Game On Kelly Jamieson

When the stakes are this high, it's game on. . . .

“Kelly Jamieson is an auto-buy for me.”—New York Times bestselling author Carly Phillips

Cam Brickley and his pro hockey teammates bet on everything: who can win five faceoffs in a row, who can do forty pushups in less than a minute, who can eat a ghost pepper without puking. But when his buddies bet him he can't date the same woman—like, say, the hot blonde over at the bar—for two months and not fall in love, he'll take that bet all day. Then he'll laugh all the way to the hockey arena, where they'll be washing his jock straps for the rest of the season, because Cam's never giving up his bachelor lifestyle.

Olivia Lockwood, heiress to the Lockwood Industries fortune, is used to people using her for her money and family connections. When Cam Brickley hits on her in a club, Olivia's first instinct is to brush him off. But *he* couldn't be using her for her money, since he has more than enough of his own. Cam's gorgeous and built, and it would be no hardship to go out with him . . . besides, he'd be the perfect spokesperson for the children's charity she works with. Maybe it's time for *her* to start using people.

Cam and Olivia are both in it for something. What they don't know yet is that they're playing for keeps.

Dual POV, sports romance with low angst, some miscommunication, and a happy ending.

While I enjoyed the fact that the "bet" was disclosed pretty early on, and I liked the cameradie between Cam and his teammates, and I really liked that even though this is the 8th book in a series I haven't read before I had no trouble following along...*Game On* just wasn't my cup of tea.

Olivia's near constant "I'm not worthy" refrain, the way the two don't recognize they're actually falling for each other, the aftermath of the bet ending, and how glacially slow the pacing of this book was...none of it made this enjoyable for me, but mostly I just found the character of Olivia utterly exhausting.

I hope you enjoy it more than I did.

Guilty Pleasures Book Reviews says

It is always hard for me when an author finishes a series I've truly enjoyed and Kelly Jamieson's Aces Hockey series has been a favorite of mine since its inception. This book deserves 5 stars alone for the last chapter, Ms. Jamieson's description of what was happening not only gave me goose bumps, but I could easily see the scene and I felt every emotion while reading it. Sweet, funny, sexy, and intense all describe this book and it was an absolute perfect way to end this series.

I'm not a fan of game playing or men making bets about women so at the start of this book, I was worried I was going to be disappointed in it, but thankfully there were some twists and turns that had the truth coming out pretty quickly and it was easy to settle into this romance. Cam "Brick" Brickley is a pro hockey player and enjoying everything that comes with that including a never ending parade of women, but when one of his teammates bets him he can't date a woman for 2 months straight and not fall in love he takes it knowing that won't be a problem. He doesn't believe in everlasting love or long term commitments and he doesn't think it will be difficult, but his first hurdle is Olivia "Liv" Lockwood who doesn't seem too interested in even going out with him once.

I liked Cam despite the fact he was a bit immature at times and pretty self centered. I think in that way Liv was good for him because it made him look beyond his small circle and himself. I hate to say it but at times Liv got on my nerves, she seemed to be that "poor little rich girl" who felt sorry for the kid/teen she used to be and couldn't seem to move past it no matter what she accomplished or who told her she was a good, kind, and beautiful woman. I toyed with my rating on this book because at times both these characters got on my nerves, BUT (and this is huge), they both also showed real growth throughout this book which I appreciated.

To say the start of their dating life was interesting is putting it mildly but it was good for a lot of laughs and I did enjoy watching them get to know one another before getting physical. Cam's idea of a first date was really great and while it didn't end well due to unforeseen circumstances, they got to know each other and we as readers got to know quite a bit about them which is always a good thing. They kind of fell into an easy relationship and because they knew there was an end date and both were quick to say they didn't want anything permanent, yet they were happiest when they were together and it took them a pretty long time to figure out their feelings had changed.

There was a lot of hockey in this book and it was quite thrilling and we saw a lot of the other players (and previous couples in this series) throughout and I loved spending time with them all again. I have to make note that two players were mentioned at the end that were from Ms. Jamieson's Bayard (college) series which I loved seeing that crossover as well.

The thing that really made this book unforgettable was the last chapter, it summed up my feelings for this whole series and while I am sad to see it end, Ms. Jamieson took it out on a really high note.

