### **Action packed and full of details!**

I love the detailed account of one day in each book. Really gives you the feel of what it might be like if we did have a zombie apocalypse. Well, the team has super hero skills but if you're going to imagine a virus turning most humans into zombies you really need super heroes. The camaraderie of the team and the character development really stands out. Black humor that gets them through the tough times and lets them blow off a little steam. The dog Meredith and her ability communicate the importance of the pack mentality that gives the team their own hive mind is very intriguing. Got a little confused about the events at the Fort that (spoiler alert) ended in Lani's death and when Lilly killed 19 people to get the fort back under control was not detailed enough. But these are just nit picky things. Over all this book is definitely a five star!

### **THE UNDEAD DAY 19**

Another great book to read in the series by RR Haywood. Each book brings action and characters that pull you right into the story. I like how RR Haywood has all of the characters strong individuals who are just as bad a\$\$ed as the leader Howie and add up to be a great undead killing team. Great series!

### **Still going strong.**

Richards books are great, he has a different way at looking at a Zombie Apocalypse, he has found away to make you laugh and cry, a great read.

With a legion of loyal fans, he always manages to keep it fresh with new characters and storyline. Has something for everyone, definitely the best Zombie series out there.

## **James Dickie says**

This episode of The Undead series marks something of a new beginning. Not only does the first section of the book focus on a single character, but the nature of the threat our heroic lads and lasses face is changing rapidly.

I read the first fortnight of this series in one glorious binge, often staying up all night to finish a book. This time I savoured the excitement. Although the feel of the book is somewhat different, the structure and complexity of the story has ramped up. It's not simply a series of bigger and bloodier battles, but there is the

sense of setting up a greater drama to play out over the coming days and weeks.

If you've already read the previous books in the series then you won't need me to tell you to read this one. If you're coming at it fresh then go back and start from Day 1. You won't regret it!

An improvement on the last one.....

Can I just crawl into these books and hang out with these characters??? (Without the death, zombies and blood of course.) I am in awe/love with each and every character. The trials they go through are just amazingly well written. I've laughed and cried once more...off I go to the next one!

Also, can we have a youtube tutorial on how to properly do Cookey's new sock dance?

#### **Definitely have new ideas of what to do in a zombie apocalypse!**

I'm still loving this series and getting more and more attached to the characters, though I wish Blinky's stomach was as tough as her attitude! Blah! I was so relieved when Nick and Lillie were reunited and when Howie finally got his coffee and I was amazed at what happened with the fort! Can't wait to see what happens when 'he' finally arrives ( thinking I know who HE really is and wondering WHAT he is exactly). Thanks again for another awesome journey. I couldn't leave a rating at the end of Day 18 as I had a technical error right at the end of my writing it!

**Wow**

Loving this series but have to say day nineteen is one of the best! Thoroughly enjoy all the characters and their personalities, full of action, excitement and humour and don't forget Zombies
