## Royal Wedding Meg Cabot

From the #1 *New York Times* bestselling author of the Princess Diaries series, comes the very first adult installment, which follows Princess Mia and her Prince Charming as they plan their fairy tale wedding—but a few poisoned apples could turn this happily-ever-after into a royal nightmare.

For Princess Mia, the past five years since college graduation have been a whirlwind of activity, what with living in New York City, running her new teen community center, being madly in love, and attending royal engagements. And speaking of engagements. Mia's gorgeous longtime boyfriend Michael managed to clear both their schedules just long enough for an exotic (and very private) Caribbean island interlude where he popped the question! Of course Mia didn't need to consult her diary to know that her answer was a royal *oui*.

But now Mia has a scandal of majestic proportions to contend with: Her grandmother's leaked "fake" wedding plans to the press that could cause even normally calm Michael to become a runaway groom. Worse, a scheming politico is trying to force Mia's father from the throne, all because of a royal secret that could leave Genovia without a monarch. Can Mia prove to everyone—especially herself—that she's not only ready to wed, but ready to rule as well?

6 stars. Currently grinning like a fool, oh my god. I CAN'T BELIEVE IT'S OVER. PLEASE TELL ME THERE WILL BE MORE

---

**Gabrielly says**

A lot of readers when asked what books first got them into reading will say Harry Potter or Twilight but for me it was The Princess Diaries when I was 12 years old. It was an experience that I remember till this day, 9 years later, it got me hooked and never let me go. I've read and reread these books so many times that I have lost count years ago.

So you can imagine my excitement when I heard that Meg was releasing a new one, I think I actually squealed and started going " Oh my God, oh my God, oh my God" non stop. hahaha

Okay, so this time around we see a 26 year old Mia and what really impressed me is how Meg managed to make her the same Mia we were used to, just a decade older, that quirky personality and hypochondriac to the core! hahahah And the gang! They're all there! Some have a future that I did not expect, like Boris o.O, did not see that coming. And oh my God the interactions involving Lily and a certain someone were hilarious (view spoiler)

And Michael, oh Michael you need a paragraph just for you. He was amazing as always and hilarious, he made me laugh so many times in this book, there were the medical tips for twitching eyelids, all that smoke and silly proudness of being a hooligan. For me, he was the star, I kept wanting for more and more scenes with him and trust me, there are plenty, just not enough, never enough.

Meg gave us fans something we always wished for but never dared to dream. So thank you, thank you so much.

-

Oh Meg, thank you, thank you so much for this amazing book that exceeds all expectations, something us fans all hoped for but never dared to dream.

Review to come.

I'm kind've in a state of shock right now, Edelweiss just approved me for an ARC, I think my arms actually flailed for a moment there.

May 3rd 2014

I CAN'T BELIEVE THIS IS HAPPENING! I HAVE NEVER BEEN MORE EXCITED FOR A BOOK IN MY ENTIRE LIFE! OH MY GOD OH MY GOD OH MY GOD

---

### **Duanur says**

*Before Reading:*

OMG!!!

I CAN NOT wait to read this!

Princess Diaries is one of my favourite series EVER and now I'll get to see Mia and Michael's wedding!

My babies are getting married!

-----

*After Reading:*

Me whenever Michael appears in the book:

Reading this, I felt like I was catching up with old friends. If you are a fan of The Princess Diaries series, you have to read this book. Not a lot happens but it made me so happy! Especially to see Michael and Mia together again. They are relationship goals.

---

### **April (Aprilius Maximus) says**

I CAN'T BELIEVE IT'S OVER. I WANT MORE! I NEEEEEEED MORE!

---

### **Akankshita Dash says**

Aah well. Another Princess Diaries book. I honestly expected Forever Princess to be the last one, as it gave a nice closure to each and every character. But I wasn't going to complain over another Princess Diaries, one

of my favourites growing up. It was supposed to be a pleasant, magical trip down memory lane..Which it wasn't.

So what went wrong? Well, almost **everything**.

See, when I pick up a book which has an adult protagonist, I expect the protag. to behave like an adult. After 8 years, you would expect neurotic, hypochondriac Mia to tone it down a bit, but she's every bit as crazy she was as a teenager. Her friends are even worse. Are we really expected to believe that Mia is in touch with ALL her high school friends, who, incidentally, haven't changed even slightly? (view spoiler) And what about her college experience? Two or three lines in the whole story about Sarah Lawrence, and a passing mention of two college mates who roomed with her.

