## **Devastate** Pam Godwin

“What is the price you’re willing to pay?”

“Money isn’t an issue.”

“I’m not talking about money.”

Tate is on the hunt to find his best friend’s sister.

Eleven years ago, Lucia Dias was abducted. Presumed dead. He never met her, so why does he care?

Some might call his efforts noble, but his motivation is more perverse, bordering on obsession.

When he follows a chilling lead to Venezuela’s Kidnap Alley, what he finds is neither a corpse nor a captive.

Amid poisonous lies and crippling depravity, the price of love is devastation.

And he pays.

With his body, his blood, and her life.

**Genre:** Dark Romantic Suspense

**Type:** Book 4 of Deliver series

**POV:** Third Person

**Rating:**

Tate Vades had a quest to complete - to find his best friend's missing sister. His reason behind it might be skewed, but his dedication never wavered.

For years Lucia Dias was thought to be dead. But when she was finally found, she's no longer the same person as she was before.

*Lucia's smile was his responsibility, his goal, his everything. Her life, her health, all of her was his to protect.*

I sympathize with Tate for the difficult position he put himself in and I like how it made him vulnerable. I also appreciate his loyalty and perseverance.

*There was nothing sexier than a woman with a gun. But Lucia was more than that. Strong, stunning, and gutsy as all hell, she was badass personified.*

Lucia, I don't want to say much about her for a reason. But I like what her character had to go through because in such situation, you get to see what a person is made of.

I love the storyline. It was suspenseful and gritty. And I absolutely love how my two most favorite Pam Godwin's characters were in this book. But that means Tate was relegated to a nobody because I was busy

lusting after my favorites lol! This book supposed to be his book, but he didn't stand out as much as he should.

**“You can’t fix this, Tate. Go home.”**

Devastate is a story of fighting for the one you love. It would appeal to fans of dark romantic suspense.

**Note 1:**

*Before starting the book, I had an special wish that is very unlikely to come true. But lo and behold it happened! It's on different situation but still never I thought the author would include such scene. I feel like god finally listened to my depraved prayers haha!*

**Note 2:**

*I'm nervous about the direction of the next book. There's a certain character I'm possessive of and I never want that person to be "soiled".*

**4.5 Stars!**

For Tate Vades, life hasn't always been easy but he's adapted to his situation. Pining after his good friend for some time, he believes he can capture her heart if only he can find her missing sister. When Tate decides to act on his plan, he is tested physically and emotionally in ways he never could have foreseen.

“What is the price you’re willing to pay?”

Lucia Dias has been separated from her family for eleven years and learned quickly that she couldn't trust anyone in her current surroundings. Employed by the local underworld boss, Lucia knows her place but is beginning to lose hope of having a different life.

“What is it going to be Lucia? The easy way? Or...” He tightened his fingers against her throat, cutting her airflow. “The hard way?”

As Tate's path takes him to Caracas in search of Lucia, he begins to realize that his journey is more than just finding her, but also about reconciling his past and fighting for a future. For Lucia, the hope she lost is resurrected when she connects with Tate on a deeper level than she ever expected. As they start to trust each other, the risks are high but they are willing to fight for a chance.

“With his hands on her hips, he drove inside her, feeding her every ruthless inch and unleashing the last of his restraint.”

With Tate's history, the loneliness of his character pervades, but even during his darkest times, his humanity didn't wane. Finally finding what he's been searching for, Tate doesn't back down and stakes his claim to Lucia. Most importantly, Tate evolves as he learns from his past and embraces who he is now. Throughout this plot, Lucia's plight is heavy and the hopelessness of her situation is strongly felt – ranging from her stubborn resignation to infusing passion into desperate times.

Told in third person, the plot tension builds at a steady crescendo leading to gritty moments filled with psychological implications and adrenaline pumping action. Adding to the appeal of Tate and Lucia are secondary characters that continue to be weaved into the ongoing plot of the Deliver series. Van Quiso's role in this book is monumental for his own character arc and also for Tate's personal growth. With his added presence, the plot felt more cohesive. Lastly, the inclusion of Cole Hartman made my heart flutter again and can't wait to read more about him being part of the Freedom Fighters.

In true Pam Godwin fashion, *Devastate* follows a complex plot rich in earnest characters and effective scenes that evoke a sense of strong emotional strength. What I always love about this author's work is her ability to stay true to her characters and to take a darker path when it furthers the storyline.

