**The Last Survivor** Andy McDermott

**Join Nina Wilde and Eddie Chase in a digital exclusive short story from the international bestseller Andy McDermott. Also contains an exclusive extract from THE REVELATION CODE, the next in the Wilde & Chase series**

Nina Wilde is pregnant and feeling very alone. Reeling from the events of her last mission, in which a close friend died in their attempt to stop a resurgent Nazi force from stealing a great archaeological treasure, all Nina can do is try and find solace in her work.

But there is one last survivor. A man determined to take his revenge on Nina for all that befell his brethren. Now he is in New York, waiting for his chance. Can Nina's husband, former SAS soldier Eddie Chase, stop him?

## From Reader Review The Last Survivor for online ebook

### **Karsyn says**

Ok for what it was. Almost all action, a quick story in the series. It was good, but I always enjoy a full story more. Nice for a good quick read, since I haven't had a lot of time to get any books in lately.

### **Paula says**

Meh. I basically just paid five bucks to read the equivalent of maybe two chapters of a normal book. Bit of a rip-off, but I wanted to stick with the chronology. More of the same really. Car chases, arguments, bad guys, bad one-liners and a not entirely satisfactory ending.

---

### **Nicolene says**

Same action packed adventure as in the rest of the series, not disappointed. My only complaint would be that it was too short. I always want to keep reading after every 'Wilde Chase' there is!

---

### **Robert says**

The helicopter chase seemed to go on a little long. Other than that, if you like McDermott, you'll enjoy this story.

---

### **Tommy says**

The overall storyline is familiar as Eddy and Nina get caught up with Nazis. Despite that it is still fun and I am getting the next book today.

---

### **Rex Grainger says**

Excellent short story from action maestro Andy McDermott, which was suspenseful from beginning to end. Basically, a villain from Andy's previous novel is out to wreck revenge on the heroic duo, Nina Wilde and Eddie Chase, and he has targeted Nina. Of course, Mr Chase comes to the rescue. Unfortunately it's short, but it's a great way to tide us over before the new full length book.

### **Paula Howard says**

The only thing wrong with The Last Survivor.....it is too short, but that is what it is.

Adventure find Nina while pregnant. Thought all those old Nazis were dead....think again. The last survivor is out for blood....Nina's.

### **Phyllis says**

Great lead in to the next book.

### **Theresa says**

Nina and Eddie have a disagreement about how Tina's writing her book so she goes off to an Italian food festival by herself and gets kidnapped by the last Nazi survivor. There's an interesting chase scene where Eddie destroys New York trying to rescue Nina. And there's a few hints for the upcoming book. But some of the plot points are corny and cliche.

Quick Thoughts: 1)At the bottom of this review I added a quick review of a story I found on McDermott's website: 'The Nexus Imprint'.

2)It seems like every book they get in an argument that leads to one or both going off in a huff and gets them into danger.

Fave Scenes: the calzone and flying lessons.

'The Nexus Imprint' is about a HS student who ends up on trip to another civilization with one of her teachers and ends up on the run from the Enemy who want the information hidden in her brain. It's written for young adults and sounds corny. I almost didn't read it, but once they get into their space adventures it got interesting. It's like a High School version of 2001: Space Odyssey. In fact I liked it better than the Wilde-Chase story. I do have to warn you though there's a lot of physics and astronomy facts involved.

The last Nazi is trying to get back at Nina for killing his cohort.

### **Nigel says**

A great Wilde and Chase short story linking on from the last book. One person looking for revenge and

Eddie saving the day in his own very special way. Since filler while waiting for the Revelation Code

---

### **Lori March says**

This could have been another chapter in The Kingdom of Darkness. Suppose I could look at it as a snack between books though.

---

### **Lyn Richards says**

As usual this short story of Eddie Chase and Nina Wilde getting into ridiculous action packed situations doesn't fail to impress. I love McDermott's action packed stories as a way to escape.

I love the characters of Eddie Chase and his cheeky English humour and ability to get himself into trouble, along with the super intelligent Nina Wilde.

This was a great short story, enough to whet my appetite for the next Chase and Wilde installment.

A great holiday escapism read.

This book is also called The Nexus Imprint so far so good like all of Andy's books I wish I could get it in paperback to so I can add it to my collection at home. Andy is also in the works of signing a deal to get The Hunt for Atlantis on the big screen
