#### Billionaire Ever After

I was given the opportunity to read some of the books in this new series and this is my voluntary and honest review of the 5 stories that I have read. I enjoyed the stories and found them very entertaining and as some authors were new to me I hope to take a look at their other works. Each story has its own HEA and some great sexy Billionaire to fall for.

#### Beachcomber Billionaire by Stephanie Queen

Megan is an ex-Marine who has taken a last minute personal protection job to protect billionaire CEO Jack Collins. He was not what she was expecting he was young fit and attractive not old and bald. If Jack knew that she would be his personal protector he might have agreed to have a bodyguard much earlier than he did. Will their personal attraction get in the way of doing the job at hand to protect Jack from whoever was after him and his company? This was a lovely story with a bit of romance, action, suspense and humor. I have never read anything by the author Stephanie Queen but after this I will have to go check out her other works. I would love to read more about these two interesting characters in the future please.

#### A Bridesmaid for the Billionaire by Courtney Hunt

If you have read the Happily Ever Alpha: Falling for the Billionaire series of books in which "A Teacher for the Billionaire" was included you will already be familiar with some of the characters of this next book in Courtney Hunt's Billionaire series. This book is a second chance of Love 5 years after Finn left town to explore the world, he is reunited with his one lost love Jenny at the elopement of their best friend Callie to her Billionaire on a Caribbean island. Best Friends at Collage the 3 were very close until Jenny was left with a broken heart, when Finn left the day after their one night together 5 years ago. Can they be friends again even just for the friend's wedding? What has Finn been doing for the last 5 years? Jenny has been living her dream to be a search librarian but she is not happy what is missing.... A Billionaire of her own like Callie has found. Courtney Hunt always gives me a great feeling after reading one of her sweet stories.

#### The Broke Billionaire by Ann Omasta

Trey Donovan is a billionaire but he feels like a broke man when it comes to Love, intimacy and desire. Ellie Thorne is the owner of Snickerdoodle Bakery which was her dream to open since she was 8 years old all that was missing in her life was her Prince Charming. On her way to work one morning after her staff member called in sick at 3.30 am, Ellie was reaching for her ringing phone when she heard a thud and stopped her

car. Thinking she had hit an animal she was shocked to learn it was a man a handsome man. Ellie thought she had met the perfect man but then learns who he is and know he would not be interested in her. Can the Billionaire win the heart of the local baker?

This was a very flirty funny story where an accident can save your life.

#### Breakaway Description by Christine Kingsley

Colin Caldwell is a bit of a playboy how has returned to Breakers Bay to escape, relax and to have a great time. He has been coming to Breakers Bay each summer for the last 7 years and has had his pick of summer flings except on the one he wants Hadley Hendricks. Hadley has kept Colin in the friend's zone all this time as she doesn't want to be left with a broken heart when the summer is over like all the others. Can love change it all? I loved these two characters and their friends I have not read anything by this author before so I hope I can read more about the people in this great book.

#### At his Command by Allison Gatta

Charlotte (Lottie) Strong was everything that he didn't like in a woman but this didn't stop Jake Prescott from wanting to claim a bit of revenge on her at the Bachelorette Charity auction. Jake did not realize she was not the woman he believed her to be coming from wealth and a powerful family. The things Lottie will do for her cause or is it just the power her mother as over her? I love reading about strong will females characters.

Will it be Hate to Love for these two?

#### Nadine says

Courtney Hunt and Ann Omasta: 5 stars! Allison Gatta: like. Stephanie Queen: didn't like.

I've only read A Bridesmaid for the Billionaire by Courtney Hunt (loved it!), Beachcomber Billionaire by Stephanie Queen (didn't like), The Broke Billionaire by Ann Omasta (loved it!), Breakaway by Christine Kingsley (DNF) and At His Command by Allison Gatta (liked).

My review per book that I've read:

- Courtney Hunt A Bridesmaid for the Billionaire - amazing, loved it!

Always having to make her budget balance, Jenny decides she wants a billionaire. And then Finn walks back into her life. Five years ago, he broke her heart so casually...

You're immediately drawn into the story. I loved it! A very quick read, but even though it's short, it does have depth and that's no small feat! And even though the bedroom door stays closed, it is sizzling hot! And also super romantic! This is a very skilled author. Because I liked it so much, I would have liked it to be a bit longer though; it was very short and fast. A more leisurely pace would've been nice :) But definitely a favorite!

