papaya Kool Aid out of the hand painted china this is a great resource.

Mckinley says

Lots of great ideas.

Ann Keller says

There are some really great design ideas in this book, ones to make your Halloween stand out. There are unique costume creations, party favors and cookies to share. Utilize some of the design templates of cats, ghosts and witches to put a spirited spin on your usual pictures and wall decorations, too.

I especially enjoyed the Halloween candles and stencils used to create a festive flair on tablecloths, dresses and even napkins.

Angie says

Great ideas; but as always alot of them can get expensive and time consuming!

Anca Maria says

I liked it.

Katie says

3.5 stars. There are some really fun ideas in this book that I think I'll try out this year.

Heather says

I am on a huge Fall/Autumn/Halloween kick right now and this book is kind of the queen of Halloween books. I adore Martha Stewart and her Halloween ideas and projects are fantastic!

Michelle Morrell says

I love me some Martha, such a prim and proper woman to get so freaky at Halloween. I am totally going to make a lit pumpkin path someday.

A little late for Halloween this year, but then again, Every Day is Halloween (/Ministry).

Carolyn says

While I would normally avoid anything Martha Stewart like the plague, the fact that the subject was Halloween made it palatable. Great ideas for those of us who are "spooky people"
