THE MAVERICK DOCTOR AND MISS PRIM (Rebels with a cause) by author Scarlet Wilson is a Mills & Boon and Harlequin Medical romance series release for August 2013.

Dr. Matt Sawyer is a loose cannon after his wife and unborn child died. He blamed himself for their death. And here he was once again caught in the midst of an infectious disease outbreak. How would he deal with it this time around?

Callie was the doctor sent by the infectious control division to help contain the outbreak. She was the prim doctor who did everything by the rulebook. How would she cope with the rebel doctor who flaunted the rules and did everything outside the box?

And to top it all off, she was seriously attracted to the maverick doctor!

The Maverick Doctor and Miss Prim is a very fast paced and a thrilling story. I loved it, and once I started reading I had to keep reading till the very ending.

Highly recommended for all lovers of medical romances.

ABOUT THAT NIGHT (Rebels with a cause) by author Scarlet Wilson is a Mills & Boon and Harlequin Medical romance series release for August 2013.

Dr Evan Hunter is the unit boss yet he transgresses one night and kissed the very hot Dr Violet Connelly. Though they didn't speak of it later, the attraction was there just simmering under the surface. So when they were posted to remote South Africa with primitive facilities, they saw different sides to each others' characters and fell in love.

They both had secrets and baggage they were weighed down under. They needed to unearth each other's secret to reach some sort of a happy ever after.

ABOUT THAT NIGHT is an astounding journey to South African country where we learn the medical hardships faced by the people there. And when Violet opens her traumatic heart and shares her grief, the emotions at that point is so palpable that I could actually feel what Violet was going through. Author Scarlet Wilson has come up with this unique and fast-paced series about the communicable disease centre which a reader could actually visualize while reading.

Highly recommended for all lovers of medical romance.

I won this book on goodreads and the Author signed it for me, which was very kind of her.

The Maverick Doctor and Miss Prim:

Dr Matt Sawyer has been missing for about six years. He worked for the DPA overseas with his wife when she suddenly died. Now he is working in a hospital where two children turn up with what looks like smallpox. Now he has no choice but to call the DPA soon Callie who is a rule follower turns up with her team and sparks begin to fly. Dr Matt gets to see Callie in her bra and panties in the first hour after she arrives and he likes what he sees. I liked this story Yes they rubbed each other the wrong way but still they worked well and got the job done. They had some big personal issues that got in the way at times but as they worked things through they were good for each other.

About That Night:

This was a side story with Dr Evan Hunter and Violet Connelly who both worked at the PDA. Evan is the team leader and a pain in the ass. Violet applies for hands on job and the boss sends her and Evan to Africa for three months to help stop the spread of polio. I liked Violet, her personal issues were justified. Evan I just wanted to slap him being a team leader his personal issue should have been sorted out ages ago. I didn't like this story so much. But it all works out in the end.

We first met Dr. Evan Hunter and Dr. Violet Connelly in the book The Maverick Doctor and Miss Prim. I am so happy that Scarlet Wilson wrote their story. And what an emotionally one it is. The last few chapters are just gut wrenching.

Violet has been living in her own private hell for three years now. Only a few close friends know exactly how much she has suffered. After the stress of dealing with Evan's vendetta against her brother and the growing attraction she feels for Evan she puts in for a transfer from the Atlanta office of the DPA.

Evan Hunter has always thought that Matt Sawyer was at fault for Helen's death. He always believed Matt had to have known his wife was pregnant. But really deep down Evan blames himself for Helen's death. As team leader he felt he should have asked more questions when Helen said she was not feeling 100 percent and maybe the tragedy that took Helen's life could have been avoided. Now Evan has been sent to Africa to head up another team. Also on this team none other than Violet.

Sent to Africa, they will be trying to administer Polio vaccines in an attempt to make polio extinct. But neither one of these two can forget the passionate kiss they shared months ago. Soon they are sharing more than a kiss.

This is more than just a romance story. It shows two people coming to grips with things that happened from their past. It also shows forgiveness, growth, compassion and strength. I recommend both this and the first book in the series. Both can be stand alone novels but I think they are better if read together.

5/5 stars

I received an ARC of this book from the Author in exchange for an honest review.

I liked both of these connected stories. The settings were very intriguing and it was interesting to see how the characters interacted not only with each other but with the circumstances they faced. Good reads :)

It just gets better and better!!

This double billing from Scarlet Wilson was indeed a perfect couplet that started with the very first chapter gripping the reader with two blows that set the scene for a cauldron of attitude, emotion, desire, lust, fun and family passion.

In 'The Maverick Doctor and Miss Prim' Scarlet deftly uses Dr Matt Sawyer and Dr Callie Turner to guide the reader through detailed medical crises and emergencies whilst building the tension , turning to attraction, and then all out passion, of the two main characters who mix like oil and water.

A fantastic read and a full five stars from me.

The second book 'About That Night...' was cleverly integrated to the first in such a way that the reader is initially familiar with the main characters Evan and Violet but is then quickly transported into the depths of their ambitions, fears and desires in an African setting where both need to call on their inner strength and convictions as well as being totally dependent on one another. A totally different emotional rollercoaster from 'The Maverick...' and packed full of punch, romance, and an amazing sensitivity.

Once again five out of five for Scarlet !!!!!