- Stephanie Queen Beachcomber Billionaire - didn't like it much

This story lacks depth. When Megan and Jack meet, the instant attraction on both sides is too full-on for me. I really don't mind physical attraction in a book, but it can't be ONLY about that. You need to see another side of the main characters too, but in this story I don't feel as if I got to know them at all aside from how

they looked and how they were turned on. And when there is nothing to balance that out it becomes too one-sided, too shallow.

I hoped it would get better, but I had to give up when I was about halfway through the book. Sadly, this is not an author I'm going to be reading more of.

- Ann Omasta The Broke Billionaire - amazing, loved it!

Owning your own business, however tiny, is a LOT of work. Ellie needs a day off badly, but when the help calls in sick, she has no choice but to go to her bakery. In the very early morning, she is not paying enough attention to the road. She hits a man with her car... That man is Trey. He is a billionaire (which Ellie doesn't know to begin with), but he feels broke as regards love and intimacy.

A delicious story! Lots of physical attraction and steamy kisses, all in good taste. I had never read anything by this author before, but now she's on my radar :)

- Christine Kingsley Breakaway - DNF

I started reading, but I didn't like Hadley. Then the POV switched to Colin and I didn't like him either. I didn't like the writing style and I didn't like the setting. I just couldn't get into it... it didn't grab me. But to be honest: I didn't give it a real chance; I stopped somewhere in the middle of chapter two... So I read too little of it to judge fairly. I'm not going to count this in my average score of this box set.

- Allison Gatta At His Command - I liked it

Lottie is all about preserving historical buildings. Jake is about tearing them down. When Jake sees Lottie's name at the bachelorette auction, he knows he's gonna bid. I slightly disliked Jake, but I think I was supposed to. He's smug, evil almost. Lottie hates him with a vengeance. In her eyes he's ruining the town she loves. But maybe, just maybe, there is more to him than meets the eye and she's judging him too harshly?

This was very steamy! But aside from that, it was also original and intriguing. I liked it, it was fun. One thing that's left hanging: did the bell tower get saved or was it torn down?

-- I received a complimentary copy of 5 of the stories in this book and voluntarily posted an honest review.

I reviewed two books from this collection: HOW TO ROCK A BILLIONAIRE by Talia Hunter and LOVE STUCK by Michele De Winton

I give 5 stars because on the strength of Talia Hunter's fabulous book.

HOW TO ROCK A BILLIONAIRE by Talia Hunter

Meghan Paige is down to busking and sleeping in her car, after a string of bad luck. Meghan is a musician, she still hopes to make it, and what she needs is to get a gig, get a recording deal, and not to get sidetracked

by men. Unfortunately, her luck doesn't seem to improve as she crashes into a very expensive car. And it's none other than Jackson Brent, whose brother Meghan had dated in high school, and Meghan is the reason why Jackson quit the music business. Jackson is now a very wealthy tech entrepreneur, as Meghan was slightly hurt in the crash, Jackson will set her up in a spare room in his home, even though they hadn't seen each other in twelve years. Jackson is working on a prototype and he is paranoid, not without reason, that someone is out to steal it, most likely his fiercest competitor: Lex Baine. Jackson has a party the following day, he wasn't sure if he wanted an escort, but he knows Meghan will be able to entertain a client's wife. How could she not?

Ms. Hunter describes Meghan so well, I couldn't help but see Joan Jett in her prime, but with dreads! Meghan is a lovely character: I loved her integrity, her love of music, and her determination to succeed at doing what she really loves and never compromising. Talia Hunter really understands the soul of a musician: Meghan thinks in songs, music is everywhere and means everything to her. I also very much appreciated that Jackson is not your typical billionaire: he actually works! He might be super rich, but he remains humble and appreciates what he has. It was nice for a change to have a billionaire who felt like a real person. He is not a player, he is not a cad; Jackson is simply a man who made it big doing what he is good at.

There had been some attraction in the past between Meghan and Jackson, it's still there, and thankfully, nothing was rushed. The romance bloomed nicely and organically; it was all so very nice and normal! Jackson does have trust issues, which Meghan understands, and again how wonderful to see believable conflicts handled so adroitly. *HOW TO ROCK A BILLIONAIRE* is a rather simple story, but extremely well done, and Ms. Hunter never falls prey to the genre's pitfalls. And I couldn't be happier that the story took place in Australia, as I could enjoy vicariously Sidney's wonderful sights. *HOW TO ROCK A BILLIONAIRE* is an intelligent story with very engaging characters, very well written, and so enjoyable; it's lovely!

