I love this series. Smart, funny, & if I taught junior high science it would be required reading.

I love that Moon Girl got to speak her mind and get her mother to finally have enough faith in her that she can get the job done. That Moon Girl can do her! And everything will be good.

But oh the ending!! How sad!! At least I'm binging these and can find out what happens in just a few more minutes.

Totally thinking about buying this collection for a friend for xmas.

Hands down, favorite character, favorite current run, and thank god this concludes part 1.  
There is going to be more.

Well, I'm going to avoid the spoils, but we all kind of saw it coming.  
This about to get real interesting...

What a fantastic conclusion to an all around brilliant collection of issues. This was full of sass, intelligence and humour and I've loved every minute of it. I can't believe what happened at the end but it sets a wonderful premis for volume 2, which I will definitely try to read as a whole bind-up, rather than single issues. This has been a unique and amazing story with our very inspiring and young protagonist and her funny and clueless sidekick! Bring on volume 2! I look forward to my reading of it.

Pick it up, give it a go and enjoy! >(^\_^<

[I have to admit that I'm relived Lunella didn't succeed in trying to stop her Inhuman transformation. She would have been denying an integral part of who she is and that is such a horrible message to convey to little girls and especially black girls! I look forward to Lunella exploring and discovering the Inhuman part of herself in the next arc! I look forward to her parents helping and encou

What I imagined her mother replied with: "Ok, sure, honey! You're only nine but I'm a bad parent so I'll listen to you instead of making sure you're at home safe. Maybe your dad and I will make a date night out of it so we can *both* be absent parents!"

This should be required reading for kids, actually. For all the kids who felt they were different and for the

parents that didn't realize their kid just wants to be themselves. Sure, it's a fantastical story, but it's amazing and comes into its own.

Such a cliffhanger! OMG Why? What is going to happen to Moon Girl? MY LIBRARY DOESN'T HAVE THE REST OF THIS. I'm dyin'.
