What he'll do for love... Siobhan (pronounced Sha-von) Gray has had it with men who view her as a stepping stone to a career with her family's successful home-safety company. I'm not surprised that Tender Kisses exceeded my expectations. Siobhan reminds me of how we when hurt to the core can mess things up by not letting go. Justin is my man. He saw what he wanted and went for it, falling in love in the process. I loved how this story was told effortlessly and smooth. I'm a fan of Sheryl Lister for more than her writing style. She brings you to the edge gently then pushes you. lol. Love it.

Loved it! Every book that I read by Sheryl Lister makes my heart smile. What really stands out in this one is the love, respect and genuine concern that each member of the Gray Family demonstrates for one another. If a sleazy ex-boyfriend upsets Morgan or Siobhan, one by one their three brothers call or stop by to make sure they are OK. I love that! To protect her heart and her family's wealth, Siobhan hides her true identity because she thinks Justin is deceitful like her lying, cheating ex. So not fair. When Justin discovers Siobhan's secret,

will he forgive her or simply walk away?

I think I inhaled this book! Could I have a Justin-- please! Once again Ms. Lister made her words come to life as she weaved a web of great story telling, not only of Justin's deep need to perfect his creation, but also of Siobhan's fear of letting her family down...again. Together, they maneuvered past hurts and their present feelings they were trying to hide but I felt the chemistry flying off the pages. What a great read. Kudos Sheryl Lister you've done it again!

### **Dorel says**

This book's story line was okay. I liked Justin's character. I liked Justin's nice gentlemen ways but I feel Justin tried too hard to get Siobhan to be his woman. I didn't like Siobhan's character. I understand what she went through, but I didn't like her attitude towards Justin. I love Ms. Lister's books but this one was for me.

Two independent and professional people meet, share a dance and a tender kiss. And that's how it all starts, even though they both have their secrets and their walls, her more than him though. But those tender kisses and his sexy gentleman ways begin to tear down her walls, piece by little piece.

I enjoyed this book. It was romantic, fun, sexy, and a great representation of what families should be like. I wouldn't mind having a bunch of big brothers like this girl ;) Family, love, and fun, that's all that matters at the end of the day.

I loved this story just for the simple fact that Justin Cartwright was the perfect man to win over Siobhan "Hunter" Gray who possessed a rough, direct, and tough exterior due to relationship issues and trying to prove herself worthy and dependable to her parents. Not only was Justin smooth, he was also very thoughtful, sincere, patient, and persistent in going after the woman who caught and kept his attention at first sight! Awesome love story and read!

I read this series out of order. Morgan's story was my favorite. I can't wait to read Malcolm and Khalil's story. Siobhan's story was cute. I love the Gray family. Thanks for making my day.

## Renaë (Romantic Parvenu) says

In my continuing quest to read more category romance in 2018, I picked up *Tender Kisses* by Sheryl Lister (kind of at random) from my library. This is a sweet romance between two hard-working professionals, and I really loved it...until I didn't.

What I loved about this book right away was how mature and breezy the characters were with their interactions. It was obvious from their first conversation that Justin and Siobhan were highly compatible and had a very easy chemistry between them. I also really liked that this is a romance where the characters go on dates like "normal" people? That doesn't happen enough. Justin and Siobhan go out for coffee, for dinner, and on a weekend trip to Vegas. All very normal, couply-things to do.

The tension in the relationship comes from the fact that Siobhan initially lied to Justin about her name—she used her mother's maiden name due to the sheer volume of men flirting with her in order to make business connections with her family. So, while on the one hand she's completely sure that Justin loves her for *herself*, she also has to tell him that she lied to him, and she's unsure of how he'll take it. (Spoiler: he takes it very calmly, like an adult, and acknowledges she had valid reasons to do what she did.) Except then, Lister kind of went of the deep-end, because Siobhan finds out that Justin did want to pitch a product-idea to her dad the whole time, and she freaks out. Even though Justin literally made a huge point of becoming a business success on his own steam.

The problem with any romance, of course, is what the Dark Moment is and how the characters resolve it. In *Tender Kisses*, I felt the misunderstandings were excessive—both in number and in scope. The couple's inevitable breakup over those misunderstandings was just...a little too melodramatic. Especially because as soon as the heroine, Siobhan, cools down from her temper, she realizes she assumed a bunch of things and freaked out with very little evidence. Which is fine! People do that all the time. It just wasn't necessarily in keeping with her character as a cool, level-headed PR executive in a large company.

It's one thing to have an established "impulsive" character fly off the handle and break up with their love interest, only to realize the next day that it was all a mistake. It was another to have the wonderful, mature Siobhan Gray do it.

So, that was a bummer.

A beautiful read.

### **Reading in Black & White says**

Tender Kisses is the story of two people that work way too much until they cross each other's path. Like a lot of that have been hurt in the past, Justin and Shoibhan throw themselves into "distractions" so they won't have to deal with their issues. This aspect of the book makes it realistic, relatable, and that's what drew me in.

This was my first time reading a book by Sheryl Lister and it definitely won't be my last. She does an excellent job at not over romanticizing things because the conflict and internal struggles are something we have all experienced to some degree. You have a new fan in me, BRAVO!!!
