I've read this before during secondary school and have just re-read this. This takes place during finals week with the class needing to get their grades up. Everything is too perverted considering these are young students and the teacher is ten.

### **Jody Mena says**

Very cute, funny and light-hearted. I think the book would have been half its length if the mangaka had cut out the gratuitous panty-flashing and flimsy pretenses for stripping naked. There is way more of it in the manga than in the anime so far, and that's saying something! If Negi weren't a 10 year old, I think that much implied nudity would have made it border on trashy. But because the main character is a kid, it, it gives it a slightly more innocent feel, so that it stays on the right side of the fence, even if only just barely! All part of the fun! It's a really cute story, and I bet its going to get a lot more interesting in the next volume, now that the 'partners' have been introduced! Looking forward to it!

Not my cup of tea but I like to read different types of books to broaden my horizons. This was a lil too obnoxious for me - but I can see why teen boys might like it. The book was kinda hard to follow at first as a bunch of short, seemingly unrelated stories are combined but they do actually progress the story along. I won't be moving on to book 3.

i watch the anime version :

On the plus side, I no longer have to feel guilty about trashing all 38 volumes of this utter shit-show...

I was happy to see that Volume 2 picks up in action and tones down the fan service a lot from Volume 1, which means I'll definitely read more of this series now.

Unsurprisingly, the story is pretty ridiculous in spots, especially when the Baka Rangers (the 5 students with the lowest grades in the class) go into the library and it winds up being what you'd expect from a ruin in Indiana Jones, not a library. It was fun, and it was nice to see the characters getting fleshed out rather than all coming off as horny teenage girls!

I'm really torn on this one. I greatly enjoyed the actual plots of the stories in this volume. But this volume also reveals the age of the students and that means the overabundant fan service portion is just disturbed and creepy.

I'll keep reading in hope that the author cuts down on the fan service, but don't think I can take too much more of it.

*Negima! Magister Negi Magi* is probably my favorite manga series so far. The English translation is the best of all the books that I have read. The text flows quite nicely and the story is easy to follow. The artwork, once again, is wonderful and the first story about Library Island was quite a surprise. I loved it.

In the last couple of chapters, some of the girls are falling for Negi. It is all quite funny.

What I like about this manga series is that all of the characters are so unique and diverse. There are so many girls to feed off of that the storyline possibilities are endless. And if Peter David stays on adapting the story from the original Japanese, the books all promise to be extraordinary.

Overall, I absolutely loved the second volume of *Negima! Magister Negi Magi*. I look forward to seeing what fun and exciting things are happening at Mahora School District Middle School in *Negima! Magister Negi Magi* - Volume 3.

I rated this book a 9 out of 10.

## Grace Kelley says

Negi's first year at Mahora draws to a close, as such he is issued one final test in order to be one step closer to becoming a Master Mage: Help class 2-A to not be the class with the lowest score.

Failure to do so will result in him not passing his exams and being sent home.

As such, the Baka Rangers, (Asuna, Yue, Makie, Ku Fei, and Kaede) want a book that supposedly increases intelligence so that they can pass.

They heard that the people with the lowest scores have to repeat the grade, and since they do not want to be split up from the others, decide to hunt for the book.

Only problem, its in Library Island, a place renewed on campus for being the biggest library there. Although, its not exactly easy to find, however, the group preserves and makes it down.

Before they can get too far, they find that the library is booby trapped and has certain magical elements to it. Asuna, hoping to have Negi protect them, inquires about his powers before finding out that he had bound his powers earlier that day, partially due to a speech she gave him.

Eventually they have to find the book and get out of the library, all the while being chased by a mysterious and magical stone guardian.

I liked this volume.

Especially a certain segment of it.

Theres this one part in the story, where when it seems like the group won't be able to get the book after all, Negi suggests that they just buckle down and study, and the library magically provides things for them. Like a bath, food, and textbooks, while they practice what will be on the exam.

I like that because its actually showing that the characters can be written realistically, despite the premise of the series. Who wouldn't just study after they failed to get a magic book? I would, I wouldn't really like it that much, but if Negi is my teacher, then it wouldn't be that bad. He's that adorable.

The bathhouse scenes were a bit too much. I think the only time I want to see anime girl anatomy is if I want to get better at drawing peoples bodies, and even then, I really have no use for more than half of them. Its too fan service-y and I skimmed past those scenes, I'm prudish. I won't lie.

For the most part, this manga was interesting and fun. I liked the route that they went with it.

I think this is an episode in the original manga, if so, then I really want to see it.

I loved Library Island. And seeing Negi and the few girls work their way through the Library. I loved the

Baka Rangers. Baka Pink, Red, Blue...etc. The tests they were given to get back to the Academy. I also enjoyed how they went through so much, and in the end basically showed themselves they had what it takes to get through exams. Loved this volume!
