Varius Madison Stevens

Hybrid Varius has found his other half in Lena, a nurse he rescued from the crazed fanatic Reverend John. Still suffering from her attempted murder at the hands of John and his men months prior, a relationship is the last thing on Lena's mind. When Varius is sent to help Lena pack up her things at her old place, he might have the chance to convince her that he's the man she needs.

Lena can't seem to get her emotions under control. One second she's panicked over the idea of leaving the lodge, the next she wants to tear off the clothes of the super-sexy hybrid. A trip back to her parents' place offers the emotionally battered woman a chance at recovery.

Unfortunately, spending time around a hybrid makes Lena a target, both of a ratings-hungry reporter and an old dangerous foe of the lodge.

Varius only wanted to convince Lena that she could love him. Now he'll have to save the woman he loves or risk losing her forever.

Doing one thing really well

I'm so glad that cultist John was taken care of. He was so crazy and he just bothered me no end because he gave real Christians a bad name. I think the scariest villains are not the intentionally evil ones, but the crazy ones because you never know what they'll do next. Another story well done.

Great

Various and Lena's story was a great addition to the Luna Lodge series. I recommend this book and the whole series.

Varius is amazing and so sweet, I loved the way Lena's parents were with him, this book was filled with romance as well as action and like Madison's other Luna Lodge books you just can't wait to start the next one.

Iona Fincati says

I have enjoyed most of the Luna Lodge Books. And this wasn't too bad. I was happy that Madison Stevens spent time on the sex scenes and made them more detailed and exciting. I just felt like the story was a bit flat. So just another semi enjoyable quick read in the Luna Lodge series

Finally!

So glad to see Reverend John finally get his just rewards. He was more of a false prophet than the prosperity

preachers you hear on the radio. Luna lodge is a very enjoyable series. Each book introduces another hybrid and their Vestal or mate. I don't do spoilers so you'll have to read it yourself to see what happens.
