I am new to the Comic Scene, so I'm not sure if "Shipping" exists among the comic crowd (or if they're cooler than that). Apparently I am shipping Marcus and Saya since the first issue (should I call it Maya?) I just love how Saya is drawn. The sleeveless shirt. The tattooed arms. The hair. The cigarette that she is always smoking.

Badass.

Dylan Williams says

I couldn't wait for the next volume to come out in trade, so I picked up the single issues! This series just keeps getting better and better, I'm loving it!

Nayeomi says

yes, finally! A character's worth is finally showing (to Master Lin)!

I have seriously fallen head over heels in love with this story.

Deadly Class is not the kind of story that is idealistic or heroic; it truly is a reminder of our own grim realities and the struggles we face. It's raw, dark, gritty and sometimes, downright fucked up. This volume is the beginning of a new story arc and some very interesting things have been set up. Needless to say, I'm super excited to see how everything pans out.

Getting slightly stiff in the joints, the storytelling.
