A BBW who's new in town + a dragon shifter who's new to being human + a very confused dog named Mouse = one sexy fairy tale romance!

Curvy science teacher Becca Stafford has just moved to Gray's Hollow for a new job. Over tea with the mayor's wife, she soon learns the town's biggest secret--it's the home of two dragon shifters, the mayor and his brother Ilie. Becca wants to learn more about the scientific find of the century, but as soon as she meets Ilie, without so much as a true love's kiss, he transforms into a gorgeous (and naked) man.

Billionaire dragon shifter Ilie Gray has lived as a dragon since he was a child. His mother always told him that someday he would meet a woman worth turning human for, but he never thought it would happen when he recognized his mate in a single glance. He also never thought that changing into a human might cost him the friendship of his dog Mouse, who no longer recognizes him. Becca seems happy with his human form, but can she love a man who still sometimes wants to be a beast?

Beauty and the Billionaire Dragon Shifter is a standalone dragon shifter romance. No cliffhangers!

Just could not get into this one. Premise should have been great but story just didn't capture my interest.

Another in the Gray's Hollow Dragon Shifters series. It's a cute story, but I would have liked to see more time spent on Ilie's adjustment to being both human and dragon.

Virgin hero shifts first time since he was 13 in front of the love of his life, his dog sprints, he realises he's naked, SIL he scared half to death earlier shows up with clothes!

?????

Heroine was also very pleased to notice that he tries to cover himself in front of the SIL, but not in front of our heroine.

What's not to love ?

Yesenia Gonzalez says

So far this one was my favorite.

Ilie has been a dragon all his life as a young boy he shifted into a dragon and never shifted back. Now that his brother has a mate he wants that too but nobody in town is his mate. Until Becca shows up in town she is a new teacher in town. Cara as the mayors wife tells her about dragons and Becca isn't scared which is good because she ends up being Ilie mate and he suddenly turns back into a human. I thought it was cute that he doesn't know much because he has been a dragon for so long. He appreciates the little things like his favorite candy or just a simple show that Becca watches. Ilie and becca are great together and happy she was able to bring him back.

Not sure how I feel about the next book (twins and 1 girl eh) so I might skip it and go to the next brother

Definitely a good read

Beauty and the Billionaire Dragon Shifter book 2 in the Gray's Hollow Dragon Shifters by Zoe Chant is a good relaxing, enjoyable read. My free opinion. Thanks

I love Ilie!

This is Ilie and Mouse's story, about finding their third. Becca comes to town to teach science and ends up getting taught a few things herself! Mouse can't figure out what happened to his owner, but with Becca's help he'll find his dragon. Ilie has to learn to be more human, and it's a fairly funny experience. I think people would love this book.

Short story

Enjoyed reading Ille's story.

A short cute simple easy story about Ille meeting his mate. Very insta fated mate/love at first sight. When he first sets eyes on Becca he transforms out of his dragon form for the first time in years. Once again Mouse was a star in this story.

Beauty and the Billionaire Dragon Shifter

Gave it a five star rating. Loved the story. Can't wait to read the next book in the series to find out what happens next.

Man I just loved how sweet this was. I really loved Ilie and he had a child-like quality to him because he's been a dragon and in his form since he was a kid. Never changed to human until he happened across Becca who happened to be looking for him. LOL. She accepts the dragon thing fast because Cara introduced her to Gus's dragon form. So, it was quick as well. She meets Ilie naked no less...lol and instant connection! It was rather sweet and endearing. He knows nothing of the world now...well he does but its way different than when he was a kid. Becca showing him how to make love was just sweet and hot. He learned fast! :) Sweet Mouse found his friend! Poor doggie was confused! I really hope we meet more of the brothers. This is a great series. Sweet and sexy and such likable characters and a different look on dragon shifters. Its unique.

Sweet and shy dragon hero

This is the second story in the Gray's Hollow Dragon shifters series. Each story is a complete short story, just a continuation about the next Gray brother. The author briefly introduced Ilie, the H in the first story. Ilie is such a sweet hero, you can just feel it. I like that he is shy and sweet, not that he doesn't quickly overcome this when things heat up with his mate, Becca. He is a great pet owner, even as a dragon. In both stories, the H and h feel a deep emotional connection immediately. The story is short, but not to short. Just the right amount to get you invested in the characters, get hot with their mating and finally a happily ever after with no cliffhanger.

I recommend this book to anyone over 18. I hope the author continues the Gray's Hollow Dragon Shifter series. Laurence story should be next!

Dragon shapeshifter twist on Beauty and the Beast. A fun 30 minute read!

Fanniny Moreno Zavaleta says

Cosito Ilie ??????

It's not exactly what I'm asking about shifters waiting for their mates... He waited because he's been a dragon since he was 13 and there aren't many female dragons flying around town. Anyways he was too adorable. Something didn't work out with the h, probably the mother hen attitude doesn't work with me ??