*Devastate* is a dark story paralleling the trials and tribulations of characters placed in harsh circumstances but showing how resilient one can be. I highly recommend!

**5 STARS**

*The price of love is devastation.”*

Holy.

Freaking.

SHIT.

It's been a long LONG while since I read a dark romance so dark that I actually needed a mental health break after reading it. This book completely destroyed me. In the best way possible. But I still doubt I'll ever be the same. I don't remember the last time I read a story that had me riveted to the pages, with one eye closed, anxiety in the pit of my stomach, and an undeniable feeling of dread the entire time. It was one of those stories that you simply experience. And then find yourself in need of sunshine, unicorns, and rainbows immediately after. Because holy shit! Have I already said that? HOLY. SHIT.

*What a cruel thing love was, silent and desolate in its torture. How ironic that loving someone was the thing that hurt the most.*

First of all, while this book introduces a different couple, I really don't recommend it out of order. A lot of the backstory would simply be lost on you. Do yourself a favor and read the series in order. Trust me. Tate is a character that I first became intrigued with in Vanquish, and was practically salivating for his story by Disclaim. I was dying to know who the woman would be that would get him over his unrequited love for Camila. But suffice it to say, I never saw coming just where Pam was going to take his story.

Long thought dead, the disappearance of Camila's sister, Lucia has been a mystery. Determined to find proof of life or her death once and for all, Tate finds himself in the belly of the beast. Venezuela's Kidnap Alley is not a place anyone goes to voluntarily. Certainly not anyone who doesn't have a death wish. But going straight into the pits of hell that's ran by a ruthless killer is exactly what Tate does. But nothing could prepare him for what he finds.

*Sorrow existed to breed happiness. Pain gave rise to pleasure. Loss brought about exploration.*

This book is almost impossible to review. I feel like every tiny morsel of a detail could be a possible spoiler. And the less you know about this story, the better.

What I can tell you, is that I fell head over heels for Tate. This man has been to the pits of hell and managed to climb his way out. And now he steps right back into danger voluntarily for his love of a woman that will never return his feelings. I was terrified that the woman he ends up with will feel like a consolation prize. But I should have known better than to doubt the brilliance of Pam Godwin. She pulled it off flawlessly. Because this depraved relationship that was built on hope and pain was nothing short of breathtaking.

*She tasted like sin and paradise, a sweet combination that would never tire, never completely sate, because he would always want more.*

*More of her mouth.*

*More of her pussy.*

*More of this.*

Lucia was this eerie combination of strength and pain. You want to judge her for who she is and what she does, yet it's impossible. There's so many layers to both of these characters, that by the time you're done peeling them all back, you're completely sucked into their story.

There's a cameo by a certain character that many will appreciate. No, I won't tell you who it is. But if you've read Pam's Tangled Lies trilogy, you'll love this appearance.

The story itself was absolutely spellbinding, in the most fucked up way ever. It's violent, painful, incredibly emotional, beautiful in its depravity, and completely unforgettable. All I know is I'm left shaken, ruined, and awaiting the next release like a junky waiting for their fix. If you're a fan of dark romance, no one writes it better than this woman. Do yourself a favor and read this book!

5 “Found” Stars

Oh my poor battered heart. This series is everything I want in a dark romance. And I do mean dark. I fell in love with this series when Deliver was first published and while I've very much enjoyed all the books, none of them ever took the top spot from Deliver. But this book. It gave a Deliver a run for its money.

Devastate is about Tate. Having met Tate in the other books, we know he's dark and broody, still reeling from his time as a captive slave and in love with his best friend. Doing the one thing he knows will make his best friend happy, he goes in search of her sister who has been presumed dead for years. It's not an easy mission but one thing Tate doesn't lack is motivation. Traveling through the underworld of Venezuela, Tate knows he is going to face an enemy without any hesitation to kill him. What he doesn't expect when he finds what he's looking for is the price he'll have to pay for love.

This was a gripping and sexy story that kept me on the edge of my seat. Ms. Godwin is a dark romance

genius at the top of her game. This series is one of my all time favorites. Getting to see all my favorite characters again, plus one from another series that I fell in love with, was just the icing on the already delicious cake. And I cannot wait to see where the next book in the series takes these characters.

I voluntarily read an ARC of this book. A is for Alpha B is for Books.

#### **So. Fucking. Good.**

I love it when this happens.

