Succubi Like It Hot Jill Myles

NOBODY SAID SUCKING WAS EASY.

With a hot new figure, her dream job as an archaeologist, and *two* gorgeous boyfriends to scratch her seductive Itch — an angel and a vampire — Jackie Brighton is totally getting the hang of life as a succubus. Then she accidentally knocks the pizza guy unconscious with her touch. Great — she's *cursed*. After striking a deal to get the curse lifted by a crafty demon, Jackie and her best friend Remy take a road trip to deliver a cryptic message to the nation's oldest succubus. Unfortunately, neither of her jealous lovers is talking to Jackie right now, and due to the curse, she's desperate to get her Itch scratched very soon. Their journey gets weirder with every mile — demonic possession, a charming stalker, a cryptic warning — and when they get to New Orleans, Jackie discovers a dangerous catch to her supernatural bargain. Someone wants her dead — again. Can a brainy vixen in a miniskirt outsmart the forces of evil?

Melindeeloo says

Things were looking pretty good for Jackie at the end of *Gentlemen Prefer Succubi*. With a gorgeous daytime angel lover Noah and a hot bad boy vampire Zane for the nights, Jackie had it all - 'breakfast' in bed and a yummy 'midnight snack' too. But while having two luscious men to keep her well fed was working out just fine for Jackie, both men aren't happy about sharing and both want her to choose. And now to make matters even worse, when both guys are thinking about putting her on a diet 'til she picks just one of them, all of a sudden she's cursed and her 'itch' is coming on harder and more frequently - what's a succubus to do?

Overall I liked *Succubi Likes It Hot* and I liked it better than the first book, but I still had issues with the first half of the book. Jackie's curse means that trouble is piling up rapidly but she still has the ability to make things so much worse. Although I guess it's necessary for Myles to drive off Jackie's readily available food supply, and granted if she can't break the curse she'll starve to death, but I still didn't like Jackie's self-centeredness when it came to dealing with Noah and Zane, it felt more like she just using them and less like she really cared for them.

Still, those nits aside, the last half of the book really gets rolling and the resolution to the curse, and the truth and consequences related to Zane's abandonment 'made' the story for me and I ending up liking the book and it's mix of humor and steam well enough that I will likely hunt down the third book as Jackie and Noah head off to Jackie's first 'dig'.

Elise ✕ a.k.a Ryder's Pet ✕ says

Succubi Like It Hot was a good book. A lot of things happen and you don't really get that much boring. Jill Myles is an awesome author and she writes really good novels. But what i didn't notice in book one (or probably just ignored, which i couldn't now...) was that Jackie is quite whiny, like really whiny and really make everything about her.. And for me it becomes to freaking much of it.. I mean, HELLO, other people suffers as well! And in this book, she took it almost to far for my tast.. and thats why i give so little stars. I hope #3 gets alot better where we get to see a woman who cares about others and who becomes independent. + im team Zane, and its freaking time that she chooses who she wants!

Rate: 3.5 stars

RomanceNovelNews.com says

“*Succubi Like it Hot*” (Paranormal, Pocket, 335 pages, \$7.99), by Jill Myles: Jackie Brighton, the frumpy museum-guide-turned-sexy succubus, is back with her paranormal posse for another adventure in Jill Myles’ “*Succubi Like it Hot*.”

In Myles’ debut, “*Gentlemen Prefer Succubi*,” Jackie is turned into a succubus after she is drained by a vampire named Zane and engages in sex with a fallen angel named Noah. The men, who are bitter enemies,

become Jackie's masters. They are forced to hibernate at different times, Zane during the day and Noah at night, which is convenient for Jackie because she doesn't need sleep at all.

In the latest edition, Jackie discovers she's been cursed. Her craving for sex, which she calls "the itch," has been happening more frequently. If she doesn't find a way to break the curse, she'll be overcome by her cravings and die. Teaming up with her succubus sidekick, popular porn star Remy Summore, they hit the road to seek the assistance of the oldest succubus in America.

On a trip to New Orleans, Jackie discovers little tidbits about her masters, which raise questions about her relationships. Zane appears to abandon Jackie during her time of need and Noah is keeping a secret from her.

Myles' second book in "The Succubus Diaries" series far exceeds her debut. The first, which dealt with Jackie's transformation from sap to sexpot, portrayed her as an annoying neophyte. It made one wonder why a fallen angel and a vampire would choose to be with her.