Ayekah says

Final book of the series and it is stellar. Cam Brickley likes to make bets with this fellow players, most of them are now attached to a significant other, but not Brick. No he swears that will never be. So the bet after he sees an attractive woman at the bar is that he can't date someone for two months without falling in love. Cam takes that bet. He doesn't do love. Easy win for him. All he has to do is get this beauty to go out with him.

Olivia Lockwood comes from money and runs a not for profit charity, unlike the rest of her siblings who are either in the family business or ridiculously successful in their own right. Then there's Olivia, who wanted nothing to do with that. Her backstory unfolds as the story goes on.

The two date and when Cam starts to have feelings for Olivia, he feels like he needs to tell her about the bet, Olivia using that to her advantage makes it into a game. After all she did hook Brick into being a spokesperson and helps her out with her charity. She offers to play along and let the guys think there's nothing between them, when even single sign says otherwise. Their chemistry was outrageous and holy hotness some serious sheet burning. Both have feelings for each other.

These two were interesting characters, Cam was a tough one to warm up to but through the book you see him change and also help Olivia through her problems with her family. We see Olivia become more self confident and more open. And when Kelly J drops the other shoe in a story, damn you don't see that coming and she does it every single time.

I read the whole series and am sad to see this come to an end but I know she'll have something great waiting to be read. Fantastic end to the series and a blazing 5 star read.

I'm sad, you want to know why I'm sad? It's because this is the last book in the Aces Hockey Series, this is

one series that I actually hoped would keep going and going and going. It's rare that you find a series that keeps you coming back for more and wishing it would never end but that is exactly what I had found with the Aces Hockey Series. Not only do we have a great group of men but the women they fall for a phenomenal as well. Each and every book had me hooked from beginning to end.

Game On is Cam's story. Cam and Olivia's story touched me on a personal level because of how they got together, the guys made a bet that Cam couldn't get Olivia to go out with him (part one of the bet) and if he did that he couldn't date her for two months without falling in love (part two of the bet). Well this is somewhat similar to how my husband and I started dating, yes it was a bet very similar to part one of Cam's bet only there was no second part because everyone was shocked that I said yes to the original date they weren't going to push fate any further...smart guys..LOL only Cam's friends weren't as smart....or maybe they were. You see Cam was sort of a Playboy he was the One and Done type of guy, you know what I'm talking about but what no one was expecting was that Olivia was just the person he needed to change his ways.

This was an emotional read at times because both Cam and Olivia have been hurt before and when their stories are told, well lets just say I understood why Cam was the way he was. As for Olivia, she was guarded and had every right to be I'm just glad she gave Cam a real shot.

This is an easy book to recommend for all lovers of contemporary romance that will heat up your eReaders, over 18 please, especially if you enjoy the sports romance genre. Game On can be read as a standalone as can the other books in the series but I guarantee once you read one of the books you'll want to get to know each of these men better, and since this is the last of the series it will contain spoilers for past books so if you think you may want to read more of them I suggest you start at the beginning, you won't be disappointed. Happy Reading!!!

WOW Book Eight Already. Chicago Aces is not just another Hockey Series it's A Kelly Jamieson Hockey Series and from the very first book you are totally vested in this team.

We get to meet in this final book Cam "Brick" Brickley. He is a Fantastic player for the Aces, A Great Brother & Son But he is also a player when it comes to the ladies and whenever there is a dare he never backs down, so asking a woman out seemed like a easy bet but when it's Olivia Lockwood the odds are so much different.

Olivia Lockwood is a woman on a mission to prove to her family that she can succeed on her own and not working for her family. With her non-profit organization Move On Chicago her priority is her job and never again a man. But one night can change everything.

From the moment they meet you can't help laughing out loud as they spend more time together you see how much fun they have with each other but can a stupid bet and some insecurities derail how incredible they can be together.

Even though this is the last book in this series Kelly Jamieson ends it with a high note and you can't help feel this is a series I'm happy I read from book one right up until book eight.

I just love this series and while I am sad to see it go, this was a great way to end it! Kelly Jamieson put the

perfect icing on the delicious cake that has been this series!!

I adored Cam and Olivia and I loved being on their wonderful journey to their HEA. Their first date was absolutely epic! Unfortunately I felt like I was right there with them lol. You really need to read it to truly understand.