I love it when a book I am highly anticipating meets my expectations.

It's a moment that's almost celestial.

Such a joy.

...And a bit of a relief, no?

In an effort to avoid spoilers, I will keep this borderline gush-fest brief.

Pam Godwin is an author goddess.

A sexy sexy times scribe goddess.

A dark and make you say !!! dirty goddess.

I'll be honest...which I always am, so I'm not sure why I needed to start this sentence with an honesty disclaimer, but as I was saying...

I'll be honest: I was a little nervous about this book.

This is obviously a series, with this being the fourth book in that series. (See how well I can count? And read?).

And when I saw that the love interest in THIS book was Tate - a character who spent all of the LAST book obsessed and pining over the LAST book's heroine?

I became...concerned.

But like I said, PG is a boss and made it work and then some here.

The mystery of Lucia and her whereabouts and motivations kept me interested...

Tate was all smexy and hot AF and all that...

But what kept me glued to the page?

GLUED?

None other than my FAVORITE thing in this entire series...

THIS guy:

AKA, the hottest...

CRAZIEST...

Toothpick-toting-est...

Van fucking Quiso.

Lemme just say that Van is one of my all time favorite book boyfriends.

ALL time.

I call - and have called - fucking dibs and I will slay - SLAY, I say - anyone who tries to claim the same.  
\*fists up and ready peeps\*

In order not to spoil this series for readers who have NOT read it yet, I will just say that Van is all kinds of fucked up and wrong and you will hate him in book one.

But his book - book two - is my favorite book in this series (still) and one of my favorite books of all time, period.

He and Amber (whom I *adore*) are one of my top couples ever.

They are beyond fucked up and damaged and riddled with legit mental illness and I would gorge on them for all eternity if I could.

So getting some extra doses of them in this book was a total win for me.

I also ADORED Van and Tate's relationship dynamic and interactions throughout this book.

Another HUGE win for me?

Another AMAZING and completely unexpected appearance of a beloved character from Pam's *Tangled Lies* series.

I won't specifically name that character as to do so runs the potential of completely wrecking THAT series for folks who haven't read it yet...but folks who HAVE can probably guess who that character is....

It was amazing and awesome and all the adjectives under the sun that equate to SUPER. Fucking. Swell.

So, thank you, Pam Godwin.

I know I will get asked this in the comments and it's a VERY good question, so I will answer it here:

**This CAN be read as a standalone, I suppose...HOWEVER(!!!) In my opinion, I think that to enjoy this book to the fullest, you MUST read books 1-3 first.**

And, if possible, you should try to read Pam's Tangled Lies series before reading book four of THIS series.

Failure to do so will absolutely WRECK that series for you - and it's SUCH an amazing series and I HIGHLY recommend it.

So, yeah, that's a lot of reading (six books total) that I feel need to be read prior to this in order to FULLY enjoy this book; but you know what?

I loved and devoured them ALL.

So, if your wallet can take it or your library supply it, I can't recommend these book highly enough.

Just to note: Book one of this series is actually my least favorite of the series; but books 2-4 were all 4.5/5 stars for me, I believe.

So if you like it, but don't adore it - fear not.

Keep pushing.

Anyway, that's all I got.

Current fans of this series, I hope you all love this as much as I did when you finally get it in your hands!

**~ Stéphanie ~ Tied up in Romance ~ says**

I've read the entire Deliver series almost back to back and now I think I'm going to suffer from withdrawal

because how am I supposed to let this all go?

Pam Godwin continues to push over and over again! If you think Disclaim was dark, wait for Devastate! This is getting worse with each and every single book she writes! You think you've reach the darkest? Well not at all, Devastate is worse!

I was a little nervous when starting this one because I loved all the books in the series. I couldn't believe something could be better than what I felt with Disclaim or even Vanquish but I had the same vibes! Pam Godwin is really a queen when it comes to mix feelings and darkness. How she associate distress and hope is beyond me!

This is **not** a standalone, you have to read the other books because all of them are intertwined. Moreover I would strongly suggest reading The Tangled Lies series as well because one of the main characters makes an appearance here. If you want to read this trilogy read the Deliver series first, it'll spoil the entire trilogy if you don't which will be a real pity because the Tangled Lies series is one of the best I've read last year.

In Devastate, you have Tate who will do anything to find Camilla's sister, Lucia who's been missing for more than a decade.

