Moonlight

"What is this?" she asked, running her hand over the jacket. "Sheepskin." She looked at him with genuine amusement. "So when you wear this, you're literally a wolf in sheep's clothing."

There are so many "Quotes" I Love in this book. This is one of my favorites. Victoria has pure genius. Her writing just draws you in. I sighed, cried, laughed out loud!!!! I sat on the edge of my seat. I was so entertained. I say Harry Potter look out because The Order of the Black Swan is here!!! I believe these are the books to read.

If you want adventure, suspense, Romance, Action, Dimension, travel, Did I mention True Love!!!

I have been reading since I was 13 (41 years ago). I have read tens of thousands of books.

I have my favorite Authors. Truthfully Victoria is Now #1.

This book has a diverse set of personalities & characters!

Werewolves, Elves, Fae, Demons, Vampire, Berserkers, Witches, Lets not forget Knights. Hunky Knights at that!

Victoria grabs you from the 1st sentence to the last. I did not want to put it down! I have already read it twice, and no I did not miss anything because it is so gripping you just want to soak up every word!! Since reading this series I do not need Calgon to take me away anymore! Come join me in being a Forever Fan.

Gathering Storm

How do I do justice to the brilliance that is Victoria Danann.

I have to say is this is a fabulous book. This is what I wrote right after reading the book. " So my heart is still pounding!!! I still have tears in my eyes. This is the best damn book ever!! (So Far) Victoria Danann you are a genius!! I am going to have to lull a little bit till I can do justice to the best review I have ever given!! I hope I am worthy of this!! I have Highlighted about 1/2 of this book. You are too much"... This is straight from my heart.

In this book all of our favorites from The Order of the Black Swan saga are back. We get to know some of the characters better. We get to watch what happens with our sweet Elora Rose (Rosie). Watching Glen evolve fascinates me. There are times in this book I gasp out loud. I laughed out loud! I cried. I snickered. I sat on the edge of my seat. Yes I literally sat on the edge of my seat. The suspense was so thick you could cut it with a butter knife. From page 1 I was enthralled!

I have to say I got more than a little mad at my favorite Demon! Deliverance Don't You Ever Do That Again! I got a big chuckle from the Animal House Guys!! They are so inventive! I was disappointed in the Z team. Of course our favorite heroine rises to the occasion. I was also impressed with some new trainees.

Wakey, Falcon & Spaz. I can't wait to see what they get into in the future.

Now go get your copy so you also can have a pounding heart & enjoy one of the best books written!!! I hope my review reflects my feelings.

As always from your Forever Fan Pam James....

A Tale of Two Kingdoms

I thought Gathering Storm was the best! But Victoria Topped it again!

Be Still My Heart!!! Love Story... Romeo & Juliet... Cleopatra & Mark Antony...

Cinderella & Prince Charming... You may have thought Those were the greatest Love stories ever told.

Well Think again!!! Good thing I was sitting Made me weep in the knees. She brought out all my emotions again & again..

"My love." He closed his eyes when he heard her voice, like a lick of honey. "There you are." "Here I am."

He pulled her into his arms and stared at her face like he'd never seen her before. She did the same with him.

The crisp morning air laden with Scotia moisture made breath visible.

They stepped onto a grass path in front of a thatch roof cottage, next to a stream, with blooming flowers that would put most botanical gardens to shame.... This is The dimension & spot I would love to get lost in for awhile...

These are a few passages from the book. Made me melt a bit. If you are looking for a true love this is it! I was spent when I got done reading this! Soo Gooood!

Now If My review of all these books have not convinced you to get this set of 6 books. Then go Begone! Get the books anyway you will love them!!!!

From a Victoria Danann Forever Fan.... Pam James

I wish I could write the review these books and the author, Victoria Danann deserve. I have read this series and it is the best series ever. It is not your typical paranormal type series. Each book introduces new people while keeping you updated on the old characters. You have a witch/demon who has a sex demon for a father. A vampire that is changed back to human to be changed back to vampire, well you get my picture. These books allow you to become a part of another world and escape your stresses for a while. I got the first book My Familiar Stranger free and immediately went searching for the rest of the books. Victoria has a way of spinning a story that is uniquely hers and it will absorb you into the story. Her characters will become your friends and you will love them all. I recommend this set of books to everyone!