The worst part about the novel was the introduction of Olivia Grace. ANOTHER kid who doesn't know she's a princess? And to keep it hidden from everyone for 12 years? That's super low, even for testicular cancer-stricken Philip. Honestly, if I found out that (view spoiler)

The only good thing in this entire book was Michael.

And what I disliked, mainly- Mia's immaturity, the absence of any real conflict, half-handed plot points, the antagonists (JP AGAIN, REALLY?)

This book was written with the sole intention of introducing a new character, Olivia Grace, to make way for a new YA series. In that, it has succeeded; but of its own standing, this story hath no heart. Maybe, instead of writing a new Princess Diaries book, Meg Cabot should have straight-away introduced Olivia Grace in a new book, with things from her POV. Would've been infinitely more interesting to read.

---

## Anne says

Alrighty, this one is for Cabot's fans of her young adult series **The Princess Diaries** .

*I* am one of those aforementioned fans. Love those books!

*Yes, **all 10** of them.*

They're just cute, sweet, funny, and...well, what else do you need?!

So, they start out with a 14 year old Mia learning that she's heir to the Genovian throne, and then follow her through the years as she grows from a gawky girl to a beautiful princess.

Anyway, fans (like me!) were thrilled to find out that Cabot was writing another book about Mia, and especially excited to find out that this one was for adults!

Wheeee!

But it's not really *adult-adult*, because this is probably the cleanest adult novel I've read in FOREVER. As in, no cursing and no sex.

Well, Mia & Michael have sex. But it's off-page, and alluded to like there are kids in the room...if you know what I mean? Which is *fine*, because it sort of keeps with the theme of the other books.

Anyway, the romance part is very sweetly done. They're a loving couple with a good sense of humor, and I thoroughly enjoyed reading about them.

As you probably guess from the title, this one centers around her wedding to Micheal, but that's not the only BIG news! Plenty of other ~~potentially disastrous~~ extremely interesting things happen, and Mia handles them all with her typical flair.

It's also still told in diary form! Mia once again picks up her pen to write, only this time, it's because her doctor thinks it may help her relieve stress that's causing her eye to twitch.

More than likely, twitchy eye is due to her grandmother...just sayin'.

*For those of you who have only watched the movies, Julie Andrews' character is NOTHING like the smoking, boozing, offensive grandmother in the books.*

### **I love her so much!**

Anyhoo, I don't want to spoil anything for anyone who wants to read this one, but I will say that all the old familiar faces do show up. Lilly, Tina, JP, & Boris to name a few. And there will be a new face that pops up, as well.

So. If you've been dying to know what happens to Mia next, I really think you're gonna enjoy the hell out of this one!

### **Louisa says**

Everything that I wished for and more! MADE OF SO MUCH AWESOME!!! I can't imagine any fan of the Princess Diaries being disappointed with this. I AM SO HAPPY :')

Mia is just as sassy, hilarious and bumbly as she was in high school. Michael is still a dream and every girl's fantasy. (His emojis cracked me up every time, I can't even.) Grandmere continues with her Sidecar swilling and being obnoxiously rude. Lilly, Tina and co. remain supportive of our favourite Genovian princess. And the proposal + wedding... AWW.

Time to get my hands on Olivia's book. But first, can we pretty please have a sequel?!?! I need to know how Mia and Michael (view spoiler)

--

My teenage years were spent with Princess Diaries books. I kid you not - I can chart my progress through puberty with them. I desperately wanted combat boots (I owe my love for boots to Mia, really), wanted a Michael, wanted a Fat Louie, but most importantly just related so much to Mia (though I'd rather not be a princess!). While I've had my problems with the series (see: the seventh through ninth books), it's still one of my favourite guilty pleasures ever.

**So to find out that Meg Cabot's writing a new adult Princess Diaries book?**

OH. MY. GOD. It's like she's reviving all my favourite childhood series: first the Mediator, then this!!!

I'M SO EXCITED OH MY GOD. I NEED MORE MICHAEL. NOW. A ROYAL WEDDING  
SDASJAFKJ; PLEASE!!!

---

## **Giselle (Book Nerd Canada) says**

An Electronic Advanced Reader Copy was provided by the publisher via Edelweiss for review.

