House of Enchanted: The Revelations of Oriceran Sarah Noffke , Martha R. Carr , Michael Anderle

The Kingdom of Virgo has lived in peace for thousands of years...until now.

The humans from Terran have always been real assholes to the witches of Virgo. Now a silent war is brewing, and the timing couldn't be worse. Princess Azure will soon be crowned queen of the Kingdom of Virgo.

In the Dark Forest a powerful potion-maker has been murdered.

Charmsgood was the only wizard who could stop a deadly virus plaguing Virgo. He also knew about the devastation the people from Terran had done to the forest.

Azure must protect her people. Mend the Dark Forest. Create alliances with savage beasts. No biggie, right?

But on coronation day everything changes. Princess Azure isn't who she thought she was and that's a big freaking problem.

Welcome to The Revelations of Oriceran.

A magical world tied to Earth, and nothing like it.

Something new

I've read the Olento Research books and enjoyed them. I like how this series is going so far but it needs something. I'm a huge fan of 5he kurtherian gambit series so thought why not. Hopefully it picks up and draws me in like the books I've read so far by the authors

Once again Noffke has captured my imagination and taken me into another amazing world full is magic, intrigue, humour and mystery. Much different to her dream traveler series, this story has more fantasy aspects but it is every bit as good. Noffke's great descriptive writing, brilliant storyline and ability to make you connect with her characters shines in this book. It draws you in and won't let you go. I loved the fantastic creatures, the magic, the humour laced storyline and the great twists. It held me captive from the first page to the very last and I can not wait for the next in the series.

Fantastical, outlandish and fun story full of magic! I absolutely love this story! This author can take any story and put you in the middle of the characters banter, arguments, and thought processes. Azure is a witch and is about to become queen. Something goes terribly wrong and on coronation day she finds she is not exactly what she always believed she is. This sets her on a journey to the land of Terran where the humans live. No supernaturals are allowed to cross into the borders of Terran but this is an expedition she must make. She has a "crazy" grandmother that helps her on her way and all the creatures she meets on the way are full of riddles and mystery. The Dark Forest is an incredible place with fantastic beings. Even during the serious moments there is always someone with a witty comeback that keeps the book lighthearted, but serious, all at the same time. The trip doesn't stop with the Dark Forest. I have a small spoiler...she does make it to the land of the humans. And this is a hoot! She is at a complete loss as to why humans are the way they are. But with her new friends she meets on the way she is able to fumble through this passage. In true Sarah Noffke fashion there is a cliffhanger! But with that being said, she cleans up a mess and starts a new one for the next book. I very much look forward to reading the next in the series. Got me enchanted!!!!

Great story

A great start on a new story about Oriceran. I love Azure, she is full of life and hope. Monet is an idiot but has a good heart and cares for Azure and family.

Absolutely loved

I hated that it ended and definitely can't wait for more. Love the storyline and the characters pulls you in from the first chapter

Welcome to the world of Oriceran. Witches, Wizards, Gnomes, Elves, Dryads, Mermaids and Humans all live in this world but they don't all get along. Trouble is brewing. Azure is about to be crowned Queen when her whole world is turned upside down and she must undertake a dangerous quest to but will she survive and will she be queen in the end. There are so many elements in this story, secrets, lies and royal deception included, and there is so much more I want to know. This story ends with a cliff hanger.

Incredible introduction to a new world

This is my first foray into Oricerean and I am enthralled! Azure is a captivating heroine with a combination of snark, intelligence, and goodness that instantly captivated me. Monet is a great sidekick with attitude and a street smart intelligence. Without giving away the story there is adventure, intrigue, daring, and family... all mixed together. I love the way this world is connected to modern Earth. I can't wait for the second book!

A Nice Surprise

I was rather surprised with this story and found myself enjoying Azure's journey. However I am really looking forward to the Dukes demise, such a despicable example of the human race. Looking forward to reading the next book. ?

Charmsgood the wizard has gone missing, The queen of Virgo is stepping down in order for her daughter to succeed her to the throne. The ruler has not only been ill, but she is harboring a terrible secret. The enchanted population is eager to crown their new Queen Azure, but will the mystery her mother's been hiding destroy her chances at leadership?

Full of whimsy as well as a touch of humor, Sarah Noffke has created a magical world with talking felines, witches, wizards, trolls, gnomes, pixies, and other creatures that will charm and delight. The action starts from the first chapter and the characters pull the reader along in the addictive story. Make sure you bring Cheetos, or the story may grip you like the magical bluebells and never let you go.

Alfred Durrance says

This is a fun start to a series that reminded me a bit of the Wizard of Oz updated a bit for technology and the like. It's not a heavy read by any stretch, but it is good entertainment for beach reading.

A start of a new series is always so exciting for me. Learning the plot, the characters, the world, everything. And this book was a perfect example of what I call an absolute favourite. I've always loved stories with magic in them, especially the ones with all the fairy tale creatures and such. The moment I picked up the book I knew I was going to enjoy it. I hope that all you Fantasy lovers and such at least take a look at this book.

As always, Sarah Noffke's characters were amazing. The story was very intriguing, magical and just plain amazing. 10 out of 10. I especially loved it when she went to Earth. That part really made me laugh. So once again Sarah has gifted us with an amazing story, amazing characters, and so much more. There's not much more to say other than that I haven't had such a good read in a while.

I LOVE everything Sarah Noffke writes! I loved the world she created in this book - it's completely different from her earlier works, and I was quite pleasantly surprised to realize her talent - There is no parallel or similarity with her other series!

I love magick, wizards, a controversy hidden in the story's past and a contrary set of characters ... add to this strong characters who duel with words across pages & you got me, hook-line-&-sinker!

I enjoyed reading this book, and I am looking forward to the next in the series.

Wow! This is such a fun fantasy adventure tale! It's my first venture into this magical land and I couldn't be more thrilled. The characters are full of personality and snark, which I've come to expect from Noffke, and there are so many great lines in here! There's everything from 'poop-colored eyes' to making fun of the current ridiculous fashion trends. That ending though! Why must you always keep me begging for more?!

Bec says

WOW what a read. I sped through this one as I just couldn't put it down. Oriceran is an interesting world and I couldn't get enough of it. Princess Azure is a witch about to become Queen of her people - when a secret is revealed on her coronation day which puts a spin on everything. She now must set out across the Dark Forrest to Terran - which is not only illegal - but is the home of the horrible humans! The journey is made fun by her best friend Monet, and some interesting creatures they meet along the way. I really enjoyed learning about Earth (which they got to via an illegal portal), Terran and the humans from the witches point of view. The book is full of magic and fun. I can't wait for the next book in the series!