Diane says

This is one of the most amazing series I have read in a long time. If you like fantasy, paranormal or romance stories, this is one for the ages! I have not been able to put the books down once I pick them up and I have had to reread them a few times. Each one continues the story from the last one. New characters and twists that are so realistic you were there. This is a MUST READ for any avid reader!!

Maggie Nolan says

You will love Victoria Danann's latest three books as they give new meaning to "PNR well-done". If you have not had the extreme pleasure of reading Victoria Danann's books so far, you are in for a treat. I will suggest to you that you start with the first three of her books, reading them in order (My Familiar Stranger, The Witch's Dream, and The Summoner's Tale). They are too good to be missed and set the stage for these books which follow. This set, Books 4-6, includes: Moonlight, Gathering Storm, and A Tale of Two Kingdoms. As I have come to expect, each of her stories has a different feel, but each seamlessly integrates our extended family of witches, demons, berserkers, fairies, elves, wolves, vampires et al while describing the romance between each of the couples that develop during the series and the developments of their lives. In a nutshell here is the focus of each of these books: Moonlight focuses on Stalkson Grey (a werewolf) and his clan and finding his love interest at long last. Gathering Storm looks at the trials and tribulations of "travelling the passes", raising a young demon/witch, and trying to live up to the reputation of a living legend. Finally, A Tale of Two Kingdoms is the story of a forbidden love between members of the royal families of two different lands/cultures. As you see, very different themes but all relating to our same group

of heros and their families. This is a very abbreviated synopsis, but I hope at least it teases you enough to encourage you to buy this set of books and ultimately the entire series. Victoria does Paranormal Romance like no one else. You owe it to yourself to indulge in this series.

Review

This has been a really good, enjoyable, fast paced read. There's action, romance, a little steamy sex and likable characters that you want to visit over and over again.

Anna Salamatin says

This is by far the best series I have ever read! The best part is that It's on going, there is more to come and I hope it never ends.

The Very first book, My Familiar Stranger, hooked me and turned me into a paranormal junkie!

Victoria Danann blurs the line between fantasy & reality, she put me right there,.. the Knights of Black Swan became so real to me, I could relate and feel all the joy, sadness, and sometimes devastation. Even those who are not part of the B Team become friend or foe and some foes become friends in time. This is a whole new take on the realities of love and loss, victory, defeat and sacrifice.

You will meet Vampire, wolves, Fae, Elves, Berserkers and a very special Demon just to mention a few, that's why it is recommended that the series be read from the beginning, I actually re read because there so much going on in different story lines simultaneously,.....Well, you'll see what I mean.....Get ready to fall in love, over & over again.

Hope to see ya on the flip side!(less)

I very rarely ever read a book more than once. I just re-read this series as a whole and have completed the newest book included in this collection : A Tale Of Two Kingdoms. Just when I thought Victoria Dannan could not create an even deeper story line that made you stop and go wow, she did. The beginning of this book was phenomenal and caught me off guard. She not only created a multitude of new characters, but dropped some hints that made me stop and have to re read the paragraph again regarding that vampire. If you are looking for a phenomenal read and an author who can keep you turning pages then you have found one. Mrs. Dannan will entertain you with quotes that will have you saying "Great Paddy" and laughing so hard you will not want to be drinking anything that will come through your nose while reading. This series is full of love, hate, sex (I so love peanut butter now), vampires staked with a mere toothpick, sexy dancing elves, fire starting half witch/ half sex demon women, a vampire who is also a romance novelist, inter-dimensional assassins, kids that would make any mom proud, great music, and a love that spans dimensions. That is just the tip of the iceberg as far as what this world that Mrs. Dannan invites us into has to offer. I cannot wait for the three new stories coming this spring!!!

