High Stakes Seduction - Book 4 Ami LeCoeur

In Book 4, Angela is angry and upset at having to travel home by herself after a two week luxury cruise with her boss, the highly influential and utterly gorgeous Antonio Mancini. But once onboard the plane, she meets Ryan Burton, cute, funny, AND the Assistant DA.

While Angela is not looking forward to running into her boss during the day-to-day business at the store, she's not ready to walk away, either. She's fulfilled her end of the bargain. Will Antonio be a man of his word and fulfill his end?

As she waits for him to honor his promise, Angela discovers yet another connection tying Antonio to the politicians and intrigue onboard the cruise ship. Tired of trying to figure it out on her own she wonders if it might be time to contact her new friend Ryan for a little help.

This is the 4th book in the series and should be read in order.

Angela is angry, hurt and upset with Antonio as he has left her on own to get home. She meets Ryan on the plane, who helps take the sting out of the rejection Antonio has her with. Now she is left to decide whether or not to continue working for the man who holds her heart, while watching another woman at his side or give it all up and possibly lose everything she worked for.

I was gifted this book in exchange for an honest review.

Angela continues surprise me throughout the book with how she handles the situation with Antonio. The level of maturity she shows when dealing with Naomi and her antics are impressive. The fact that Angela has been hurt by Antonio actions, but is still keeps going to her job every day just shows how strong of a person she is. Maria helps motivate Angela to keep going into work every day until she finally confides in her sister about how much she truly cares for him. One good thing did happen to her on her flight home and that was meeting Ryan Burton, an Assistant District Attorney from her area. He is good for her self-esteem and with the connections he has, she might be able to figure out what Antonio is up to with some insider information.

Antonio's actions definitely speak louder than words but trying to figure out what he is really up to is another issue. To outsiders Antonio seems like he is happy with Naomi but as soon as Angela is in the room things shift. The fact that Angela doesn't see this just shows how great of an actor Antonio is. I know there has to be more to this thing with him being at Naomi side regularly but no real clue has been given.

Antonio keeps up his charade with Naomi, although Naomi believes that he wants her. Angela is left more confused than anything. I'm impress that she keeps going to work every day even though it hurts to see Antonio and Naomi together. Naomi is definitely showing off when Angela is around, as she makes sure she get has Antonio full attention at all times then. The problem with that is the attraction between Antonio and Angela is undeniable and Naomi is fighting a losing battle. What Antonio has up his sleeves has yet to be revealed but the visit to Angela's house has help him out in a way we don't understand yet.

Ami has done an amazing job keeping her readers guessing as to what Antonio has in the works and just what is at stakes for him. Also whether or not he and Angela will end up together in the end. Bringing in Ryan Burton from the District Attorney's office who shows interest in Angela leaves me wondering what is in store for her and how this will affect things that Antonio's plan. This volume of High Stakes Seduction has definitely left me with more questions than answers and I can't wait to see how it all plays out in the next book!

ARC for Review

Angela is still upset with having to make the journey home by herself and that Antonio left with Naomi. On her plane journey back home she meets Ryan Burton the assistant District Attorney. She finds him attractive and flirts with him on the plane while having a few drinks.

While not wanting to deal with him day to day as she returns back to work, she gets some space as their paths barely cross. She wonders if he'll keep his promise to help her sister the expensive risky surgery as she has no contact since their trip.

She finds out another political connection that involves the present District Attorney as she seeks out information from her friendship with Ryan. Angela tries not to be too obvious as she plies Ryan for information which only makes him suspicious. What connection does Tony with the DA and is it legal?

Antonio knows he should not have slept with Angela but that purple lingerie she wore was his ultimate downfall. He knows that getting involved will put her in danger. Can he protect her from himself and the danger that lurks with the people he deals with?

Will these two find themselves together in the end?

The plot thickens.. The tangled webs of deceit are enticing .. I couldn't put it down .. to say I'm intrigued to find out how this will all play out is an understatement! I absolutely loved when Angela was thinking about Naomi and all she could think was "Strangle the b#tch" ... I'm sure most if not all the readers would agree with that! ... Ami LeCoeur, you've done it again!

In this we finally have Antonio point of view, and it leave me wanting more. This book it's mostly about Angela trying to figure out and understand why Antonio got so distant from her again and what the heck Naomi is back into his life like an annoying pebble in the shoes. Also we can see "the light at the end of the tunnel" we had some indication then we will have all our answers about our mysterious Antonio very soon. Hope book 5 get here ASAP!