I was so excited to get to know him because aside from being nice I didn't know how he was and how he could cope with what he has been through. I loved discovering where he was coming from, what was his life before his kidnapping and he became such an alpha man. I never could resist one and it was no different with him.

I had some concerns about Lucia when I first heard about her in Devastate. The picture described is far from encouraging. The mystery surrounding her was thick.

One more thing I was apprehensive about was how these two would fall in love for each other. How they would connect and how it would be believable... Well that's where Pam's magic happens. She makes it natural; she makes it spectacular even in the darkest of time.

Just a special mention to fans of Van because this man, he kinda stole the show for some parts. There wouldn't be Devastate without him! The parts he plays, the way he acts, the things he does are just him 100% and it made me love the man even more!

Last but not least for those who read Devastate, Am I the only one who want Kate to be with (view spoiler)(view spoiler)

**"I'm here for you and you alone."**

**Devastate** is the fourth book in the Deliver Series. In order to grasp the full emotions of the characters and their plight, I highly recommend reading this series in order. As the twisted fates of a few broken people

intercept and intertwine, the balance of right and wrong sway violently back and forth. This series is certainly not for the faint of heart but, if you are willing to take a ride through the dark and twisted side than this one is for you!

**"When she smiles. I feel a peace, unlike anything I've felt in my life."**

Tate Vades is on a mission to rescue Lucia Dias. Lucia is the sister of his dear friend Camila. Although Tate is willing to do whatever it takes to find Lucia and bring her home, he could never have prepared his heart for what would happen when he discovered all there is to know about Lucia. She has endured so much to survive and when Tate enters her dark world, even he, a man with plenty of demons, cannot believe the circumstances she has been forced to face. Now that he has found her, he will stop at nothing to rescue her and make her his.

**"In that moment, he knew he would endure."**

Told in dual POV, **Devastate** delivers a gritty and action-packed dark romance with complex characters and an intricate plot. The supporting cast of characters is critical to the plot and the way in which they offer emotional and physical support to Lucia and Tate crafts together an impenetrable "family" that will not be torn apart. In addition to the darkness, there is much light as passion blooms between Tate and Lucia. The relationship between the two grows and transforms into an unstoppable force that can never be broken. Ms. Godwin offers plenty of twists and turns as these characters battle the evil that surrounds them. In this world, anything and everything can and will happen.

I have long been a fan of this series and the beautiful and broken characters that live and breathe in this world. The one theme that continues to prevail is that love truly can heal all wounds. I highly recommend this series to any and all dark suspense fans. With complex characters and an unstoppable plot, **Devastate** delivers another unforgettable read!

**WHAT IS THE PRICE YOU'RE WILLING TO PAY?**

**Tate** has decided to help locate his best friend, Camila's, sister. Most everyone is convinced she is dead since she was stolen and sold into sex slavery over a decade ago. Even Camila no longer thinks her sister, Lucia, is alive. Tate makes it his mission to find out the truth about what happened to Lucia and \*if\* she's alive to reunite her with Camila. The price he must pay to find the truth broke my heart.

I don't want to give too much away on what Tate must endure getting his answer. And if the answer he seeks is the one he had hoped for. A lot happens on this journey to find Lucia that makes for challenging moments for him. He faces some of his most humiliating moments but through it all Tate grows as a man to not be messed with.

**DEVASTATE** is the fourth book in the Deliver series. **It can be read as a standalone BUT** if you plan to read the other books in the series - start with book one because there is an overall arc that flows through this series. Devastate is a dark book that takes you on a rescue mission journey in search of a person who has been missing for over a decade.

4 stars!

NO ONE writes dark romance like Pam Godwin. Seriously- no one. She is the best of the best when it comes to this genre in my opinion. Her *Deliver* series has been epic for me, so of course I was ecstatic to get to this book. *Devastate* is Tate's book, but there is so much more to it than just being Tate's book. We get so much of my boy Van, and another one of my favorite characters from Pam (to be honest, he kind of stole the show for me... and totally needs his own book ASAP!).

Tate is looking for his best friend, Camilia's sister, Lucia. He will do whatever it takes to find her. No cost is too high. He finds her in Venezuela's dark and decrepit 'Kidnap Alley' and is stunned at what he finds. He wasn't sure what he expected, but this Lucia is not it.

