## Oglaf Book Two Trudy Cooper

We're definitely not predicting a global cataclysm, but if one comes along, what will happen to the webcomics? They'll disappear forever as the grid goes down. Here at Oglaf, we want future generations to know our dreams, our dick jokes, the unquenchable rage of an insane and burning god. Also a short parody of a role-playing module that's almost playable! Although, full disclosure, we once made a saxophone out of hosepipe that we consider almost playable.

Anyhow, we printed a book. Probably we'll hide some in a cave or something. Who knows what future generations will be into? Maybe it's this.

## Oglaf Book Two Details

## From Reader Review Oglaf Book Two for online ebook

### April says

I. Freaking. Adore. Oglaf.

Can I boast that my copy came with a book plate of Greir? Because I love Greir. I want to do or be Greir. Basically, I love Greir.

I mean, how could you not?

---

Oglaf is amazing bouts of fun, humour, adventure, and fantasy-sex that's so comical it makes me want to believe sperms have faces. You should be reading it **now**.

### Helen White says

Dirty. Very dirty

---

### Meran says

[WARNING] Yes, this is porn. Funny funny sex between everyone and everything. I don't usually like porn, but this can be considered softer than the stuff you can get in the stores, wrapped in brown paper.

No one is safe from the humor, especially the men. They are the butt of everyone's jokes, but the women get it too :D

Now for the review:

Soft porn, maybe some harder porn, some not-at-all-porn-- but whatever it is, it's well drawn and **VERY** funny, most times at the male's expense! So, guys, take warning: you may NOT like how lightly the male role is in this comic! You will not find respect.

But, oh, this is **SO** funny!! :D And I'm not even into porn.. But apparently, I **AM** into Oglaf.

It's a webcomic, btw, updates Sunday night. Just in case Book One and Book Two aren't enough for you.

And also, it's fantasy and medieval themed. So, expect historical jokes as well. Plague, the plague doctors (are vampires, at least in one case), monks, different religious cults, the attitudes. All funny!

## **Holden Attradies says**

I think this might have been just a tad better than the first book! There were almost no strips that had that inevitable weirdness/isn't funny thin you get sometimes with web comics. And even though the larger story lines/reacquiring characters were mostly abandoned it felt like there were MORE stories that lasted more than one panel. I think it was because when they were they were self contained stories and thus were more satisfying.

Basically an awesome read for anyone who can see the humor in HIGHLY sexual situations AND likes the Fantasy genre.

---

## **Bookstorequeer says**

I love this comic as a webcomic but I think it suffered in this volume from being too disjointed. The first volume had a thread of one story with some random adventures but this volume was missing that. It just felt too scattered and only midway did we find any connecting threads.

It's fun and as porny as we've come to expect but it just didn't move as smoothly in book-form for me.

---

## **The Sapphic Nerd says**

My review for Book Two is exactly the same as my review for Book One, because literally nothing is different between the two. Book Two may be a "continuation" but you can't continue something that doesn't have a story or characters who develop. You can, in fact, read the books in any order, start on any page, and be perfectly in the loop. None of my complaints from before have been fixed, and if anything, the series has degraded in humour from before. The art, however, is still good.

Here's my review for Book One.

---

## **Patrick says**

1. This is NSFW. (Probably. Depending on where you work.) As it's full of funny, funny sex. And other strangeness that defies explication.
2. It's one of the funniest comics I've ever read.
3. This book is extra awesome, as it has a D&D-esque module in the back of the book for... well... "It's called Tomb of the Naked Dead."
4. I've bought several copies to give away to my friends for Christmas. (I'm probably not giving any to my family though.)

If you can tolerate some playful, irreverent humor and nudity. I highly recommend you read this comic. And

if you read this comic, I recommend you buy this book, because it's nice to support people who produce art you enjoy.

---

**Daniel says**

Odlican nastavak perverzne kolekcije zabave :)