Jackie is now a confident woman who has lots of steamy sex with her lovers. But this book is not all about sex. Her adventures with Remy will make you laugh out loud, especially during their visit to the cemetery to consult the spirits. And there are new characters that will intrigue and amuse, like the deal-making demon Mae and the mysterious Luc, who turns up wherever Jackie goes.

The most appealing part is when Jackie manages to save herself without the assistance of her absent masters. But questions remain. Does Zane have a sinister plan? What repercussions did Noah face for turning Jackie into a succubus? And most important, which man will she choose?

Hopefully more answers will come in Myles' third installment, "My Fair Succubi," scheduled for release in December.

Mandi Schreiner says

Jackie thought she was getting her life back on track by taking a job with the New City University archaeological team. She has recently been turned into a succubus, which means she has to have sex every couple of days to sate the "itch" that arises. She turns to her two masters, fallen angel Noah and vampire Zane who more than willingly scratch the itch for her. However, these days, Jackie is noticing the need to have sex is increasing, to almost every day. One would think having sex with two beautiful and very sexy men wouldn't be that much of a hardship, but Jackie soon discovers her need for more sex is going to have deadly consequences. It is hard to kill an immortal such as a succubus, but being cursed, is a sure, although slow way. Another side effect of the curse is wiping the brains of any mortal she touches. She puts them into a comatose state, and when she uses her succubus powers to reach into them to wake them up, she can't find the person.

The only other succubus Jackie knows, is porn star Remy Summore (ram-me-some-more....HA) who is fast becoming a good, albeit unique friend. Remy has no idea who cursed Jackie nor how, but she has an idea how to find out. Remy is also dealing with her own demon possession, Joachim, from the first book, and Joachim often wants to come out and "play," which soon causes many problems for Jackie. Remy suggests a trip to New Orleans to meet up with a very old Succubus, who is also a voodoo priestess. Jackie wants to get

there as fast as she can, but Remy has a porn movie to promote and begs Jackie to go on a road trip. Reluctantly Jackie agrees.

Jackie is hesitant to tell Noah or Zane about the curse, with their already rocky relationship. In fact, Noah is tired of sharing Jackie and wants her to make a decision. Jackie is not ready to commit to one person, when Noah is not available during the night and vice versa for Zane. She needs them both, especially now that her sexual needs are greater. Noah is done with sharing and tells Jackie he needs space. Devastated, and not wanting to have sex with strangers on her road trip, she convinces Zane to come with her.

Not far into the trip, Zane discovers Jackie is cursed and abruptly leaves. Now Jackie is on her own, and very horny. Worse, she is being followed by a tall, dark stranger. Luc is willing to help Jackie make it to New Orleans, but Jackie doesn't know if she can trust this stranger or if she can be with someone other than Zane and Noah. When threats and bloody bodies start surrounding Jackie, she hopes Zane or Noah will come to the rescue and find a cure for her curse, before it is too late.

Succubi Like it Hot is a really fun book. I enjoyed it so much!! While I liked the first book in the series, *Gentlemen Prefer Succubi*, I think this is the book where Jill Myles really hits her stride. While I found Jackie a little over the top and silly in the first book, in *Succubi Like it Hot*, she really starts coming to terms with her out of control life, yet she still will make you giggle throughout. She really is at the mercy of men to feed her sex needs, or she will eventually die. It is almost like she lost a little bit of the cocky, sarcastic attitude and the realization of her new life starts to sink in. Plus, with the curse that is slowly killing her, her immortality is in question, and she becomes desperate to find a cure. At one point in the book, she says she has to start doing things for herself. She can't care if Zane or Noah or an innocent gets hurt, which is something always on her mind. She gains some independence with the realization that she has to make decisions to save her own life.

While Remy has no problem having sex with anything that moves, Jackie just can't have sex with strangers. She trusts (to a certain degree) Zane and Noah. That trust is really tested when Zane takes off at the beginning of their road trip. While I was all for Team Zane (yes I must declare teams) in *Gentlemen Prefer Succubi*, *Succubi Like It Hot* gives you lots of time to come to love Noah, and I must say, I fell hard for him. Don't get me wrong, he has his secrets too – and Jackie knows it. But he truly loves Jackie and really tries to prove that in this book. Noah isn't perfect though. Jackie has a hard time trusting Zane because he takes off and keeps many secrets. Yet at the same time, Noah spouts off commands to Jackie and because he is her master, she has no choice but to follow. While both men declare they only have their best intentions towards Jackie, they both follow through on actions that puts doubts in Jackie's mind.

