Erica says

I am surprised by all of the high reviews for this book. It was entertaining when I read it out loud to my son, but the many grammatical errors made it difficult to read at many points. If this was edited at all I would have scored it at least a point or possibly two higher.

Benji Tittle says

Amazing

I nearly exploded in fury when I read the report where someone called your books horrible and pointless. That's called book spoiling, people!! These books are works of art, not ways to make fun of people's skills. How do you think that would make you feel?

This is a really beautiful book, and if you are thinking about getting it please do. This is a really talented author who understands that just because you are different does not mean that you are not special. That is a moral that I am really picking up in this series about Herobrine in the human world. If you read this book maybe you will also see a moral, even if it a different than the one I picked up. Please also leave a nice review at the end. This is really one of the best books I have ever had the pleasure of reading. And it IS funny.

Tisha says

The actual storyline is somewhat interesting, but the editing is horrible.

Rebecca Kerry says

Yay

I recommend this book to everyone
Best book ever in the history of the entire world
Woooooooooooo hoooooooooooo
Woooooooooooo hoooooooooooo

Ashley Johnson says

OMG

So so so
epic!!!!!!!!!!!!!!please please make more books they are epic.pretty pretty please make more books.
Asum books. please please make more books.

All stars!

My son liked this book. There were twists and turns. In the end he didn't care about presents more than happy faces! I think this person should write more books! They are amazing!