Shurrn says

The Black Swan Series is full of *Interdimensional, Secret Government Agencies, Paranormal Studies, and Black-Ops Style Vampire Hunters...* The perfect blend of Action, Adventure, and Romance.

Victoria Danann has set up a complex character system with ease... She leaves us with a core group of main characters we never lose touch with, and new faces which earn our adoration with each turn of the page...

In Addition, The Black Swan Saga Features:

Strong intelligent female characters

Laugh-out-loud humor

Vampires

Shape-shifters

Witches

Demons

Archangels

Multiple Dimensions

Action

Suspense

I find it difficult to write a review which could possibly describe the amazing journey that the Black Swan Saga took me on... The story lines weave seamlessly together, yet each book is entirely fresh.

Quite simply, this is:

Those who follow my reviews may recall that I tend to shy away from series which are incomplete, but I find myself helpless to the draw of the Knights of the Black Swan. I'm always eager to read more, and I'm thrilled that there are at least three more books on the horizon.

Some of My Favorite Moments:

(view spoiler)

Book Five: Gathering Storm

“How did somebody your age end up wearing the Pope hat to this party?”

Book Six: A Tale of Two Kingdoms

“Why do you think more people don’t question the status quo?”

“Because the thin’ about comfort zones is they’re comfortable...”

Can't go wrong with a boxed set. Love these books!!!

Anna-marie says

This has to be the most exciting Paranormal series I have ever read. It has everything you could ask for & keeps giving more.

The 6 books in this collection draw you into the lives & loves of the Knights of The Order Of the Black Swan. They keep humans safe from the Paranormal Creatures, that threaten them. They are a funny & loving group of men & their women folk are amazing. You also get to meet A sexy Vampire & an even sexier Demon. These books have them all, Vampire, Demons, Witches Elves & Fae, and they all work so well into the stories, which get better & better as the series progresses.

I was hooked after reading My Familiar Stranger & could not put any of them down. I read The Tale of Two Kingdoms In 5 hours.

Victoria Danann really know how to tell a story. Stories full of Heart Warming & Heart Breaking moments, True love & Unbreakable loyalty.

I DARE anyone who has read the first book, not to be hooked.

patricia says

I thoroughly enjoy all of the characters. I am looking forward to the next set of adventures by the Knights!

Rose says

This is the continuation of a story of epic proportions! You will laugh & you will cry. You will learn more

about your favorite characters & meet some new ones. There are so many twists & turns one would expect to get lost but never fear Victoria keeps us all on the right track.

Moonlight: Our Black Swan Series continues in it's incredible way. Transporting us on an interdimensional adventure. Wereking Stalkson Grey is on a mission to save his pack from dying off, I. the process, he finds love in another dimension where young females live in a cult. This being said, the book is super exciting, can't put down material. Whether you are new to this series or not, you will not be disappointed. Romance, paranormals, interdimensional travel! You be the judge! Thanks Ms. Danann for another great trip.

Gathering Storm: Sir Storm is in trouble and the knights have no second thoughts to go and help him leaving Jefferson Unit vulnerable. You can imagine what happens when another group of knights, the z team known for being less than knights are left to guard the unit! Elora is forced to step in along with the knights in training who are very young to save her new home & family. This was a "by the edge of your seat" book, my heart leapt so much! Reading this book is a no brainer.

Two Kingdoms: The Fae & Elves kingdoms are at odds and neither will not concede in this feud. Handsome Duff, heir to the fae throne falls for a Black Swan employee, an heiress to the elf throne who happens to be the sister of a Black Swan Knight! do, this tale takes us through their journey along with the Black Swan family. I cheered, cried, yhen cried some more, yet did not put this book down. I would give it 10 stars but we can only give 5!

Elizabeth says

What a great way to get your fix of this fantasy series! 3 of some of the best reading of the last several years. There's joy and sorrow, panic and peace, love, pain, ecstasy, dread all rolled into 3 novels. They're fantasy, they're romance, they're both. This is a series that appeals to both men and women just for the wonderful story.

Bridget Hunter says

Love them all!

I like the story line and the characters are all brought to light! I can't seem to put the series down.