There are a few instances where Jackie overlooks details that really stood out. Threats written on mirrors, certain people turn up very, very dead, people stalking her and she just kind of brushes it off at first, without much concern. I feel like she should have been a little more in tune with the warning signs around her. I also sometimes question the absolute love and devotion Noah and Zane give to Jackie, for not knowing her very long. However, these books run over the span of weeks, and as the reader you don't see every interaction with them, so I suppose there has been a solid basis for a relationship.

The end of the book is going to give you the itch until the third book comes out! I even had a little snuffle. This book is still full of plenty of humor and lots of hot sexin' by the boys. One of my favorite scenes is with Noah in the shower. I have to agree with Jackie when she says it is "the best shower I'd ever had."

Succubi Like It Hot is steamy, full of laughs and just an all around entertaining book. The *Succubus Diaries* series has made it onto my favorites list.

Kathryn says

Great story. Hot. Steamy.. and that's not because the story lands in New Orleans. Jackie, Noah, Zane and Remy have a lot of explaining to do! Add in the Queen of Darkness (again) and Luc (unknown factor until the end) and a whole lot of people falling asleep without their knowledge and you know that somehow our new succubus is involved. And just how does a girl choose who the love of her life will be when she has TWO fallen angels at her beck and call?

Marulett says

Loved it!!!!

Thanks Aly for the rec :)))

Natasha says

"Succubi like it hot" is the second installment in the Succubus Diaries series by Jill Myles.

After reading **"Gentlemen Prefer Succubi"**, there was no doubt that I would read on.

I was glad I bought both at the same time, because I wasn't waiting longer than I had to, to read the next book.

"Gentlemen Prefer Succubi", may have ended on a restful note, but it didn't stay that way for long.

Starting off, Jackie has the "Itch". The "itch" is when a succubus's sexual needs surface, and she's left panting for another body. It cannot be controlled without sex, and though she hates to rely on someone else in that way so often, it's better than doing it with strangers. So her master's Noah and Zane are always close to help the "itch". How very noble of them...

Sounds like a pretty sweet deal right? Wrong. Noah and Zane, hate each other. First they hate each other's "kind", Noah being a Serim and Zane being a vampire, but now they have to share the woman they care for, and it really doesn't help that she cares for them both.

But that's the least of Jackie's problems. Things are getting weird, people she touches fall into a coma, and she can't return them to themselves. She's getting the "itch" way more than necessary, and Remy thinks she's cursed. They take a road trip to New Orleans to talk to a Voodoo expert, only to be followed. Her best friend is possessed and she doesn't know who to trust, or who cursed her. She's really in deep trouble now.

This was even better than the first installment. More action, more deceit, and believe it or not, more sex. I can see this is shaping up to be a new favorite of mine.

Erin *Proud Book Hoarder* says

I usually shy away from these sorts of books because they come across too light, fluffy and cutesy - but I had it on the bookshelf forever and it ended up fitting a reading challenge I was doing. I'm happy I took the dive

because I ended up enjoying it more than I figured I would, although I likely won't continue with the series unless they come to me cheaply and conveniently. I also rarely start with the second book of a series, but again it fit a challenge and I don't own the first one.

Jackie is a relatively new succubus who falls in hot water when she agrees to accompany another succubus, who is her friend, on a road trip. Along the way they run into trouble and find out dead bodies pop up as fast as hormones sizzle when Jackie finds herself mysteriously cursed from the onset. Besides fleeing and solving the dangerous situation, there's also the uneven love triangle with a vanishing vampire (Zane) and half-angel being (Noah.) In the world-building, only a succubus can be created and controlled with this sort of pairing. Odd I know, but it works for this storyline.

Jackie isn't a horrible main character, although she's not the brightest or loyalist. She has a lot to solve in her personal life but she doesn't put in on the priority burner. Her friend is a delight since she brings most of the genuine comedy to the story, and without this side character the book would have sank into dangerous rating territory. Zane is just kind of there sometimes, and I'm not sure if it's because I didn't read the first book, but I'm not getting the appeal. He's hardly around, disappears on his whim, and doesn't seem convincingly devoted. Noah is more likable because he at least cares more, but again Jackie and him don't have any trust in their pairing.