Mia is now twenty-six years old. She's come far from her teen years and has proven to be a wonderful princess of Genovia. She has wonderful supportive friends, a job she loves, a loving but meddling family and Michael, her high school sweetheart. Then she finds out something about her father that could change her life forever.

I pretty much devoured this one. Written in a diary style, it includes written diary entries in Mia's narrative style. There's also snippets from newspapers, Internet articles and my favourite one of all text messages. So many funny bits, I couldn't help but laugh out loud. Not only does Meg Cabot get into the heart and soul of her main character, but she also gives sunny personalities to the secondary characters. Mia's two best friends have been there from the beginning and I love how different they each are yet they are both so supportive and loving towards Mia. Lily and Tina are just the best fictional friends you could ask for. Then there's Michael who is still the smartest, yet very wily and flirty at the same time. His emoji stories made me laugh out loud too. Can I also say how romantic his proposal to Mia was?? AHH SO CUTE \*swoons\* I don't know if I should comment about Mia's Grandmere because some of the things she said made me angry, but I have to remind myself she's also fictional.

Reading Royal Wedding brought me back to my teen years and I loved every minute of it! If you haven't read this series yet, give it a go..I know you'll laugh out loud as much as I did.

RATING 5/5

QUOTES

"I don't know what's happening to me. I lie when I should tell the truth, and tell the truth when I lie." (4)

"Honestly, what good is owning a castle if the person you love doesn't want to share it with you?" (13)

"You would think that in the enlightened era in which we live, a single girl could have a boyfriend and a career and also a healthy sex life without getting called names." (55)

"We need to have a relaxing weekend away from orange-throwing Genovians and your insane family." (92)

"Grandmère believes that Ron Weasley, not Voldemort, is the villain of the Harry Potter series." (163)

"Did your brain skip out through your vagina along with the baby when you gave birth?" (223)

"However much they're paying teachers these days, it is not enough. Middle-schoolers are animals." (295)

## Natalie Monroe says

**EDIT 1/6/2015: Just a friendly reminder this comes out tomorrow.  
GETITGETITGETITGETITGETIT.**

Buddy read with the fabulous Aly!

*"Now grab the bag and get downstairs. Are you even dressed? The clock is ticking, Thermopolis. The jet leaves from Teterboro at eleven."*

*Jet? He's hired a private jet? Who does he think he is all of a sudden, Christian Grey? I am not okay with this. I'm not some shy virginal college student who only owns one shirt."*

Someday when I'm old and incontinent, I'm going to be shaking my cane at kids who're reading about bedazzled mummies or sexy okami and yelling, "Meg Cabot is the Queen of YA! *Queen*, ya little shit! Now get me more porridge!"

The Princess Diaries is what got me into YA in the first place. I grew up with Mia's obsession with her A-cup boobs, attending royal functions, witnessing her mom marry her Algebra teacher, snagging Michael (and losing him five books later), battle depression, and her ultimate happy ending. Forever Princess remains my favorite Princess Diaries book to date.

In this installment, which I firmly believe is a bridge to ease readers into From the Notebooks of a Middle School Princess, Mia is twenty-six, working full-time and about to get married to Michael Moscovitz.

But because Grandmere is a nightmare (who can forget Helen and Frank's supposed wedding?) and the paparazzi like being paparazzi, there are... complications.

*"Is Michael Moscovitz the world's greatest lover? 'YES!' says sex-mad Princess Mia, declares the cover of this week's InTouch.*

*Michael's dad thought this was so hilarious, he bought dozens of copies to give to his friends and even his patients. Michael's asked him to stop, but his dad won't listen.*

*"You really expect me not to buy this?" Dr. Moscovitz asked. "My son is the world's greatest lover! It says so right here. Of course I'm going to buy this!"*

Oh, and Mia's long-lost sister isn't the only bombshell in Royal Wedding. Not by a long shot.

Mia's all grown-up, too. I'm constantly amazed at how Meg can write Mia as a 14-year-old in book one and 26 here, yet still have Mia be quintessentially *Mia*. Worrywart, Greenpeace-loving Mia.

*"Am I doing so many public events these days that they've begun to blur? Am I slipping into early-onset dementia? How early does early-onset dementia begin, and what are the symptoms besides forgetting where my clothing comes from? Is one of the symptoms a twitching eyelid?"*

And Michael. Le sigh. *Michael*.

