### **Marcy Heller says**

Having a Kindle version of a travel guide is imperative in these days of easy online accessibility, but Fodor's, which has been a go-to resource for me for many travels over the years, really does a poor job being an online travel resource. The layouts, chapters and links are beyond confusing, and one easily loses one's place while trying to navigate information. For my forthcoming trip to Buenos Aires next week, I'll be taking along The Lonely Planet guide, and using TripAdvisor as a resource. Fodors will not be accompanying me.
