## **Hire a Hero** Timothy Ellis

There's no such thing as a dull life for Jon Hunter. He's come to grips with being an Admiral. But why does someone want to keep him from becoming a Duke so badly, that collateral damage doesn't matter? The Midgard war is over, the British coup behind him, but war comes in many forms. Life isn't the same when you fly a desk, unless the desk comes under direct attack. When the dust settles, it takes time to get things done. There is a time to plan and wait, a time for covert deviousness, and a time to strike. In the midst of all else, Jon is confronted with a new journey, to somewhere no-one in their right mind would want to go. Actions have consequences, and Sectors have their own problems. What does a Sector Government do when the problem is beyond their immediate resources? They Hire a Hero!

The Hunter Legacy series: Part One:

1. Hero at Large
2. Hunted Hero Hunting
3. Send in the Hero
4. Make or Break the Hero
5. Hail thee Hero

End of Part 1

6. Burnside's Killer (An Interlude Novella between Parts 1 & 2)

Part Two:

Hire a Hero

8. Hero to the Rescue \*\*\*forthcoming\*\*\*

## **From Reader Review Hire a Hero for online ebook**

### **Tim says**

After reading and liking the first 6 books in the series, I was really irritated by this one. It started off with a bang, sucking you into the action and then it just went flat for many, many chapters. It picked up the pace again, but ... I would characterize this series as a poor man's Honor Harrington. David Weber seems much better researched and plausible. Also Weber lets his characters live out the story, Ellis tells the story. In the prior books of the series I was impressed with the author's ability to get me to suspend disbelief, this book did not live up to his record. I don't know if there was too much piled on top of each other, or if the author's odd bunny trails finally unraveled the thread. Still a good book to read.

---

### **Danny L Walling says**

#### **Another outstanding performance**

I cannot believe book seven is as good as the rest. What a great story, with outstanding characters, especially Jon and the twins. I just wish that the author would have Jon get a steady girlfriend or girlfriends. He needs one. Can't wait till book eight. Wish we could preorder. Keep up the good work.

---

### **Leo Fourzan says**

#### **Another Super Hero**

Funny how hunter is accepted as normal to the rest of the one. Where is he really from. Lots of questions still to be answered.

---

### **Curtis says**

#### **Another Great Read**

Another great book in the series, where we get to see even more of the "universe" and the pirates that prey there. And then how they don't.

---

### **Vincent says**

#### **Great!**

Great big plot, awesome story, lots of space battles, incredible starships... another very good book! I'll start on the next one right now!

---

### **Andrew says**

Another entertaining episode in the series.

---

### **John Stephens says**

#### **Good book**

While there are some sections I would like to see have more detail, having the worst problem be minor pacing issues leaves a well off book.

---

### **Charles Stallings says**

#### **Good read**

Entertaining story line with lots of action similar to the old space opera with a little bit of honor harrington

---

### **Wanda binz says**

#### **Wonderful series**

This is a wonderful military space opera with plenty of space battles and dogfights of space ships. The characters are great and funny.

---

### **Sabrina Cochrun says**

#### **All nighter**

Cool, great read, couldn't put the series down. Seriously can't wait to get the next book in the series. Thank u for a great read.

---

### **David O. Gordon says**

#### **Another one down**

Ok, so As with all of these, I cannot wait for the next one. It will be a sad day when I read the last one. Thx for the adventure.

---

### **Persnickety says**

#### **Oh my....it never happened...**

Kindle Unlimited ~ YAY!

Book 7 came close to TMI. So much going on. Add the detail and descriptions and I kind of glazed over a few times, but didn't quite hit tilt. For someone that's a real gamer or into all things physics, military, world building historical scenarios, and space opera, this part of the series would probably be a true delight to read.

I suspect the spiritual stuff got a bit wonky for a lot of people since it was kind of like a pinball rendition with lots showing up at once and then concepts being bounced around amongst it all. Came close to being a bit preachy a few times, but didn't actually get there. So no demerits for that.

Some consistent proofreading misses that probably really annoy some people. Possessive ('s) for plural, their for they're, etcetera. What happens in spellcheckers stays in spellcheckers?

---

4 stars to 1 star because if you read to the end, there's a reset to an alternate timeline path where none of the characters or events existed. So all of this is irrelevant, including my original review.

---