A book called "Succubus Hot" of course has sex scenes, but they didn't interest me as much as the humor that carried the story. Myles writes fluffy stuff well and clearly has fun with these characters. The story wasn't enough to hold my attention more than a three star rating, but it was still cute and a fun way to spend a few carefree hours. Just don't expect to bond with the characters all that much if you're coming in to the story on the second book - expect to laugh and grin instead.

MISS VAIN says

"You think you are so clever, with your masters wrapped around your pretty little finger." His eyes blazed blue fury into mine. Do you never stop to wonder why they are so fascinated with you? Why they are obsessed with possessing you and stealing you away from the other?"
"All those Kegel exercises?!"

Another fantastic edition to The Succubus Diaries. It was action packed and loads of fun. It seems I sit to read this book and before I know it I'm finished, it *Sucked* me in, literally. Jackie and Remy set out on a roadtrip to New Orleans in hopes of removing a lethal curse that has been placed on Jackie.

Jackie learned along the way to fend for herself because she might not always have the luxury of having a gorgeous angel or sinister sexy vampire to scratch her *Itch* when she needs it. Either way this book had plenty of scorchingly hot sex from her lustworthy masters, and it left me wanting more. Noah and Zane are a sight to behold but they've only got eyes for Jackie, however she has eyes for them both. Surely she has to make a decision eventually, but until she does I'm along for the ride and loving every minute of it. In the end my heart still belonged to a naughty vampire named Zane. ;)

Despite his wild side, there was something about *him* that called to me. Maybe it was his roguish attitude, or his lust for pleasure, or the tender way held me when we made love, as if he was afraid I'd disappear and he'd never see me again.....Remy disapproved of him, but I kept coming back like a junkie needing a fix."

I was excited read that my favorite Porn star/Succubus had remained a loyal friend to Jackie, and she's as slutty as ever which is obvious to everyone except herself. She's great entertainment!

Remy nodded slowly. *"It was hard to tell at first-Victoria wasn't exactly the most chaste of succubi, not like you or me."* Boy, if porn star Remy was an example of chastity, Victoria must have been a hard-core tramp.

I loved the first book and this one is even better. It's loaded with plenty of action, mystery, seduction, and steamy sex, all while on the disastrous road to New Orleans.

Hell has no furry like a Vampire named Zane when you threaten to take away his most prized possession, and I don't mean his breathtaking black wings.

Cindy says

OMG...this was a great follow up book to the first one in the series. I love Jackie. She continues to learn about her new and improved self and what it's costing her. I love Noah and Zane but Zane is the one who makes the biggest sacrifice of all of them. I really respected that vampire. There is adventure, action, and love contain in these pages. And even though Jackie is now a succubus she still had her standards. Go ahead read this series, I know you'll enjoy it as much as I have. Looking for the next installment in December 2010.

Jill Dunlop says

Succubi Like it Hot is the second book in Jill Myles' The Succubus Diaries series. Jackie Brighton a newly turned succubus who narrates the story from first person point of view. It's not enough that Jackie is struggling with being a succubus, which means she has to have sex every few days or she will eventually shrivel up and die, but she has also recently been cursed. For some reason whenever she touches a human they fall asleep right at her feet. A mysterious man keeps following her and it seems she needs sex more and more frequently. Jackie travels down to New Orleans to see if she can find another succubi who can help her remove the curse.

I found Succubi Like it Hot to be a fun read. Jackie has a likable personality. She is completely down to earth, which makes her easy to relate too and she also had a wicked sense of humor with lots of sarcasm. She definitely makes for a great narrator.

As a romance reader, I do struggle with the fact that Jackie is currently juggling two men in her lives. She has Zane, her vampire maker and Noah, her fallen angel both falling over themselves to be with her. At times Jackie comes across as more than a little selfish. Some of it is out of her control as she is a succubi after all, but some of it seems just a part of her personality. There were a few instances when I was actually annoyed with Jackie always thinking of herself first.

I do enjoy the writing and the world building. For a paranormal, it has a more campy feel to it. Although, certain parts of the story are heavier than expected given the overall lighthearted writing style. I definitely plan on reading more in this series to see where things are headed. I am enjoying the journey so far. I enjoy Jackie and her escapades.

Rane says

Jackie is finally starting to get the hang of being a succubus..well sort of...she just landed her dream job, has two very fine lovers a fallen angel Noah and a vampire Zane to curve her itch, life couldn't be better..right?

