In the Arms of Danger

Marie Higgins

In the Arms of Danger Marie Higgins

Taylor Marshal and her daughter need protecting, yet the bodyguard assigned is the one man she fears the most.

Four years earlier, Taylor gave her heart to a stranger – and married him in a quick Bermuda ceremony. A week later her hopes were crushed when she finds out her new husband, Cory Ross, was a hit man. When she witnesses him take another man's life then watches her new found love fall from a cliff after being shot, her heart shatters. Now she sees Cory Ross is alive – and back in her life as her own personal bodyguard, yet how can she trust him?

Cory thought his luck had changed after his near death experience in the Bahamas. But when he looks into the eyes of the woman who he suspects had something to do with his accident, he realizes his new assignment to protect Taylor and her young daughter will be a literal nightmare. But to fall in love all over again with Taylor Marshall will be sheer torture.

Valerie says

This was a re-read....

Just like the first time I read it, till this time it is still a great little book. There were a couple things that kind of annoyed me and it was mainly with Taylor. Overall, the story was great and really enjoyed reading it again. I am a sucker for lost love and finding it again, even if there is a little tension in the mix before it makes its way back to normal, lol.

If you are looking for a nice little story, pick up this book and read it! :)

Gayla Glass says

Quick read. Very enjoyable story. I hate to complain about the kindle freebies, but the editing was pretty bad in this one. The author couldn't remember what scent it was that Taylor used, it went back and forth through the entire book along with quite a lot of typos.

Celeste says

Again-looks slutty on the cover, but this author writes Mormon fiction, and this book is clean as far as sex. It's only two stars because the author was repetative and the plot didn't move along fast enough for me. The main characters story didn't seem realistic at all either. It was another Kindle freebie.

Ashley says

Loved this book, the characters were great.

Michelle [Helen Geek] says

Free on Amazon 07/26/2012.

Kirsten Meece kempf says

Was a real page turner - the author kept you hanging until the very end. Good book

Nina says

In The Arms of Danger by Marie Higgins was an entertaining romantic suspense. Yes, I have not been on the edge of my seat turning kindle pages like this since Roxanne St. Claire's Bullet Catcher Series & Pamela Clare's I-Team Series! This was my first read from author Marie Higgins & it will definitely not be my last! I was truly impressed with her writing and story telling. The story sucks you right in from the beginning & takes you on a non-stop ride filled with suspense, twist and turns, betrayals, lies, misunderstandings, action, and did I mention hot sexual tension? ;)

The summary description provided a well-summarized plot of In the Arms of Danger therefore, I will not regurgitate it. What I will say is that this novel was well-written and I enjoyed every page of it. It was fast-paced, filled with great characters, a good storyline and a great plot. This was not one of those novels where the reader automatically knows "whodunnit." No, Ms. Higgins teases, packs in twist & turns & suspense that makes the reader hold on until the very end to find out "whodunnit" which is what I think romantic suspense should be. Overall, I highly enjoyed this entertaining read. Author Marie Higgins is definitely an author to look out for in the Romance genre! With that said, yes, I highly recommend this novel. Romantic Suspense fans will not be disappointed!

Teya Peck says

I LOVE IT!!!! It had twists, it had turns, the plot was awesome. I thought I had it smugly all figured out and I was blown away. It kept me intrigued and at the edge of my seat the whole time. This is after I was affraid to read it, the cover had me nervous even though I've begun to trust this author with my heart and mind. I've had that trust broken before with other books, but she is true to morals and cleanliness and I'm taking the plung and reading, "Secrets after dark" Next. THese two I've been nervous about, but I am not anymore. I'm plunging in with both feet. I'm excited about this author and her books! I soooooo recommend them All so far but I'll keep you updated. Can't wait to finish the other series of hers too. LOVE IT!

Marissa says

I loved this book.

I give it a 4.5

Renee says

I really enjoyed this.. A love story with suspense thrown in. Loved the plot & twists at the end.

Minus one star for editing. So many spelling errors and words omitted.

Juliemae says

Skipped a lot of story that repeated itself. Didn't really enjoy this one.

Shelley says

This was a pretty good book. The first I read by this author. I felt that the summary really described the initial part of the book. The mystery of the book was great. It did lag some in the middle while they were on the run, but they were also getting to know each other. Some critics say that they were just in lust with each other but they had spent a whole month together in the Bahamas 24/7 with each other that we don't read the day in and day out about that they were totally in love with each other. I met my husband at age 17 in 1983 & within a month I knew he was the man for me & we have been happily married for over 27 years. So I can understand knowing someone less than a month and being madly in love with them and making a lasting lifelong relationship full of love with them. This book also has plenty of action and suspense. Definitely worth the read! I will read more of this author.

Melissa says

Cover is misleading. This is an LDS author and the romance was pretty tame. There were a lot of editing errors that made it hard to read at times. While I really liked the hero, the heroine really grated on me. Her personality just didn't make sense, one minute she's a blithering idiot and the next a strong woman who can hold a gun on someone and then turn into a crying mess again. It also seemed that these two were more in lust with each other than in love. Overall, my least favorite book from this author. I like her historical novels much better.

Ruth says

I'm not expecting much from romance novels, just some light entertainment, so when it's bad, it's really bad. This book had potential to be good, but the decisions and actions of the characters were way too simplistic, considering one is supposed to be a former FBI agent and the other is the daughter of a billionaire who's receiving threats on their lives! One minute they were worried about the stalker, and the next minute they were doing something silly, like fishing outdoors, while knowing there's danger lurking. Just didn't buy it at all. It was also super repetitive in why the characters didn't want to "like" each other, but again, a simple conversation could have sorted everything out. I skimmed the last bit of the book (I find it hard to just put down a book unfinished) - didn't get any better at the end.

McKenna says

I have to say that I really did enjoy this story the book was well written, I loved the descriptions the author

used in the book made me really get the feel for where the characters were. Although I thought I had figured out who did it I did keep questioning myself so that is always a good thing in a suspense book.

Enjoyable fun to read.
