### Vanessa says

It's just awesome. Bittersweet feeling, with a bittersweet happiness in the end. One of the most beautiful manga I ever read, deep and full of hope. The school reminded me of Summerhill school, a real existing school similar to the one in this story. The only bad thing it has is the lenght, such a beautiful artwork should be longer. I finished it five minutes ago and I miss it already

RESEÑA DE LA SERIE COMPLETA (LOS OCHO TOMOS):

NOTA GLOBAL (Y de ahí la puntuación en estrellas): 3/10.

Tenía muchas ganas de volver a leer a Yoko Kamio, mangaka a la que seguí durante 37 tomos con su serie estrella, No me lo digas con flores o Boys over flowers (y del que se han hecho varios doramas). También lei de ella el primer tomo de Matsuri especial (debo terminar esa serie). No es una de mis autoras favoritas pero sus historias son intensas, adictivas y le dan un giro completamente diferente al mundo del manga. Y por eso tenia tantas ganas de volver a leer a esta mangaka. ¿Y qué mejor que hacerlo con los ocho tomos de Cat street? (Del que existe un dorama japonés de seis capítulos)

Me aventuré en esta saga con impaciencia y con mucha ilusión y sin haber leido absolutamente nada sobre Cat street. Queria empezar esta historia sin saber nada de ella para que todo me sorprendiera. Al principio me gustó la historia que Yoko Kamio nos estaba contando, era diferente a cualquier historia que hubiera leido. Ese instituto de educación libre para personas 'inadaptadas' y las personas que se escondían en él me llamaba muchísimo la atención. (...)

Pero Yoko, a partir del tercer o cuarto tomo se olvidó de todo eso y fue a lo tipico. Creó un culebrón sin pies ni cabeza y metió a la fuerza enredos amorosos, secuestros, separaciones desgarradoras, puñaladas por la espalda, etc. Llegó un momento en que la historia me resultaba tan odiosa, aburrida e insipida que me saltaba páginas y páginas, queriendo llegar cuanto antes al desenlace.

### **Angel says**

"And they all lived happily ever after" is the clichéd fairy tale ending. But honestly, I could not have asked for a befitting ending to this manga. It wrapped up everything in the most gorgeous way possible. I can't thank the mangaka enough for creating such an uplifting piece of work. I am left speechless.

I think I really do have a shoujo addiction.

I LOVED THIS MANGA SERIES, WHAT ELSE IS THERE TO SAY??!!

It has everything. It's a psychological manga but is so sweet and adorable I can't even come up with proper words - I should use a thesaurus at times like these, because my feelings are indescribable.

I don't care if people say that you can't feel or understand anything without having words, I think you can.  
(Me right now)

AND I AM SO HAPPY WITH WHO THE MAIN CHARACTER ENDED UP WITH!!!

He isn't strong or macho.

He isn't a rebel or someone who is popular.

He IS awesome. A computer programmer and an introvert.

AND MOMIJI.

Can I just take a moment to fangirl at how cool she is.

THIS GIRL IS CRAZY-AWESOME.

Like, how often do we have Lolita cosplayers in manga that aren't actually kids?

This manga's adorable-ness factor: 100%

This book was featured on my post about my best surprises of 2015!

This was such a satisfying end to the series! I really, really enjoyed the last three ones and loved how the stories ended. All the characters grew up really well and the story seemed believable. I would definitely recommend this series to anyone who wants a really quick, fun, light read. All the editions are online too! Such a good story! If you're looking for a manga that has themes of growing up, finding yourself, friendship, and love then Cat Street is the manga for you!

This is definitely one of the best manga I have ever read. I think that the themes exposed in this series are really meaningful and they give this manga a special place in my heart. I loved how the all characters had unique personalities and how you could really relate to them and understand their feelings. And I really liked Kouichi since the beginning, so I was pretty glad they ended up together. ^^

This is a mini-review for the whole series.

Overall, Cat Street delivers a new spin for a familiar premise, but doesn't elevate its potential. New shoujo fans would appreciate this more, but a casual fan who has read a lot of books like I may find this 'okay' and even fun--I marathoned this series in a day, after all.

It has the heart and half of the desired spirit. Seven out of ten.

As a former famous childhood actress, 16-year-old Keito Aoyama, has not really done anything else with her life. Feeling dejected and alone she does not see a purpose to her life anymore. Her life changes when she runs into a stranger who takes her to El Liston, a free school for students that don't belong anywhere else. As she slowly accepts the support of the new classmates around her she is able to open up and finally find a place where she fits in.

I love how all of the different characters are completely unique in their own way. They are also all multi-dimensional with shaded pasts and unique personalities that each have attractive qualities to them. As various events unfold and the character's pasts are discovered the reader has the ability to connect with the characters and feel what they are going through.

The themes expressed throughout this series are compelling and emotionally stimulating. Not just in the romance aspect but with every facet of the characters' lives.

Note: This review was completed after reading volumes 1-8.

3.8?

I really like the series as a whole and I can give 5? because of the message the mangaka trying to convey. I'm wondering why the adaptation pull a lot of unnecessary stunts & putting a lot of innocent guys in bad shoes unlike this original?. Then again, one part of the ending is so cheesy that i decided to pull out the solid 4? for this particular volume.

I glad that I read this series!

This is a review for the whole series.

The individual characters were really unique and were really just amazing and the beginning of the book was just fantastic.

Over the process, the story unfolded and many events happened and it was really entertaining while it lasted. The setting was of course, Japan, though, I loved El Liston. The whole idea of it was just awesome.

The ending was cute and touching and I wouldn't change it for anything.

Love Kouichi.

:D

I love Rei's personality.

Love Momiji's clothes.

I'm sure there are some other things that I wanted to talk about but I can't remember them at the moment.

Anyway, 4 stars to the series

### **Anne Freya says**

Officially one of my favorites.

Definitely one of the best (shoujo) manga that I've ever read. Just what you'd expected from Kamio-sensei. Imo, it actually beats Hana Yori Dango (her other work) in all area. I liked HYD and it's my favorite too, but I don't like the main couple there and I totally root for other guy too. Yes, Hanazawa Rui, the quiet guy, the 'moon' guy... I'm always prefer this type in manga rather than 'sunny' guy. :p Oh, and although sometimes Doumyoji Tsukasa can be really sweet but I couldn't like him, maybe because I don't like his hair? LOL.

Cat Street is truly an awesome series, a page turner too. Reading this book will make you feel that you can make your dreams come true, like Keito, an ex-recluse in this series.

I was in a really sullen mood 2 days ago, it's like I was engulfed in uneasiness, I totally lost my confidence. So, reading this series is like an encouragement for me to never give up and move my lazy bum and put more effort into it.

Another reason why I like this series is because as one of a 'cat street' myself, I can totally relate with all the

'cat street' in this series. I cried and laughed with them, as if they're real person. And the romance, honestly I already knew from beginning of the series that she will end up with Kouichi as I saw this book's cover when I edited the series' description in GR. But it didn't change my opinion at all, because I really like Kouichi from the start. An introvert geeky, not popular, but always be there for Keito, always help that girl. Well, I know that Rei is a good guy too, he is one of the peoples (Taiyou and headmaster) that helped Keito out from her reclusion, but I prefer moon guy over sunny guy in manga, so yeah... so, it's no wonder that I was totally happy when Kouichi finally ended up with Keito. :)