Wrong! Jackie's sexual itch is starting to hit more often, she has a fight with Noah and Zane takes off to whom knows where, she finds out she has a curse that could kill her, while she's stuck on a porn road trip from hell..and oh...someone wants her dead..(again)..Yup, Jackie's life is never simple anymore...

Jill Myles hits another one out of the park with her funny Succubus Diaries, with Succubi Like It Hot.

But I do have one very important aspect I must point out to fellow readers when I picked up this book.....

.....*dances* Zane's on the cover, Zane's on the cover! uhuh~! uhuh~! ..

ahem Back to the regular scheduled review

Jackie is finding out being a sexy succubus is a whole lot harder with having sexy looks and having an itch that can only be cured with sex. With her two masters/lovers Noah and Zane, she finally thinks she has this whole succubus thing licked. Landing her dream job on an archaeological team, Jackie starts to feel her itch coming on more and more, and after a fight with Noah over their relationship, Jackie doesn't think it could get any worse, until she starts knocking people out by her mere touch and then told by a demon in a graveyard that's she's been cursed! With help from her BFF Remy, they have to travel to see the oldest

succubus to see if she could help. Being forced into a porn road trip to help Remy promote her new “movie” Jackie asks and brings Zane along , only to have him leave her when he finds out she’s cursed. Now Jackie is real fix with her itch going crazy, Remy acting stranger and a handsome man named Luc following her every move. Jackie can only rely on herself this time to get her self out of trouble!

Gentlemen Prefer Succubi, there was at sometimes a rocky road as the story unfolded, this isn’t the case with Succubi Like It Hot , the pace of the story was much more smoother with each character reveling more of themselves. Jackie the center character is still a lot of fun, with her funny self-thoughts and witty comebacks, Jackie holds her own more, at the same time, I wanted to smack her upside the head for missing the writing on the wall ,sort to say, with danger around her and jumping the gun and being without tack toward Noah and Zane. At times I could understand where she was coming from (being changed into a succubus, then having to deal with demons, vampires and angels and someone out to kill would make you a tad bitchy) and other times, she just came across as a selfish brat. You do see her change, but at times I want her to hurry up and see the light.

I felt Noah got the short end of the stick in Gentlemen Prefer Succubi, Jill Myles fixes this with Noah taking center stage throughout the book and the reader is able to see what he’s all about. Noah still comes across as a Knight in Shining Armor, who’s shy when teased, very protective of those he loves and cares for and is very hot in the shower *yum!* Noah loved and cares for Jackie and wants her to be with him “ONLY” while Jackie cares for him she still feels a deep draw for Zane, which leaves the reader still hanging on whom she’ll choose in the end.

And speaking of the handsome vampire Zane, he wasn’t very much in Succubi Like It Hot, with only few glimpses of him (which was a bummer for this fangirl) but the scenes we was in, really make you second guess along with Jackie, Zane and his motives, and trust issues once again rise with Jackie but, also see deeper behind his carefree smile, and how he’s willing to sacrifice his new freedom in order to protect Jackie. JM only made it harder to choose between ~~Team Noah and Team Zane~~ Noah and Zane.

Humor has become a trademark of the Succubus Diaries, but also the very yummy sex scenes that scorch the pages! The scenes don’t disappoint and leave you grasping for a cool drink! With the world being paved ever book. JM introduces demons into the mix and other characters like the oldest but young looking (jailbait) succubus, but the returning Remy still steals the show with her banter between herself and Jackie, but the change in her still lingers from the first book, but always ends up getting herself and Jackie into fun trouble!

Overall: another great addition to this series that has quickly become a fave of mine, with many loose ends that is just making me “itch” to see what happens next!

Robin says

So steamy! And so funny! I've been spoiled with the first two books coming out so close together- I don't want to wait for book 3!

Katie(babs) says

When we left Jackie after the events of *Gentlemen Prefer Succubi*, she was coming to terms with her new succubus lifestyle and trying to juggle two incredible, sexy men who were responsible for her situation. There's the fallen angel Noah, her one night stand who is a sweet and tender gentleman. Then there is Zane, that dark and seductive vampire who frustrates her, but also channels her inner wild bad girl. They're not too thrilled in sharing her, especially Noah. Zane thinks Jackie will eventually drop gentleman lover boy and come running to him. But Jackie hates to choose because she has strong feelings for both these men and they are more than willing to give her a hand whenever her sexual itch arises. In *Succubi Like It Hot*, not only does Jackie have to keep her itch under control, but she has been cursed and needs to find a way to break it and fast before she shrivels up and dies, overcome with lust that will never be quenched.