Received this as an ARC COPY.

Oh Angela...you must be so devastated.

why does Naomi keep lurking around like a snake!!! So smarmy yuk.

Antonio what secrets are you still hiding and why have them.

Maria..such a strong woman in all of this and pleased she knows Thompson and Emily.

Good to read Angela Antonio and Maria's point of view. makes it more interesting and more involved in the story.

This is like a ticking time bomb waiting to go off. Hopefully Ryan is someone that can help Angela.

Can't wait to read book 5 :-)

The most disappointing part of this book was when I read the words "End Book 4."

Just like all of the other parts, this part was just a snippet of the whole story. A very interesting snippet though. While not nearly as sexy or steamy as the last part, the trying to understand what is going on made this piece one of the most engrossing.

Picking up right where we left off, Angela is on her way home from her whirlwind cruise. On the plane she meets Ryan Burton who happens to work at the District Attorney's Office. A place that is currently surrounded in mystery. Once home she is trying to put her trip into some sort of perspective. Trying to work through what her arrangement was really supposed to be and also try to work through the shocking way her trip with Antonio ended.

Back at home, trying to go through the motions, trying to sort her feelings, trying to have some understanding as to what is going on, Angela finds none of the answers she is looking for. But seeks some guidance from her new DA friend and advice from her sister.

What was also new to this book was Antonio's perspective, while not nearly as revealing as I would have hoped for. We know something big is happening and we can all speculate what that something is going to be. What I found not surprising about getting little snippets inside the workings of Mr. Mancini's head is that it is just as revealing as not being in his head. It is hard to decide if I like him or not but I am officially dying to know what is going to happen.

Well done agian, Ms. LeCoeur.

I read the three books before this one and I love this series so much! The reason I gave this book four stars, unlike the other books which I gave five, is not because I didn't like the story as much as the others.

I think I gave this book four stars instead of five because I didn't like Antonio much this book and I didn't really feel like I got any answers in this book, only more questions. The story still flows well and the plot is as interesting as ever, but I just wish I didn't hate Antonio right now and knew what was going on! But I must admit, besides that I think this is the best book out of all of them, character development-wise. I felt as if the characters grew so much in this book and I got to see them become the person they were always meant to be. Especially the main characters sister, Maria.

Angela is heart-broken when she returns home from her vacation with her boss, and ex-lover, Antonio. Not only is Antonio ignoring her like nothing happened between them on the cruise, but he's also hanging around that woman Naomi. The same Naomi that Antonio said he had no interest in. So what's changed? Is the Antonio that Angela saw on the cruise real, or did he pretend to be someone he wasn't so he could have her?

Angela has more questions than answers and it looks like she's never going to end up with Antonio, no matter how much she wants to be otherwise.

Antonio on the other hand is struggling to stay away from the beautiful Angela...but he must if he wants to keep her out of the mess he is in. He can think about being with her, only after his mission is done. What is Antonio up to, and is he really the man we thought he was? Or is the Antonio we think we know just a lie?

Although I enjoyed this book tremulously, I can't help but be frustrated that we are left with more questions than answers in this book! I really want to know what Antonio is hiding from Angela and whether they will end up together. Definitely an amazing series and I'm ecstatic to see what happens next! Also, I found it very neat that this book had the Pov from Antonio as well. He's as mysterious as ever, and I didn't really learn anything about him reading from his eyes, but I feel as if I understand his actions a little better.

All-in-all, an amazing book in this series! I'm just as excited, if not more, to get the last book in this series and find out what happens next!

I highly recommend this book to everyone!

My favorite quotes:

"Broken hearts hurt...They need time to heal."

"I didn't want her to shrivel up, I wanted her to fly. I was glad she'd decided to come out of her chrysalis. It was about time."

This series keeps getting more and more intriguing. Am I has a great sense of intrigue in telling this story. Can't wait for the final installment. Incredible reading. Great job.

Ami LeCoeur thank you so much for taking me on such a fantastic journey with this series! It isn't over but I am so hooked!!