I think I laughed and swooned my way through much of this one. Their dates were just awesome! I enjoyed them so much, but probably not as much as they did! What started out as a bet, turned out to be the best thing to ever happen to Cam and Olivia. I really love them together! And I loved the interaction with Cam's teammates, who we all know from previous books, to bring this series to a nice conclusion. You don't want to miss this final Aces book, you really don't!!

5 Star Review of Game On (Aces Hockey #8) by Kelly Jamieson

This is book 8 in the Aces hockey series and can be read as a standalone. Kelly Jamieson has done a great job with this series; this is Cam Brickley and Olivia Lockwood's story.

Game On brings the series to a conclusion and I am saddened. This has been a great series and I have enjoyed all the books.

Cam is a confirmed bachelor and when his teammates bet him he can't date the same woman for 2 months without falling in love, he has no problems accepting the bet; after all he is Cam Brickley.

However the woman in question Olivia, is a woman of money used to men only wanting her for what she can give him. This time she is determined to get something she wants out of a relationship too; Cam would be the perfect spokesman for her Children's charity.

The chemistry between Cam and Olivia simply smoulders. Will they both realise the potential their relationship has or run before it has a chance?

I really liked Cam and Olivia, they were great characters and I enjoyed their story line. Cam was hard to like initially but he really grew on me. Olivia has been hurt in the past and her fears compound her insecurities. However when they both realise that their feelings have deepened, Cam tells her about the bet.

Game On was a fitting end to a great series.

Samantha (WLABB) says

This was a bittersweet read for me, because I love the Aces so much. I actually just discovered them last year, and then binged the rest of the series in 2018. I am really happy I did, because I enjoyed getting to know this team, and also, being a part of the the final chapter with them.

It's sort of fitting, that Jamieson chose Cam as her last Aces hero. Being a commitment-phobe, he was the last player we expected to see becoming a one-woman-man. He didn't do commitment. He didn't like taking chances on things he wasn't sure he could ace, but once he opened the door to Olivia, it was game on. And, all it took was a bet.

I wasn't sure about Cam, after having met him in previous books, but with him the central focus in Game On, I got to see that there was a lot more to Cam than met the eye. I saw his sweet and considerate side, his dedication to his family, and his big heart. There were all these little things he did, that made me, as well as Olivia, love him more and more.

Olivia was great too. Growing up the daughter of a very powerful family, she had been used and misled one too many times, and was now hesitant to trust her heart. That coupled with some self-confidence issues created by her past and the way her family treated her, made watching the evolution of her relationship with Cam very satisfying.

The combination of Olivia and Cam was fabulous. There was the attraction and heat, that I always like to see crackling between my hero and heroine, but I also loved how fun Jamieson made their interactions. Their first few dates bordered on rom-com, and I absolutely loved it! But, I also adored seeing them get beneath the surface and expose so much to each other.

It was not just the romance, which won my heart in the book, it was the wonderful farewell Jamieson gave to this group of guys. It was a fond farewell to all the couples we saw get their HEAs. Everyone was in attendance, and the finish was big and very, very satisfying.

I will miss the Aces, but look forward to what Jamieson has in store for us next.

Overall: Another fabulous Aces book, that was about taking chances, and the rewards you can gain when you open yourself and your heart.

Sporty, Sexy, and Sweet!

Game On is a passionate, lighthearted RomCom about the focused, determined Olivia who has no problem going on a few harmless dates with a hunky athlete if it means some free publicity for her children's foundation and the hard-bodied, delicious Cam who's so happy being a bachelor that he has no problem betting on his ability to not fall in love.

The writing is crisp and light. The characters, including all the supporting characters, are charismatic, fun-loving, and kind. And the plot is the perfect blend of heat, drama, emotion, humour, sassy banter, chemistry, friendship, love, and hockey.

Game On is the eighth and final story in the Aces Hockey series, and even though it's a little bittersweet to say goodbye to the characters we've come to know and love from the previous novels, it is nevertheless a fabulous ending to a superb series that I will undoubtedly miss.

Thank you to NetGalley, especially Random House – Loveswept, for providing me with a copy in exchange for an honest review.