I voluntarily reviewed an advanced reader copy of this book.

### LOVE STUCK by Michele De Winton

Sarah "Sass" Hunt recently got fired, and now she's starting out on her own as a stylist consultant. One month, and she's about to have her first client. The husband of her best friend Cara recommended Sarah to his friend Kirk Anderson. Kirk is brilliant, owns a successful business, and he is dull. Kirk is launching a new software package, and for the press conference, he needs to dress for success, but also to impress as a person, and not just as a human calculator. Sarah has been evaluating Kirk on paper, and upon meeting her client, she is almost struck by a metaphorical bolt of lightning, and so is he. Sarah is so not what Kirk expected, with her modified Mohawk, but he thinks she has a certain something, until she pulls out clothing choices! Alas, they definitely don't see eye to eye when it comes to sartorial decisions!

Talk about opposites attract! I admit, had I been in Kirk's place, I would have been wary of Sarah too. I mean, a velvet jacket? Really? Michele De Winton's trademark colourful prose shines and dazzles in *LOVE STUCK*, and I never expect anything less from this brilliant author. However I had serious problems with Kirk; he seemed fine at the beginning, if staid and stuffy, but he had a definitely rude and disrespectful moment that stuck in my mind, and personally, I would not have given him the time of day ever again. I would have made peace with him in the end and shut the door on the whole thing. Sometimes there are "issues" that I can overlook in a book, sometimes I can't ignore them, and that was one of them. Also, the "electricity" between Sarah and Kirk was out of control here, and how the sexual relationship began required

quite a bit of suspension of disbelief on my part. It had been looking up before that moment, but I felt it was too much too soon, and it ended in the misstep that I found rather unpalatable. Overall, it was a fun read, fast-paced and superbly written, with great dialogues, but the romance never worked for me, although fans of Alexa Riley might like it; it's rather over the top. Or I might have been having a "Kirk Anderson" day (without the rudeness!).

Like a billionaire smorgasborg with a few precious gems.

If you love romance as much as I do, this box set is a wonderful way to indulge with little financial pain, and a chance to try out many different authors.

I received an ARC of a few of the books in this collection, and this is my honest and voluntary review of Courtney Hunt's story: *A Bridesmaid for the Billionaire*.

This story is one of the gems in this collection. It's about a destination wedding and a couple who get a second chance at loving each other.

Finn and Jenny have a lot of anger to work through, and a lot of misunderstanding. People can be miserable, even in the most beautiful places on Earth. Can they mend their hearts and move forward together?

Finn and Jenny's story was very short (7 chapters) and sweet. If I had any wish it would be just a little longer... maybe a little more to the ending? But otherwise Courtney worked her magic again, and Finn and Jenny found a place in my heart.

4 ½ stars.

### **Angela says**

I received a partial ARC of this collection from Courtney Hunt in return for an honest review. I found the stories to be fast-paced and entertaining. Because they all are novellas, there's not a lot of room for history or character development, but they are a great length for reading on the train while commuting. *Beachcomber Billionaire* (4\*) has an incredibly powerful woman as the lead: Megan is a retired Marine Corps pilot, and Jack repeatedly underestimates her skills. It's lovely to see her put him straight, and while I thought they fell pretty fast, the stories are limited in length. *Bridesmaid for the Billionaire* (4\*) was a nice story of second chances and the dangers of miscommunication. The story is told very well by Courtney Hunt, mostly from Jenny's perspective. Which, in the end, emphasizes how quickly things go awry when people make assumptions and jump to conclusions. I like Ms. Hunt's work, and this was a nice entry for the anthology. I really liked *The Broke Billionaire* (3.5\*), though it was less well written (not enough character development, things moved pretty unrealistically fast), because of the premise: the heroine meets the hero when she runs him over. Now that is a strange place to experience love at first sight, but it's a little loopy and fun to watch Trey convince Ellie that he's for real. I will have to read more of Ann Omasta's work. In fact, I'm sure that this anthology will provide a few more authors to get acquainted with, and has something for everyone who

likes this genre.

### **Stasi says**

I have pre-ordered this bundle but got an ARC (advanced review copy) from one of the authors. This only had 5 of the stories.