Book 4 picks up right where the last one left off Angela and Antonio have just disembarked from the cruise and were about to head to the airport and he gets a text message and tells her he cannot travel back with her due to business. Well as you can see that doesn't sit well with her I am not going to tell you what that business is because that is a pretty big spoiler in my opinion let me just say our lovely author throws some HUGE curve balls at us in this book and I loved everyone of them. This book was like an emotional roller coaster ride you had severe high's and lows it was all over the place you were angry as hell, happy, sad, mischievous you name it and you felt it. Angela is going through some major turmoil in this book she is having some doubts with everything going on between her and Antonio plus his business dealings with shady people keep getting in the way.

Every book usually has that love to hate character and Naomi is definitely that character in this series she is that nasty domineering person that you just want to slap that smug look off of her face every time you walk past her even when you know she isn't even a real person. Angela and Antonio have this chemistry that is so fiery and just absolutely magnetic and gorgeous to read about.

If you have not downloaded this book or added it to your TBR list do it today you do not want to miss it!

OMG-Ami does it again! She sets me up and leaves me hanging. I am on pins and needles waiting for the final book to see if Angela finds a HEA and with who that might be with. I am kinda feeling like I want Antonio to suffer greatly and have Ryan be a knight in shining armor and make all of Angela's past hurts go away. In the end I just want Angela to finally find happiness and I am left feeling like that will never be Antonio. It is too early to tell if Angela has any true feelings for Ryan or if she is just using him for information. I am hoping that something comes of them and that is why the final book is said to be longer than all the previous.

He is in to something deep and to continue to spend time with someone he swore he had no interest in with no explanation and to pretty much act like the time they spend together on the cruise never happened is unforgivable even if he has good intentions.

This book left me with more questions and few if any answers. We still have no clue what and why Antonio is hanging with less than stellar men. We are no closer to if he just used Angela or if he truly has some sort of feelings for her.

I really liked the further look that we got into Maria and I am thrilled she is creating even more. I am hoping that Ami does another series that focus on Maria, Thompson. I want them to be together as much as I wanted Angela and Antonio.

All in all another great book from a great new author.

BooksandBeyondFiftyShades says

Angela is heartbroken after she witnessed Antonio getting into the limo with another woman once they got off the cruise ship. She tries to keep what has happened from her sister while attempting to avoid Antonio at work. Unfortunately, she doesn't get to avoid him for long as he fulfills his part of the bargain for the trip they both went on. Angela continues to overhear things that make her wonder what is Antonio really doing. Is Antonio into illegal things? Are Angela and Maria ever going to be safe again? What is really going on with the DA's office and the men Antonio is doing business with?

I felt so bad for Angela; I could feel her heart breaking as she saw Antonio get into that limo with that woman. I know she is trying to be strong for her sister, but she is doing a disservice to her sister. She should trust that her sister can handle being told what is going on. I loved seeing her sister's relationship with the bodyguard/driver develop. We have not gotten to see much, but you can tell the driver likes Maria very much.

I have to say a huge Thank you to the author for giving us a glimpse into Antonio's mind. I had a feeling more is going on with him in the beginning, whether he was truly a bad guy or pretending to be I was willing to wait to find out. I am so grateful to see that things are a lot more complicated for him than what Angela is seeing. Although I wonder if the games he is playing will come back to haunt him and ruin his chance at having a relationship with Angela.

So far, I have loved every moment of these books and I cannot wait until I get the last book in this series. I do hope the author gives Maria a story of her own even if it is a short story/novella. Be nice to see if she gets a chance at a happily-ever after as well.

I received this book for an honest review.

I really felt so bad for Angela and the way Antonio just left her after the cruise. You know something is

going on and you get the felling that Antonio doesn't want her involved. This story just draws you in and makes you crazy to see how it will end. I NEED book 5 now lol.

Angie Picardi-Hagerdorn says

Poor Angela. She has been on1 hell of a roller coaster since meeting Antonio. Thinking she has finally broken through to Antonio on their last week of the cruise & they can now freely explore where their relationship is going, she gets hit with a whammy of a dose of reality, showing her once again, that she knows little to nothing about the man she has fallen for. Has Antonio been lying to her the entire time? Is he as dangerous as he comes across? Is he hiding something that will hurt Angela? Then there's Angela's sister Maria. She has come so far in a few books. Now drawing & painting again, on her way to finding happiness, will Angela's possible discovery pull her back into the sadness & loneliness she was in after the accident? Or will Thompson become more than just a friend & help Maria stay focused on the positive? I wanted to punch Naomi in every single one of her scenes. Ugh, for such a small character in a story, I didn't know it was possible to dislike someone so much. I look so forward to the next book & getting some answers about Mr. Mancini!!!
