## **From Reader Review Scooby-Doo! and the Vampire's Revenge for online ebook**

### **Meghna says**

My book had a few pages missing so I couldn't really read it.

---

### **Brittany says**

My 6 year old is obsessed with Scooby-Doo, so when he saw a whole section at the library for Scooby books, we had to grab a few. He loved this book.

---

### **Jerry says**

A blast. This kid at heart enjoyed it.

---

### **Rosa Cline says**

This is a Scooby Doo chapter book and doesn't have many illustrations in it, (so if you are reading it out loud the listener may get a little bored with out the illustrations) In this one the gang go to a motel where there is an auction of very valuable things. One amulet goes missing and the gang has to find the one that took it, in the mist of EVERYONE dressed as a vampire!

---

### **Erin Al-Mehairi says**

Finished this up with my six year old, who...yep...reads chapter books. She liked it alot but said she figured out who the vampire was early on! lol

---

### **She's Stacked (Jo-Anne) says**

A typical solid read for young readers who are becoming more accomplished. Very simple storyline with the typical resolution.

---

### **Dolly says**

We love all things Scooby-Doo, so whenever we find a Scooby-Doo book we haven't read yet at our local

library, we just have to borrow it. The stories in the Scooby-Doo! Mysteries series are simple, fun, and we enjoy reading them together. Right now, our girls really like these short chapter books, but they also like the shorter picture books too. We've read over sixty of these stories, but there are so many more out there...I think we'll be having fun with these stories for years to come.

This story is rather simple and involves an auction at a hotel on Halloween and a costume party filled with vampires. It was a quick read and we enjoyed reading it together.

---

### **Amanda says**

I'm pretty sure that I read this Scooby-Doo book. I used to own tons of these but never read them. This is one that I think I managed to pick up and read. I think any Scooby-Doo fan would love these books and all younger kids would also love them.

---

### **Joycetho1 says**

I didn't like this book that much. It was kind of boring, and not that detailed. In my opinion I would not like to read this book again. In other words, I would not recommend reading this book.