This is the series finale for our Chicago Aces, and a fantastic finale it was!!! I loved Cam and Olivia. They had great chemistry both in and out of the bedroom. I really enjoyed their banter. They had a rough start, but still found ways to laugh about their misfortune. I liked the easiness between them. Cam was cocky, but love-able... Olivia, even after being hurt, was open and willing to risk her heart. They really seemed to compliment each other. I was glad we were visited by our favorite Aces couples, but I'm sad to see them go. A great ending to a great series! ***ARC provided for an honest review***

I can't help myself, I love this hockey series. Nothing too complicated, but spot on with the hockey details, and always believable, lovable characters. I just gobble these up. Too bad this is the last of the series.:(

Hopefully I'll have a review closer to the publishing date.

Jessica (Angie & Jessica's Dreamy Reads) says

I'm kind of obsessed with this series and this finale was a sweet little reminder that I haven't actually read every book. I can't wait to go back to the beginning and read about all the couples I've missed because this finale isn't just a delicious romance about a hockey player and the girl he dates on a bet, but it's a beautifully unforgettable farewell to every couple that has found an HEA in this series!

I couldn't stop reading this book. Everything about Cam and Olivia was addictive and romantic and steamy. I seriously could not get enough of them.

Cam is a guy who doesn't take chances. He won't roll the dice on anything he isn't sure he can win. And because of that, he never loses. Olivia, on the other hand, can't catch a break. She knows she can't win in a number of aspects of her life so even though she's reluctant to even try, she continues wearing her heart on her sleeve, even if things don't typically pan out. Of course, this creates an addictive, complicated dynamic between two characters who agree to date with conditions.

Kelly Jamieson is my go-to for yummy, sexy sports romances packed with steam and a good dose of angst. This book was especially delicious because Cam is freaking AMAZING. I was so annoyed with him and his womanizing antics in Big Stick but ooooh man did I just adore him in Game On. The affectionate, thoughtful side beneath that noncommittal exterior was just EVERYTHING and I really enjoyed watching him discover all the things he never thought he'd want.

I'm sad to see this series end but I'm delighted to go back and discover all the Aces romances I skipped. Game On was sweet and sexy, romantic and fun and it was absolutely the perfect farewell to this unforgettable series.

Tpagirl says

Game On was the eighth and final book in the Aces Hockey series by Kelly Jamieson. I've loved the series with all previous books getting four or five stars.

Cam "Brick" Brickley was a professional NHL player for the Chicago Aces Hockey team. He was averse to relationships and didn't believe in love. His teammates bet him that he couldn't date the same person for two months without falling in love. To him it was an easy bet as long as he could actually stomach dating someone for two months.

Olivia Lockwood was the Director of a non-profit that assisted children with staying active. She had horrible experiences with men where all of her choices to date only wanted her money or the opportunity that she could give them. She was ridiculously affluent and her family still ran the wildly successful Lockwood Industries. She wasn't looking for a relationship but she was willing to agree to a few dates with Cam Brickley while she was trying to get him to be the face of her non-profit.

Game On was fun with humorous moments, especially as they got to know each other and had unusual circumstances for their first few dates. Although a common theme (and not my favorite theme), Jamieson

added her own twists throughout to make it different from the norm. Additionally, Jamieson provided additional depth and dimension through authentic hockey strategies and history as well as a detailed historical and architectural tour of Chicago.

Overall, as expected Jamieson wrote and developed the plot and characters well and she remained as one of my favorite authors. It wasn't my favorite book in the series and I didn't connect as well to Olivia; however, Jamieson provided a great ending to the series and wrapped it up well. I can't wait to see where she'll take us next.

Mindy Lou's Book Review says

This is the final book in the series and what a great ending it had. I was happy to see this team really sore in Game On. I've gotten to know each one and have loved getting their individual stories.

Game On is Cam and Olivia's story. While all of the previous main characters are in each book, the author did a great job of making them each a standalone book.

Cam was a tough character for me. I liked him but he had his moments where I didn't. This is where the author showed some great character growth. He's the player that has never failed at anything and we got to see a glimpse into his life and how there is more to his story and why he is the way that he is.

I really liked Olivia. She did have some insecurities but they seemed justified and I never felt like they truly got in the way of her and Cam. She really put herself out there for him once she realized she was falling in love with him. I loved to see that especially after all that has happened with her.

For the last book, I loved that the author filled it with some great history of Chicago, IL. I actually live near there and I learned some fascinating things I feel like I should have already known. My next trip to Chicago will be with new eyes.

I'm sad to see this series is over but was reassured that the author is not done with bringing us more hockey romances in the future.