She was, without question, the sexiest, most striking woman he'd ever seen. But it changed nothing. She was still a gang member, and he still loved her sister.

Lucia is no captive or slave, but in a sense, she is. She has spent the past eleven years working for a monster. She has had no real choice in the matter. She assumed this is what she would do until she no longer could,

but then Tate came along. Tate and Lucia's relationship is convoluted at the start. I was nervous more than once about how they could make things between them work, or how they would even survive the predicaments they were in. As time went on, Tate started to feel more for Lucia. He wanted her, not because she was Camilia's sister, but because she became everything to him. ?

“One night, Lucia. Everyone needs someone. Even me. Tonight, I’m yours. Your someone.”

Even with the amazing ‘team’ these two had behind them, I was so worried they wouldn’t be able to do it. Wouldn’t be able to get out and have their happy, which they both deserved so much...

?  
*Devastate* is a story that kept me on the edge of my seat. It captivated me and shook me to my core. I was anxious throughout so much of the story. I loved how many of my favorite characters played such a huge part, but at times, I felt like it distracted me from Tate and Lucia’s story. This book was dark. Like DARK, DARK. If you are a fan of dark romance, pick this one up! It can technically be read as a stand alone, but you will get so much more out of the story if you read the first few books first!

It was the bad stuff that breathed vivid life into the good.

*“Without the bad stuff-the trauma, the fall, and the crash-joy wouldn’t exist.”*

**Tate Vades**; had fallen in love hard and needed a distraction. What more than to go on the hunt for his best friend's missing sister to keep his mind occupied. He knew staying as far away from an impossible love was the best for him.

*"The price of love is devastation."*

**Lucia Dias** disappeared when young and everyone thought she was dead. However; what they found was a complete changed person. The life she had been living changed her and it was the only thing she could do to stay alive.

*"Free. She wished for nothing, prayed to no one, and had zilch to lose. If freedom was a state of mind, she was hopelessly liberated."*

I actually really enjoyed this story; I found it more enjoyable probably because I binge read the series so all the characters were fresh in my mind. One character in particular stole my heart and soul from the beginning and having him in this book made my heart do flips and palpitations hahaha. I found the story to be so much better and interesting with him in it.

The story was packed with a lot of suspense and surprises; definitely plenty of sexy times and heart palpitation moments. I was unable to put this book down once I started it. Readers who are following the series will find themselves immerse in the story and would truly enjoy this ride. Overall, this book will be appealing to readers looking for a great dark romantic suspense read and are not afraid of some hard limits.

4.5 He Was Her Everything Stars!

-What a cruel thing love was, silent and desolate in its torture. How ironic that loving someone was the thing that hurt the most.

Tate Vades is a gorgeous 25 yr. old man from Austin, Texas who had a rough life growing up. He was kidnapped at 19 and experienced some things that will forever haunt him. He considers himself a survivor, and is now part of a vigilante group who calls themselves the Freedom Fighters. They sacrificed to fight in their crusade against sex slavery & trafficking. In a way it was their therapy. His closest friend in this group was Camila Dias. Over the last six years he grew to care deeply for her. Her sister was missing and he wanted to reunite them & give Camila closure. He's hired investigators to try & locate her sister Lucia. Lucia was abducted 11 years ago, and is presumed dead. Tate follows a lead to the capital of kidnapping in Venezuela. He finds himself in one of the largest slums in South America where violence & corruption is a way of life. A place where you have to fully embrace it to survive it.

Tate is determined to find Lucia, and return her safely to her sister. What he finds isn't exactly what he was expecting. This beautiful fierce woman he encounters in Venezuela is ruthless. In the midst of devastation, she is trying to stay alive. Tate becomes completely infatuated. He wants to protect & take care of her. He also is insatiable for her, and finds himself caring deeply about this woman. He soon learns the price of love is devastation as his limits are tested, and he must do whatever it takes to be with the woman who owns his heart.

I adored this book! I've been dying for Tate's story, and it was fabulous! I love this whole series! Pam Godwin is truly the queen of dark romance. This book was sexy and intense. We also get an appearance from a man I love from the Tangled Lies series. I'm hoping to get more of him in Kate's book up next! :))

-It felt as though they'd been lovers for years, like there was a familiarity between them, a uniquely matched closeness he'd never experienced with another woman.

-She had the ability to hurt his heart and put it at ease all at once.

-He would fucking fight for her with every breath in his body. She was his.