Tempting Harry by Victoria Pinder; The Description did explain that this was a story that tied up loose ends from two series based at Christmas when miracles can happen. There were several typo's and missing words because phrases didn't make sense. Those aside, the timeline to me was very rushed and I know it's fiction so a week can make anything happen but in less than an hour they have negative opinions of each other then they sit down to a large family dinner, say nothing to each other, then get up and make out. I also felt the action, romance balance was off as the romance really all happened at the beginning and the action at the end. Over all I would not recommend this story.

Billionaire in the Bargain by A.E. Easterlin; The Description gave you a bit of the back story so when you jump into the story it doesn't seem like it's such a middle. There were a few typo's but not as noticeable. This is a much more a classic fairy tale style romance. There are some twists and turns as we move it to modern day but over all I really enjoyed this story and will read more by this author.

Acquired by K.L. Brady; The Description really turned me off to this story because I am not really interested in stories about revenge and overly ambitions/do anything to reach partner type stories. There is really too much of that, the back stabbing and under handedness, in real life and is not something I love to read about. However, I was won over by the blatant matchmaking and the character development. Now it's a bit far fetched in the Male May-Female December romance but it was cute and I ended up enjoying it. Not sure I will read more by this author but it was not what I expected.

Bad Boy Billionaire's Lady by Mary Hughes; The Description was short but gave a great hook making you want so much more. This story and the previous seemed similar except both main characters were really looking to redeemed and change how a bad business was run. This I felt was an excellent balance of action and romance though out and the characters admit things are going fast. It was easy to get lost in this story as you applauded the character growth and see the stumbles along the way. I would give this story 5 stars and recommend it to everyone!

The Billionaire's Catch by Debbie White; The Description again gave a bit more of the beginning of the story so you really jump in with both feet when you start chapter 1. I didn't feel like this was very well paced. This story seemed very slow because it seemed to be trying too hard to keep these two single parents apart so they set a good example. To me it seemed more like they offended each other each time the were alone together until they started making out or ended up together. There was one very short section that we tried to get to the hero's emotions but that really felt awkward to me. Over all it was not bad but I would not seek more work by this author.

### **Isha Coleman says**

Billionaire Ever After is a mixture of humor, heart and hope. Emotions that play a central part on the road to happily ever after. From charmingly sweet, combustible heat and emotionally raw this anthology delivers it all. Never has there been so many winners in one bundle.

Tempting Harry by Victoria Pinder - The sweetest of stories can often prove the most sexy. Harry and Roxanne have seen their share of loneliness and loss. Can a chance meeting bring them hope for the future?

A Billionaire in The Bargain by A.E. Easterlin - An act of betrayal forces a desparately, determined woman into a marriage of convenience and the love of a lifetime. Moira and Jackson's have to learn to listen to their hearts at a time when their heads keep getting in the way.

The Billionaire's Catch by Debbie White - Two little girls with a penchant for mischief and a skill for matchmaking steal the show in the heartwarming adorable tale of second chances.

### **Patricia Myers says**

I received an ARC of this collection. It only had 5 stories in it. Damaged Love: This story was interesting. Lord Richard Smith lost both his legs in Afghanistan. He broke up with hid finance Guiilanna by e-mail. He lied to his family and said she broke up with him. When they met again the lies all come out. It was great how his family helped them get back together again.

The One: This was my favorite story. I loved how Kooch's staff banded together to keep him from finding out his daughter was playing with Ginger. The interaction of the characters was awesome. The best part was when Adrienne confronted his ex-wife. A well written story.

Saved by Him: Sierra was injured in a car accident that killed her husband and both sets of parents. She is afraid of going outside the house.I loved her friend Thomas and how he helped her through it. James owns a P.I. company that Sierra goes to work for. Their chemistry hits it off right away.After a misunderstanding the group works together to get them together again. Great Story.

The Reluctant Billionaire:

This is a story about Jace who is re-covering from a bad case of pneumonia. His father makes him take a vaccatio to heal. He goes to his families island and falls for Nessa. He wants her to like him for himself and not his money. Thet have ups & downs in their relationship. It has a HEA.