*"The part of the press release about me asking your father's permission to marry you was true—well, partly true, anyway. I didn't ask permission—I knew you wouldn't like that, it's sexist. You're not your father's property.*

*...I spoke to your mother too because she played an even bigger role in raising you."*

Keep your vampires, werewolves, and aliens. That's the fictional boyfriend I want.

If you haven't read The Princess Diaries yet, what the hell are you waiting for? Go to your nearest library and ask for my girl Mia Thermopolis. Go! And get me some prune juice while you're at it.

*ARC provided by Edelweiss.*

**Booknut says**

**This book is *everything*!**

It's finally happening guys - one of the fave literary couples from my childhood is getting married!!

There are not enough happy dance gifs in the world to express how awesome this book was. Not only was it a trip down memory lane, but it was also filled with spot-on humor and heartwarming moments that made me want to laugh *and* cry happy tears into a bowl of ice-cream...and happy dance some more! :)

## Review

4.5 Aww, that was just adorable and amazing read. I was smiling towards the end. I was deliberating on giving this a four star rating, but I'm not gonna because this was just cute fun read. I'm still not sure how I feel about Olivia, but I hope we have a sequel. Thank you Meg Cabot for writing this story! My full review @ My Little Corner For Books

**PRE-READING**  
**IT COMES OUT TOMORROW**

**WE HAVE A COVER!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!**

So excited for this book!!!!

**I finally preordered it!!!!!! It's going to happen!!!!!!!!!!**

**IT'S SOOO CLOSE NOW!!!!!!!!!!!!**

Me when I found out:

When I read the date: 2015!!

Mia and Michael are back!!!!

**Victoria Aveyard says**

**I CAN'T WAIT MY BODY IS READY**

---

**Brina says**

I am in the process of raising three daughters who are such a contrast to myself. Whereas I am content watching sports or reading historical fiction or mysteries, they would rather watch a Disney movie intended for girls during the Super Bowl. Recently, my older two daughters discovered *The Diaries of a Middle School Princess*, which has brought the *Princess Diaries* to their level. I decided that if my oldest daughter can sit through the Super Bowl and cheer in the right places, then I can read a "girly" book. On that note, I decided to read *Princess Diaries: A Royal Wedding* by Meg Cabot in order to discover my girly side for a day.

Princess Mia Thermopolis of Genovia is finally marrying her long time boyfriend Michael Moskowitz. The two have been together since high school when they were brought together by Mia's best friend, Michael's sister Lilly. Unlike the majority of people who can get engaged and plan a wedding with little than the normal stress, Mia has to plan hers with both the tabloids and the world watching her every move.

Many believe that Cabot's long running series is a satire on the life of Kate Middleton. Yet, in this adult version, Mia discusses her friendship with Kate. After all, they are both royals. This book shows what it is like to be a twenty something in the 21st century-- constant texting, internet usage, and the need to constantly be plugged in. Other than being a princess, Mia is no different from other millennials who text rather than call and order their groceries from an online delivery service. In this regard, I enjoyed how Cabot humanizes as much of Mia's life as possible.

Of course, no royal life would be complete without scandal. In this case, Mia has found out that she has a twelve-year-old half sister, who she wants to meet and bring into her family immediately. With online news services tracking her every move, this is not an easy task, especially with it being an election year, and her grandmother Clarisse constantly looking over her shoulder. The story line with Mia's sister shows how royals are not the same as the rest of us. Rather, they live a storybook life that the majority of people can only dream about.

I have not read Cabot's other installments of The Princess Diaries, yet I laughed at Mia's diary entries and during many of her exchanges with both Clarisse and her friends. This book is not going to win awards for literary prowess, but it was fun to read on a gloomy winter afternoon, and also leaves the door open for future adventures about an adult Mia and her family and friends. While I would still rather read mysteries as my in between books or better yet watch sports, I am glad I read a Princess Diaries book so I have more talking points with my daughters. On that note, I gladly rate A Royal Wedding 3.5 bright stars.

---

### **Jessica says**

4.5 stars

Can't believe that this series is over!! I really really liked this book but it maybe had a little TOO much going on.. That's the only reason why I took away half a star. I loved getting to see Mia all grown up and getting married. I loved finding out where all her high school buddies were at and who were still together and all that. There was talk that there MAY be another Princess Diaries adult book and I really hope that's true! I'd read books about Mia forever.

---
