Ginger the Stray Kitten, written by Holly Webb, Rosie visits the stray cats living on her grandmothers farm. She has a favorite she calls Ginger. Ginger is a very shy kitten, and slowly warms up to Rosie. One day the farm is under construction and all the other kittens are gone. Ginger is all alone. What will happen to her? Will Rosie come to save her or will she have to live all alone? Read along as this story of friendship and love will warm your heart. Appropriate for children ages 7 to 12.

Another cute and perilous animal story from Holly Webb. Different to most of them and although the ending is never really in doubt it builds up tension for it well.

I cried. Holly's writing nearly always has that effect on me.

This was a very suspenseful story, especially for our girls. They were on pins and needles the whole time I read it (and we read the book straight through in one storytime), sure that disaster would strike at any moment. They empathized with Rosie's emotions as she searched in vain for the little kitten and grew to love him too. The ending was somewhat anti-climactic, though, as if the author was done teasing the reader and just tossed the treat out to end the play session. We would read more books by this author - this one was definitely a hit with our little animal lovers.

Personal Response:

To the my Freshman year, I chose a very easy book to read. Even though it was a very easy read, I really enjoyed reading an under level book. It was fun to be able to pick up the book and be done with only 30minutes to an hour later. I thought this book was very enjoyable to read and was a good relaxation time. For the book being made for younger kids it was well written, and I loved the happy ending.

Plot Summary:

Rosie, a little girl who has always been found of kittens loves walking home with Gran after school. Gran allows her to stop by the old barn and feed a little of stray kittens that remain there starving. If only Rosie can get the little orange one closer to her and earn her trust. This kitten is Rosie's favorite, that she names Ginger. One day though, while Rosie is walking to the barn after school, the barn has been turned into a construction zone! Rosie worries for the kittens lives and asks the workers frantically if they have seen any kittens. But she was turned down. Then she goes back one day sees Ginger from inside the fence. So they ask the worker if they can enter but he walks away grumpily. Meanwhile Ginger then sees Rosie walking away, and cry's out to her but does not here her and goes home. Then one day, Rosie goes back and digs a hole

under the fence and Ginger slides through. So Rosie takes Ginger home and loves her so much.

Audience Recommendations:

I would recommend this book for anyone the ages 7-10 or older if they want to read something easy. Little girls would probably enjoy this book more than boys would because they are more of a girly read. But if a boy would like to read it they can by all means. This book would be good for someone who enjoys realistic fiction, animals, and happy endings. Overall your kids will probably really enjoy it.

Nämä on vaan aina yhtä ihanan koukuttavia. Tokaluokkalainen luki kertäistumalla noin tunnissa ja tunnusti itkeneensä lukissaan. Nyt on toivomuslistalla punainen kissa. Loistovinkkattavaa ykkösestä neloseen.

Oi jos Webb vielä laittais edes pariin kirjaan päähenkilöksi pienien eläirakkaan pojant!!!

Ez aranyos. Nem mentem a falnak t?le, de balzsam a léleknek, mert az els? pillanattól az utolsóig érz?dik a kislányon, hogy felel?sségteljes, szeret? és türelmes gazdija lesz a cicónak.

I thought that this was a really cute book. I have a lot of these books and they're all really cute, but this one is one of the cutest. The book was about a girl who always played with the stray kittens at her Grandma's Friend's barn, but the barn was sold and torn down so the people who bought the barn could put more houses. All of the kittens but one were all taken to the shelter and so Ginger (the cat that was left behind) was stuck. The little girl finally gets to the kitten after multiple tries, and the girl takes the cat home.

4 Stars

This book was sad and also had really good happy ending. I guess it was sad to me because I am a animal lover and I don't want to see or heard bad things that happen to the animal. In this book Ginger is a stray kitten and she is lost in the middle of no where and a sweet and kind and caring family comes and rescues her. I love to hear or see things like that because it means that someone did something great for an animal or someone. I always love reading Holly Webb's books because they are so touching.

Do you like cats? If you do, you should read *Ginger the Stray Kitten* by Holly Webb. I like that the girl likes kittens too. For example, in the story the girl wants to take the kitten home. Maybe next time, the author could add some boy characters. Overall, this book is amazing!

I read this book to my daughter who loves cats. It was cute and captivating and quick to read. However, some of it didn't make sense to us. Why wouldn't her grandmother go and ask the workers to get the cat while it was sitting with her granddaughter? They didn't believe her the other times she asked about a cat, but if she'd gotten them while the cat was there they would have had to believe her. Instead she stands across the street until the car runs away? That seemed really stupid to me; my daughter questioned it too.

I literally cried my way through this book! The story is very well written and very real. Holly Webb can certainly evoke emotions with her writing. At the beginning of the book is a list of her other works and short descriptions of each in the back. All deal with an animal that is lost or stolen or lonely - I'd cry through those too. which means I probably won't read them. I just can't handle that. Humans are so crappy to animals to begin with...but I'm really getting off point.

The writing is very well done. The characters are well rounded - not too many nor too few. Rosie, the main character, is determined in rescuing Ginger. Ginger is a tiny, 5-week old tom who loses everything when the woman who owns the farm he lives on moves and the land becomes a construction site.

When I saw this title I had no idea the story would be very close to my own experience in rescuing out ginger tom. He was a scared little guy in a drain pipe who had to be lured out with ham sandwich. He was starving and scared and hurt; now he's a big lovable guy safe and happy in his home.

The main emotions felt by the main characters, Rosie and Ginger, are frustration, fear, sadness, helplessness, and then joy. Yes, the tears end up as happy ones. (That's not always the case for farm cats that lose their home.) Be ready for the reader to feel the same.

Rosie loves visiting the farm cats that live in the farm next to grandma's house. Her favourite kitten is a ginger one. At first, ginger is very shy, but she starts building her courage. Then the farm is sold and all the kittens are transferred to a rescue shelter. Except the ginger one, can Rosie save the kitten?

Faith says

It was a cute little story ! I took about an hour and a half to read!