Review for Damaged Love by Cristiane Serruya

I am a fan of Ms. Serruya and when she offered me a chance to read 4 books of this set for free, I jumped in! So, from charming to sweet, from hot alphas to...hot alphas :-) I read:

Damaged Love by Cristiane Serruya - She did it again!! OMG. Where does Ms. Serruya find these characters?! Lord Richard Smith, who I met before in Love Painted in Red and whom I knew was a double BK amputee is the star of Damaged Love. And he is as sexy and hot as Alistair Connor from The Complete TRUST Series, Tavish Uilleam from Love Painted in Red, and Markus Blackthorn from So Much More!! And Giuliana Foreman is a lovely counterpart for him. Giuliana is sweet and strong and loves him to distraction! What was Richard thinking when he ditched her with a lie?! But I understood his reasons very well and this is part of the charm of Ms. Serruya's stories; she knows how to show the characters' thoughts in a way we thoroughly understand why they did everything.

I was moved by this heartwarming story!

The One by Tierney O'Malley - Such a refreshing story!

Saved by Him by M.M. Chabot - good read

The Reluctant Billionaire by Caitlyn Lynch - really liked this novella

---

### **Becky Claxon says**

Cristiane Serruya Damaged Love

Richard Smith lost his legs in Afghanistan. He did not want his fiancée Giuliana Foreman staying with him out of loyalty so he did not tell her about his legs, but a lie to leave him. Two years later she is working as a pastry chef for Your Perfect Wedding and has to go to Lakeside Manor where Richard lives to cater a wedding. Giuliana has never stopped loving Richard and when she sees him, her heart beats faster. When Richard sees Giuliana his heart stops as she is so beautiful and he has never stopped loving her. The two have a hard few days to get through. This is a good story that melts your heart.

Tierney O'Malley. The One

Kooch Kilpatrick is raising his daughter alone and owned the Louisa Mae Foundation. Adrienne is hired to catalogue Mr. Kilpatrick's collection, and the whole staff love her. Adrienne had something bad happen to her, so she was glad to get away from her town. Kooch's daughter had a condition that she could not see well, so he kept her in the castle so no one would take pictures or say something bad about her. Her mother signed over her rights and divorced Kooch as she wanted nothing to do with a handicapped daughter. What a witch! Kooch's daughter was smart, beautiful and full of life. It was wonderful seeing his daughter and Adrienne together. This was a good book that made me feel good.

### **M.M. Chabot. Saved by Him**

Sierra found after she was married that her husband didn't want children even though they had talked about it. They had argued along with his and her parents. All of them are on their way to see the couple's new house when they get in a car wreck. Sierra is the only one to survive. James had a company with his brother and friends. They have come a long way and are rich now. When he first started dating Sarah, he had no money. Now she has changed and acts like she is the one with money and deserves it. One day James answered her phone and finds out she is seeing someone else. Their relationship is over. A couple of years later James' company is hiring a PI and Sierra's best friend sends in her application. She interviews and gets the job, and has to work with James. Everything gets really interesting when these two get together. This was a good Novella.

### **Caitlyn Lynch The Reluctant Billionaire**

Jace Hunter is on Sunfish Island Resort recovering from an illness. He meets Nessa who is a psychiatrist turned bartender. He doesn't want anyone to know he is the son of the family that owns the island. The only one who does know is Luke, the manager. He is resting and trying to get his strength back. He likes talking to Nessa and ends up asking her out. You can imagine what happens when she finally finds out who he is since he never told her. It is a good novella.

I voluntarily read an Advanced Reader's Copy of this analogy.

### **Kristine (A Cozy Booknook) says**

I make no secret of liking collections of stories such as this. The stories are enjoyable, and I always discover a new author or two, it's a win all around. The stories in this collection have one thing in common, billionaires. The stories themselves vary in spice level as well content, really, there is something for everyone. Since there are quite a few stories to this collection, I'll just mention my favorites.

**Billionaire by the Sea** by Traci Hall: This story quickly pulled me in and had me wanting to know what was going to happen next. There's a little bit of a mystery, romance, and likable characters. This is a new author for me, I can't wait to read more of her books.

**How to Rock a Billionaire** by Talia Hunter: This is a fun story with a little bit of mystery. I really like these characters and enjoyed getting to know them. I have not been disappointed by anything this author has written. I look forward to reading more from this author.

**Love Struck** by Michele DeWinton: A fun story, I enjoyed these characters and getting to know them. I look forward to reading more from this author in the future.

I received a review copy from one of the authors, my review has been voluntarily submitted.