Jackie Brighton's life from all outside purposes looks to be perfect. She has an amazing new job working for the New City University's archeology department, a great sex kitten look that makes the men go wild and new interesting friends, such as Remy, another succubus who works as a porn star and Noah, who is more than willing to be her date to any University functions that pops up, as well as wanting to be her exclusive boyfriend. Unfortunately, Jackie can stay away from Zane who tends to her needs when Noah can't. Jackie thinks having both these men at her disposal is great. Noah hates sharing Jackie because as a Serim, he doesn't get along with vampires and wants Jackie to commit to him and issues an ultimatum.

With Zane no where to be found, Jackie drowns her woes in sappy movies and pizza. When she touches the pizza guy, he falls to sleep at her feet and won't wake up. She calls Remy for help since the men in her life are giving her the cold shoulder. Remy has seen tells Jackie she has been cursed and if she doesn't find a cure, her itch will intensify where she'll need sex not only every few days but almost every hour until she'll wilt away and die. Plus she can't touch anyone who is human or they will fall sleep also. They end up in a cemetery where they try to locate an angel to help them, but instead meet up with a demon who gives Jackie some advice and in turn needs a favor. The favor involves going to New Orleans and visiting Delilah, the oldest succubus in America.

Instead of flying by plane, Remy recommends a road trip because she wants to publicize her new movie. Jackie asks Zane to come along with them, mainly because she needs him to keep her itch from taking over her every thought and emotion. When he agrees in the heat of the moment, she thinks everything will turn out okay. But then Zane finds out she's cursed and splits. Now this has become a road trip to hell for her and Remy. Not only does an evil demon that has possessed Remy's body take over at the most inopportune moments, but Jackie is being stalked by a sexy French guy named Luc who wants to be her knight in shining armor. She makes a big mistake when it comes to him and does something that could ruin her chances with both Noah and Zane. Dead bodies start to line up wherever Jackie goes and when she finally gets to New Orleans and meets Delilah, she finds out that someone close to her may have given her the curse and it may be on of her two lovers.

I have to hand it to Jill Myles for writing a sequel that really came together for me. The main problems I found in regards to her writing in her first book is missing here. This sequel is a big improvement with many rip roaring laughs. I had a huge smile all the way through while I read, and felt so bad for Jackie because the poor girl finds herself in the most awkward of scrapes. I can't help but adore Jackie because her reactions to things and internal thoughts are one of the main reasons to pick up this book.

There are also some nice subtle twists you won't see coming, especially with Zane. Readers may find themselves torn again between who is better for Jackie and the way Zane reacts to Jackie's curse will have

you wanting to strangle him. Keep in mind this is all for a good reason. But again, Jill makes a great case for both these suitors for Jackie's body and heart, and a part of me really doesn't want her to choose even though I am more inclined to side with Zane.

One of my favorite things when reading about a character like Jackie is that her morals are always intact. If she wanted to, she could live up her succubus lifestyle to the max where she can go through men like tissues. But Jackie doesn't do that. She is faithful to those she cares about, and even though she swings back and forth between Noah and Zane, you can totally understand why.

Succubi Like It Hot is really a heartfelt book with unique characters, loopy drama and fun action. If you're feeling under the weather emotionally and need some cheer and laughs, do give Succubi Like it Hot a go. This is definitely one hot and engaging read that gave me the warm and fuzzies until the very last page.

Sophia Triad says

"Let's go on a road trip!"

I flicked one of the blueberries off my pancakes and shoved it to the edge of the plate. "What do you mean, a road trip?"

"Like Thelma and Louise."

"They died in that movie, Remy."

She grinned. "Yeah, but we're immortal, baby. We can drive off as many cliffs as we want."

In this book:

Jackie will be cursed and she keeps making people permanently unconscious when she touches them.

Vampire Zane abandons her.

Fallen angel Noah abandons her.

Only crazy Remy is willing to help. So the two succubus will start a road trip to New Orleans where a voodoo succubus priestess lives so that Jackie can have her curse removed.

Once more Jackie will not be able to stay away from trouble.

Wizards, demons, vampires, porn lovers, porn stars, the vampire queen and a mysterious stalker will want a piece of her.

And once more I could not stop giggling while I was reading.

I suppose the most important thing is that no matter the obstacles, Jackie stays faithful to her lovers....kind of.
